Subject: Complaint

The Honorable Marc Spitzer
Arizona Corporation Commissioner

Dear Commissioner Spitzer:

The news about Southern California Edison's proposal of another Devers-to-Palo Verde NGS 500kV Line filed with the Commission is not good. This line would not have any bearing on power from the PVNGS.

A biennial report at the ACC shows that Az. is "power deficient", meaning our utilities have to go elsewhere to bring in addition electricity to meet local needs.

What power in Az. does SCE think is here that our utilities do not have? The merchant plants are not all in operation. I object any approval of the SCE proposition because it will cost our utilities, and ultimately cost our local electric rates to go up again. The recent APS hearing was contesting.

A hearing is scheduled for June 26th. As an Az. electricity consumer, enter my complaint in the record for the hearing of the Siting Committee.

CUSTOMER SENT THE FOLLOWING E-MAIL TO THE COMMISSION.

From: James Vaaler [REDACTED]
Sent: Thursday, June 15, 2006 4:43 PM
To: Utilities Div - Mailbox
Subject: Palo Verde - Devers transmission line

To whom it may concern:

I would like to protest the proposed construction of another unneeded power line in the state of AZ for the sole benefit of CA power users. This newly proposed Palo Verde - Devers 500 KV power line should not be built. California needs to generate it's own power within the boundaries of that state. Renewable energy sources such as wind and solar panels installed on individual homes is an option So. CA. Edison does not seem to serious about exploring Also, Arizona's Kofa Wildlife Refuge is not the place for anymore power lines.

Thank you,

Jim Vaaler

To: Utilities Div - Mailbox
Subject: Hearing Docket for 6/26/06.AZ Sitting Committe

Attention Arizona Corporation Committee Members, Ms. Kristin Mays, Mr. William Mundell, Mr. Marc Spitzer, Mr. Jeff Hatch-Miller, Mr. Tom Gleason:

We understand that Southern California Edison is requesting another 500kV line to take Arizona's electricity. Our utility, Tucson Electric & Power (TEP) does not have enough electricity for Tucsonans no less Californians. As TEP customers we cannot afford to be robbed of our power while expected to subsidize the out of pocket expense for this endeavor with further rate increases. As environmentalists, we feel the 500kV Line is detrimental to KOFA and the other Arizona lands impacted. We would like our protest to be part of the record for the hearing of the Arizona Power Plant & Transmission Line Sitting Committee on June 26, 2006 regarding the Southern California Edison's DPV2 500kV Transmission Line Project.
