Re: Docket #E01032C-00-0071. et. al.  
Date: 5-16-03 00-0751

DOCKETED BY CR

Gentlemen,

I have received the staff report and settlement agreement. I feel there were far too many assumptions made that did not take into account the public input and the fact that even staff implied the Citizens - APS contract was imprudent. Isn't there an obligation on some ones part to look out for the public interest. How can any situation call for such an inflationary increase as 22% to 31% of anything.

The Federal Reserve System holds down inflation and controls interest rates and thus the market. How can you allow 22% to 31% increase? How do you think businesses, schools, hospitals and even city and county government will pay such an increase? The public will get hit two and three times, not only in direct increases but taxes and groceries will increase due to this.

If as your staff implies retail competition will help, why can't it be put in place now? If the customers cost is directly related to the capital investment and the purchase price is \$93.8 million less than the present book value or capital investment. Why doesn't the cost to the customers come down as soon as UniSource buys the utility?

Re: Docket # E01032C-00-0071. et. al.

Dear Commisisoners.

I am a homeowner (ratepayer) in Mohave County and have followed the process of Citizens rate case and sale to UniSource.

Why can't Citizens and UniSource renegotiate the purchase agreement with APS before the ACC act?

Why do we have to wait until December 31, 2004 before we can obtain retail competition, we were suppose to have it some time ago. We need it within the 120 days after their contract is signed.

0751

Dear Sirs:

I am an electrical ratepayer in Mohave County Arizona. I would like to protest the proposal of 22 % residential, and the 25 % commercial, and the 31 % industrial electrical rate increase their has been no proven reason for such a large increase other than Citizens Utility Companies mismanagement.

I would also like to oppose the proposal of 18 month delay before the New Company, UniSource, is required retail competition. In light of the unheard of 22% increase the retail competition should be moved to December 2003.
