Subject: Proposed electric utility rates

RECEIVED

2003 JUN 27 P 3: 34

Dear Chairman Spitzer /members of AZ Corp Comm,

AZ CORP COMMISSION
DOCUMENT CONTROL

We are property owners in Lake Havasu City and are very concerned about the proposed acquisition of Citizens Az elect & gas division. It is our understanding that once this happens, there will automatically be a 22% increase in the cost of electricity.

We have tenants that CANNOT absorb this. Every summer we find ourselves lowering our rent so our tenants can afford to run their air conditioning AND pay their rent. Considering the majority of Lake Havasu City does not have gas available, running air conditioners here is already expensive. Especially considering most people cannot afford the most efficient units.

We believe this would have a VERY NEGATIVE impact on Lake Havasu City. Please OPPOSE this exorbitant increase.

Thank you for listening to the residents of L.H.C. even though we cannot be in Phoenix.

Sincerely,

Richard & Beverly Callagy
3635 Amberjack Bay
Lake Havasu City, AZ 86406

Subject: Citizens/Utility

As residents, taxpayers and property owners in Lake Havasu City and Mohave County we do not believe it just that the electric utility pass along price increases to their customer that were instituted through no 'fault' of the customers. We have twice spoken before the Corporation Commission (2002 and 2003) to explain our view that poor business practice by the utility does not warrant that their customer be responsible, in this instance, for an inflated and unjust increase of utility rate. Citizens contracted independently for rates; did not engage in due diligence in requesting the rates; contracted outside of their authority for the inflated rates. We do not expect to pay for their inability to conduct business in a manner which would be deemed prudent and with the intent to fairly treat both their customer base and their stockholders.

Dear Chairman Spitzer and members of the Arizona Corporation Commission:

I am a resident of Lake Havasu City and a customer of Citizens' Arizona Electric Utility. On May 1 the Corporation Commission conducted a hearing in Phoenix regarding the proposed acquisition of Citizens' Arizona Electric and Gas Divisions by Unisource Energy Corporation; Citizens' Electric Division's request to recover costs stemming from an increase in the cost of electricity (Purchased Power Fuel Adjustor Case); and a pending rate case for Citizens' Gas Division. Recently, Administrative Law Judge Dwight D. Nodes rendered his opinion to the Commission and recommended you approve a 22% increase in the cost of electricity (Purchased Power Fuel Adjustor Case) for several regions in Arizona, including Lake Havasu City.

I oppose the proposed 22% increase in the cost of electricity. While price increases for goods and services are inevitable, a 22% increase in utility rates under which all citizens must bear would severely impact our local economy and will hinder the growth and reduce the quality of life in Lake Havasu City. The ratepayer's were not involved in the poor decisions made by Citizens' management team and therefore, Citizens' shareholders and not the ratepayers should be required to bear the burden of the error in judgment made by Citizens' management.

It is our understanding the Commission will make its ruling on this issue during an open meeting in Phoenix on either July 1 or 2. I urge you to listen to the residents and voters in Lake Havasu City, consider the negative affect a double digit increase in electric rates would bring to our community, and disallow the increase in rates as currently proposed.

Sincerely,
