Subject: Rate app AZ Water Co

2001 JUN -4 P 3:18

Ms. Hood:

AZ CORP COMMISSION  
DOCUMENT CONTROL

I realize that your email address was included with the notice of the Hearing on the rate application of AZ Water Co not for this purpose, but the meeting is going to be in downtown Phx and my husband and I don't drive there unless it's to a hospital or such.

As you've probably guessed, we're retired and on that term 'fixed income'....which is entirely true. We support the schools, education is high on our list. We support and donate our time at various libraries, adult/community Centers, etc. Money low but we are obligated to help others.

Now, we don't want our water rates to be raised!! Why not have new customers come on-line with a 39% increase instead of penalizing all others? We live in north-central Arizona and feel we pay enough for what the two of us use. Increase the rates per number of household members, that's also a suggestion.

I'd greatly appreciate it if you would pass this message along to whomever would do any good with it. Thank you for reading this request!

Sincerely,

Mrs. Beverly J Andrews
