To Whom It May Concern:

47

I am writing this letter in hopes of persuading my elected state officials to let Rhodes Homes build their beautiful homes in Mohave County.

I live in Kingman and the growth that I have seen over the last several years is truly amazing. Unfortunately, the growth has not been planned in any manner that is comparable to the communities that Rhodes Homes wants to build.

I have been to Rhodes Ranch in Las Vegas. The Rhode's communities are far superior to the current housing construction in Kingman. Doesn't it make sense to have a master planned community, especially those that utilize smart growth development that helps conserve our natural resources? I can not believe that there is a question of whether or not this type of community should be built in this area.

As a voter in Mohave County, I urge you to let Rhodes Homes do what they do best. Allow Rhodes to build quality homes in our community.

Sincerely,

Jo Anne Beck
