Corporation Commissioner Mayes,

I am a fairly recent resident to Mohave County but I feel that my voice is still important. I work in the medical industry and this has helped me understand the advantages of growth. I have found that as the community grows, so do the tax dollars.

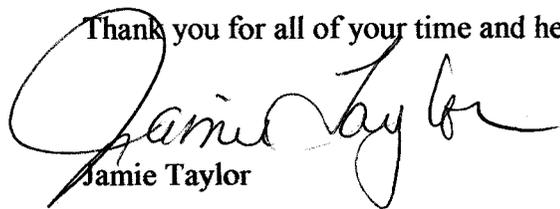

Planned growth is always better for the community than unplanned, wildcatting growth. I think that having a new, planned development in the area will not only benefit the whole county, but the medical industry as well. We are looking to better serve all of the different communities in Mohave County and the tax dollars that Rhodes Homes will bring in will help us do this.

Rhodes Homes has played an important role in the Kingman-Golden Valley area and throughout Mohave County. They have worked with us on planning medical services for these planned communities and have supported our existing communities.

I truly believe that Rhodes will help our community in multiple ways. Rhodes will offer Mohave residents a better quality of life, quality homes, quality jobs and more tax dollars. These are all things that Mohave County desperately needs.

I ask you, Commissioner Mayes, to represent me. I voted for you because I have faith that you will listen to your constituents and follow their wishes.

Thank you for all of your time and help on this issue.

Jamie Taylor
