Rule No. 3

ESTABLISHMENT OF SERVICE  
(Continued)

D. SERVICE ESTABLISHMENT, REESTABLISHMENT OR RECONNECTION (Continued)

The service charge referenced above is not applicable to a customer whose service has been restored after having been disconnected as a result of its election to bypass the Utility's distribution system and become its own gas supplier.

2. When service is performed during a period when Utility scheduling will next permit, a service charge for "normal service" will be applicable.
3. The Utility shall schedule service establishment appointments within a maximum range of four (4) hours during normal working hours, unless another time frame is mutually acceptable to the Utility and the customer.
4. Where Utility scheduling will not permit service during normal working hours on the same day requested by the customer, the customer can elect to pay a service charge for "expedited service" that workday. There may be instances where Utility scheduling will not permit same day service; however, in no case will expedited service take longer than 24 hours from the time requested.
5. For the purpose of this rule, the definition of service establishment is when the customer's facilities are ready for service, are installed in a manner acceptable to the Utility and the Utility needs only to install a meter, read a meter, or turn the service on.

E. ESTABLISHMENT OF TEMPORARY SERVICE

The Utility shall, if no undue hardship to its existing customers will result therefrom, furnish temporary service under the following conditions:

1. The applicant shall pay, in advance or otherwise as required by the Utility, the estimated cost of installation plus the estimated cost of removal, less the estimated salvage value of the facilities necessary for furnishing service.
2. The applicant shall establish credit as required by the applicable rule, except that the amount of the deposit shall not exceed the estimated bill for the duration of the temporary service.
