RE: Docket number WS-01303A-02-0870, Arizona-American Water Company Rate Increase

To Whom It May Concern:

We are residents of Anthem, Arizona, and as such, subscribers to the services of Arizona-American Water Company. It has recently come to our attention that you are looking into the pending rate increase which has been requested by Arizona-American Water Company.

We are contacting you today to express our concern over this rate increase. Based on the information we have received, we are concerned that the rate increase requested is not reasonable. Our specific concerns are as follows:

1. A substantial portion of this increase is to offset new "infrastructure" costs. It is not clear what those costs include, and we are concerned that some of the costs do not directly relate to the water and sewer infrastructure of Anthem.
2. Based on comments by AZAWC in the local newspapers, part of the rate increase is to offset past losses due to their use of overly optimistic growth forecasts for Anthem in determining their initial rates. Actual growth rates for Anthem have exceeded initial Del Webb forecasts, and build-out is scheduled much earlier than originally anticipated. These conditions should lead to greater PROFITS for AZAWC, not losses. Therefore, we have serious doubts that the real cause of AZAWC's losses has much to do with the growth forecasts.
3. There were also comments by AZAWC in these newspapers that rates could be REDUCED in the future depending on the actual growth of Anthem. We would certainly like to see a very strong commitment to future rate reduction as a condition of any current rate increase, including more specific conditions clearly spelled out by AZAWC and ACC.
4. Finally, based on comments by AZAWC in the local newspapers, it appears that AZAWC is requesting a relatively high profit margin in this rate increase.

Thank you in advance for protecting our interests and handling this matter to the best of your ability.

Sincerely,

(Signature)

To Whom It May Concern:

It has come to my attention that Arizona American Water Company wants to raise our water rates here in Anthem, I would like to protest this increase. We are now paying at a higher rate than any one else in the valley for all our services. I know the water company in the business to make money and at first when Anthem was just a few months old I'm sure there was not a lot of money made, but Anthem has grown by leaps and bounds. At first there were only a few hundred homes and now there are thousands, with thousands more to come. The projection was a build out of 10 years, with 3 years already passed the projection and changed to 2 more years, with 12,000 to 15,000 families completing the phase. There are also many businesses here and many more to come. Across the highway, there are approximately another 2,000 to 5,000 families development going in. The business in the commerce park are springing up, the front part of Anthem is being completely developed. Arizona American Water Company will be making a lot of money at the expense of many people here in Anthem that just wanted a better life for our family at a cost that is just too high.

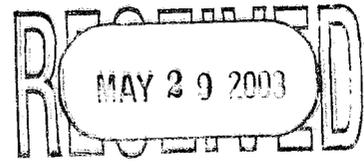

Please consider the facts before approving this obscene rate increase.

Thank you, in advance.

Sincerely,

  
Joseph Angerami
