RE: Application for an extension of Certificate of Convenience and Necessity  
Docket No. W-02740A-05-0089

RECEIVED  
2006 JUN 26 P 1:49  
AZ CORP COMMISSION  
DOCUMENT CONTROL

TO: Docket Control:

We are scheduled to have a procedure conference on July 6, 2006 to discuss our application for an extension of our Certificate of Convenience and Necessity.

In a previous letter dated May 18, 2006 we advised the commission that we hoped to have devised an efficient plan for arsenic cleanup by July 6, 2006.

As you know the issues we face are complicated, and it is taking much time and effort to investigate our options.

We are asking the commission for permission to postpone the procedural conference for a time of 120 days. We could reschedule the conference at the commission's earliest availability after November 6, 2006. This time would give the experts advising us about our arsenic situation time to compile the remainder of the necessary data they need to give us their most efficient plan.

We wanted to thank the Commission for their continued patience with us on this matter while we investigate the most efficient plan for us to use as a solution to the arsenic problem. If you have any questions please call 928/778-2600.

Thank you,

Paul D. Levie

President

Antelope Lakes Water Company
