Re: Compliance Delinquencies to be filed on or before 6/30/2006, Request for time extension for approval to construct from ADEQ, Arizona Corporation Commission's 2005 annual report, and WIFA's loan document completion. DOCKET NO. W-01344A-05-0183, and DOCKET NO. W-01344A-05-0647.

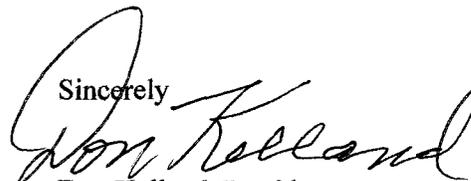

There are four Compliance Delinquencies that will be filed on or before 6/30/2006. Which are This letter of explanation, the refilling for Customer Notice of Rate Increase with new rate sheets, Curtailment Tariff, and Back Flow Prevention Tariff.

Tacna Water Management Company is requesting a time extension on ADEQ's Approval to Construct. We have submitted our engineering report to ADEQ. Our Engineering firm has informed me it could take up to four months to get approval. Attached is a letter from our engineering firm (Attachment A) with the reason for there delay. We are searching other sources to try and speed up the process. Any help in this matter would be appreciated.

Tacna Water Management Company is requesting a time extension for Arizona Corporation Commission's 2005 annual report. As per Procedural Order we must reconcile our taxes for the last three years as a corporation to correctly complete 2005's Annual Report and Financial Statement to complete WIFA's Requirements, Which we would also like to request a time extension.

An approval of the aforementioned time extensions would also affect the following Compliance Items. Filing of WIFA Financing Document's, Calculation of Revenue Requirement for Principal and Interest Obligation, and Arsenic Removal Surcharge Tariff. If you have any questions please contact Don Kelland at 928-246-3487. Thank you for your consideration.

Subject: ADEQ Approval to Construct

Dear Don,

This letter is to inform you that Yuma County Environmental Health Department will not be able to conduct the review for Arizona Department of Environmental Quality. Originally I was told that Yuma County Environmental Health Department was able to do a review in 10 working days and obtain ADEQ Approval to Construct at that time.

As the documents were submitted for review to County Environmental Health Department, I was informed that even though County Environmental Health Department conducts reviews on behalf of ADEQ, they are not authorized to conduct reviews on Water Treatment Plants (specifically). It will be required that the review be conducted by ADEQ Engineering Review Desk. Due to the need of ADEQ Engineering Review Desk reviewing the submittal, it is now anticipated to take approximately four months before an Approval to Construct is obtained.

Please let me know if you have any questions or comments.

Sincerely,

A handwritten signature in cursive script that reads 'Eulogio Vera'.

Eulogio Vera, EIT
