Dear Mr. Thompson:

In concept, this agreement will allow Arizona Department of Transportation to add a turning lane on route 170 & at San Carlos. Arizona Eastern Railway Company (AZER) will move the southeast quadrant gate mechanism approximately 12 feet east to make room for the turning lane and then extend the track crossing surface to cover the turning lane. Attached is a sheet from the plan set to illustrate the general location. This is a modification of crossing (AAR/DOT # 742-335 N) as part of an ADOT's project in the San Carlos reservation. Please furnish our office with an Opinion and Order to cover the installation and work described in the subject agreement. The Railroad Company has signed an Agreement covering the work. Ten copies are attached for your information and files.

When we receive the Opinion and Order, we will send you a copy of our letter authorizing the Railroad to proceed with the work.

Respectfully,
