Dear Mr. Thompson:

There are three separate applications on this project. This application is for a grade separated crossing of the freeway passing under the UPRR railroad tracks, construct a shoofly to enable the project to be constructed, and install RR warning signals on the temporary detour road.

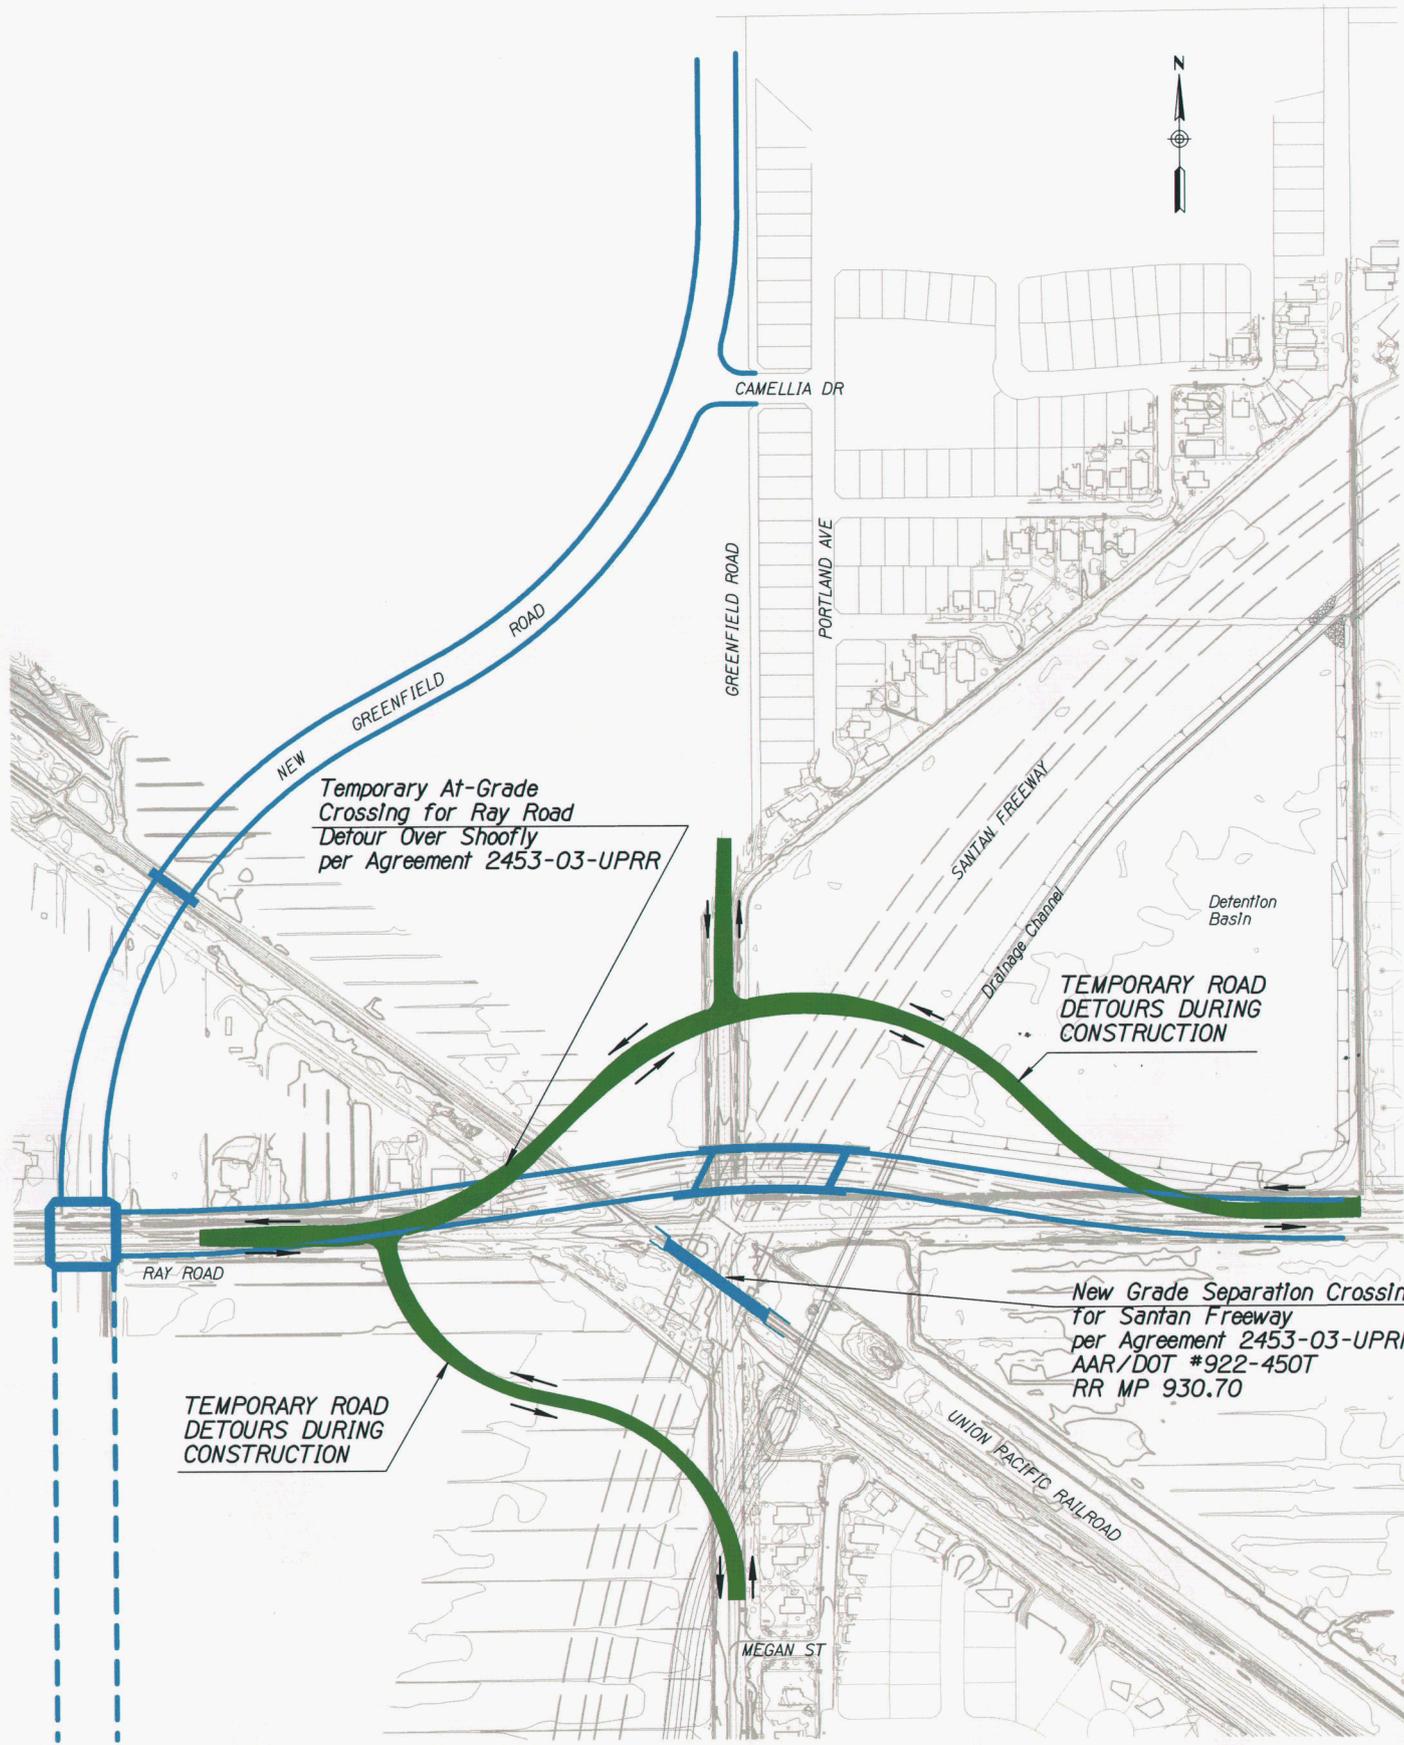

Attached is a map to help illustrate the project. Construction of this project will begin in December of this year. Please furnish our office with an Opinion and Order to cover the new Grade Separated Crossing for the Santan Freeway and the Temporary At-Grade Crossing for the Detour road over the shoofly. The Railroad Company has signed the Agreement covering the work. One Agreement and ten copies of this application are attached for your information and files.

Respectfully,

Joe Schwer, PE
