Re: *Application of Allegheny Energy Supply*
Case No. 116

Dear Ms. Woodall:

We are aware that recently some Committee members have expressed a desire to conduct a site visit to facilities with pending CEC Applications. On Allegheny's behalf, we are willing to work with the Committee to arrange details of such a visit to the La Paz Project.

We also, however, wanted to make sure the Committee knows it will pass right by the La Paz site on the way to and from the hearing in Parker on September 4. The Project site is approximately one mile south of Interstate 10 on Avenue 75E, which is Exit 69. The interconnection with the Palo Verde-Devers 500 kV transmission line would be about one-half mile north of the Exit 69 interchange--also along Avenue 75 East. Access to the Project site and other land south of the Interstate is restricted by a gate.

Very truly yours,

GALLAGHER & KENNEDY, P.A.
