Re: Allegheny Energy Supply L.L.C.  
Docket # L-00000AA-01-0116

Dear Representative Cannell:

I would like to send my sincere thanks to you for making the long trip to the Arizona Corporation Commission on March 21, 2002. Your comments are important in helping me make a decision pertaining to Allegheny Energy Supply's application for a Certificate of Environmental Compatibility for the construction of a 1,080 megawatt generating facility.

Pursuant to A.R.S. Section 40-360.07 Subsection B, the commission must balance certain factors in making its decision on whether to grant the application. Specifically, the commission is required "to balance, in the broad public interest, the need for an adequate, economical and reliable supply of electric power with the desire to minimize the effect thereof on the environment and ecology of this state."

Thank you again for traveling from afar to let your voice be heard. Once again, I appreciate your comments.

Sincerely,

William A. Mundell  
Chairman
