Docket No. L-00000AA-01-0116

Phoenix, Arizona 85018

Case No. 116

AZ CORP COMMISSION
DOCUMENT CONTROL

(602) 840-5444

March 21, 2002

TO: ARIZONA CORPORATION COMMISSION

MEMORANDUM

OPPOSITION TO APPLICATION FOR A CERTIFICATE OF ENVIRONMENTAL COMPATIBILITY OF PLANT AND TRANSMISSION LINES OF ALLEGHENY

POWER PLANT AT OR NEAR (WITHIN SIGHT) OF THE AVENUE 75 I-10 INTERCHANGE WITH TRANSMISSION LINES CONSTRUCTED AT THIS "GATEWAY INTERCHANGE" ENTERING LA PAZ FROM THE EAST AND THE PATENT DAMAGES AND LOSSES THAT WOULD ENSUE TO LA PAZ COUNTY AND THE CITIZENS OF ALL ARIZONA, IN THE FUTURE.

Arizona Corporation Commission

DOCKETED

MAR 26 2002

DOCKETED BY *[Signature]*

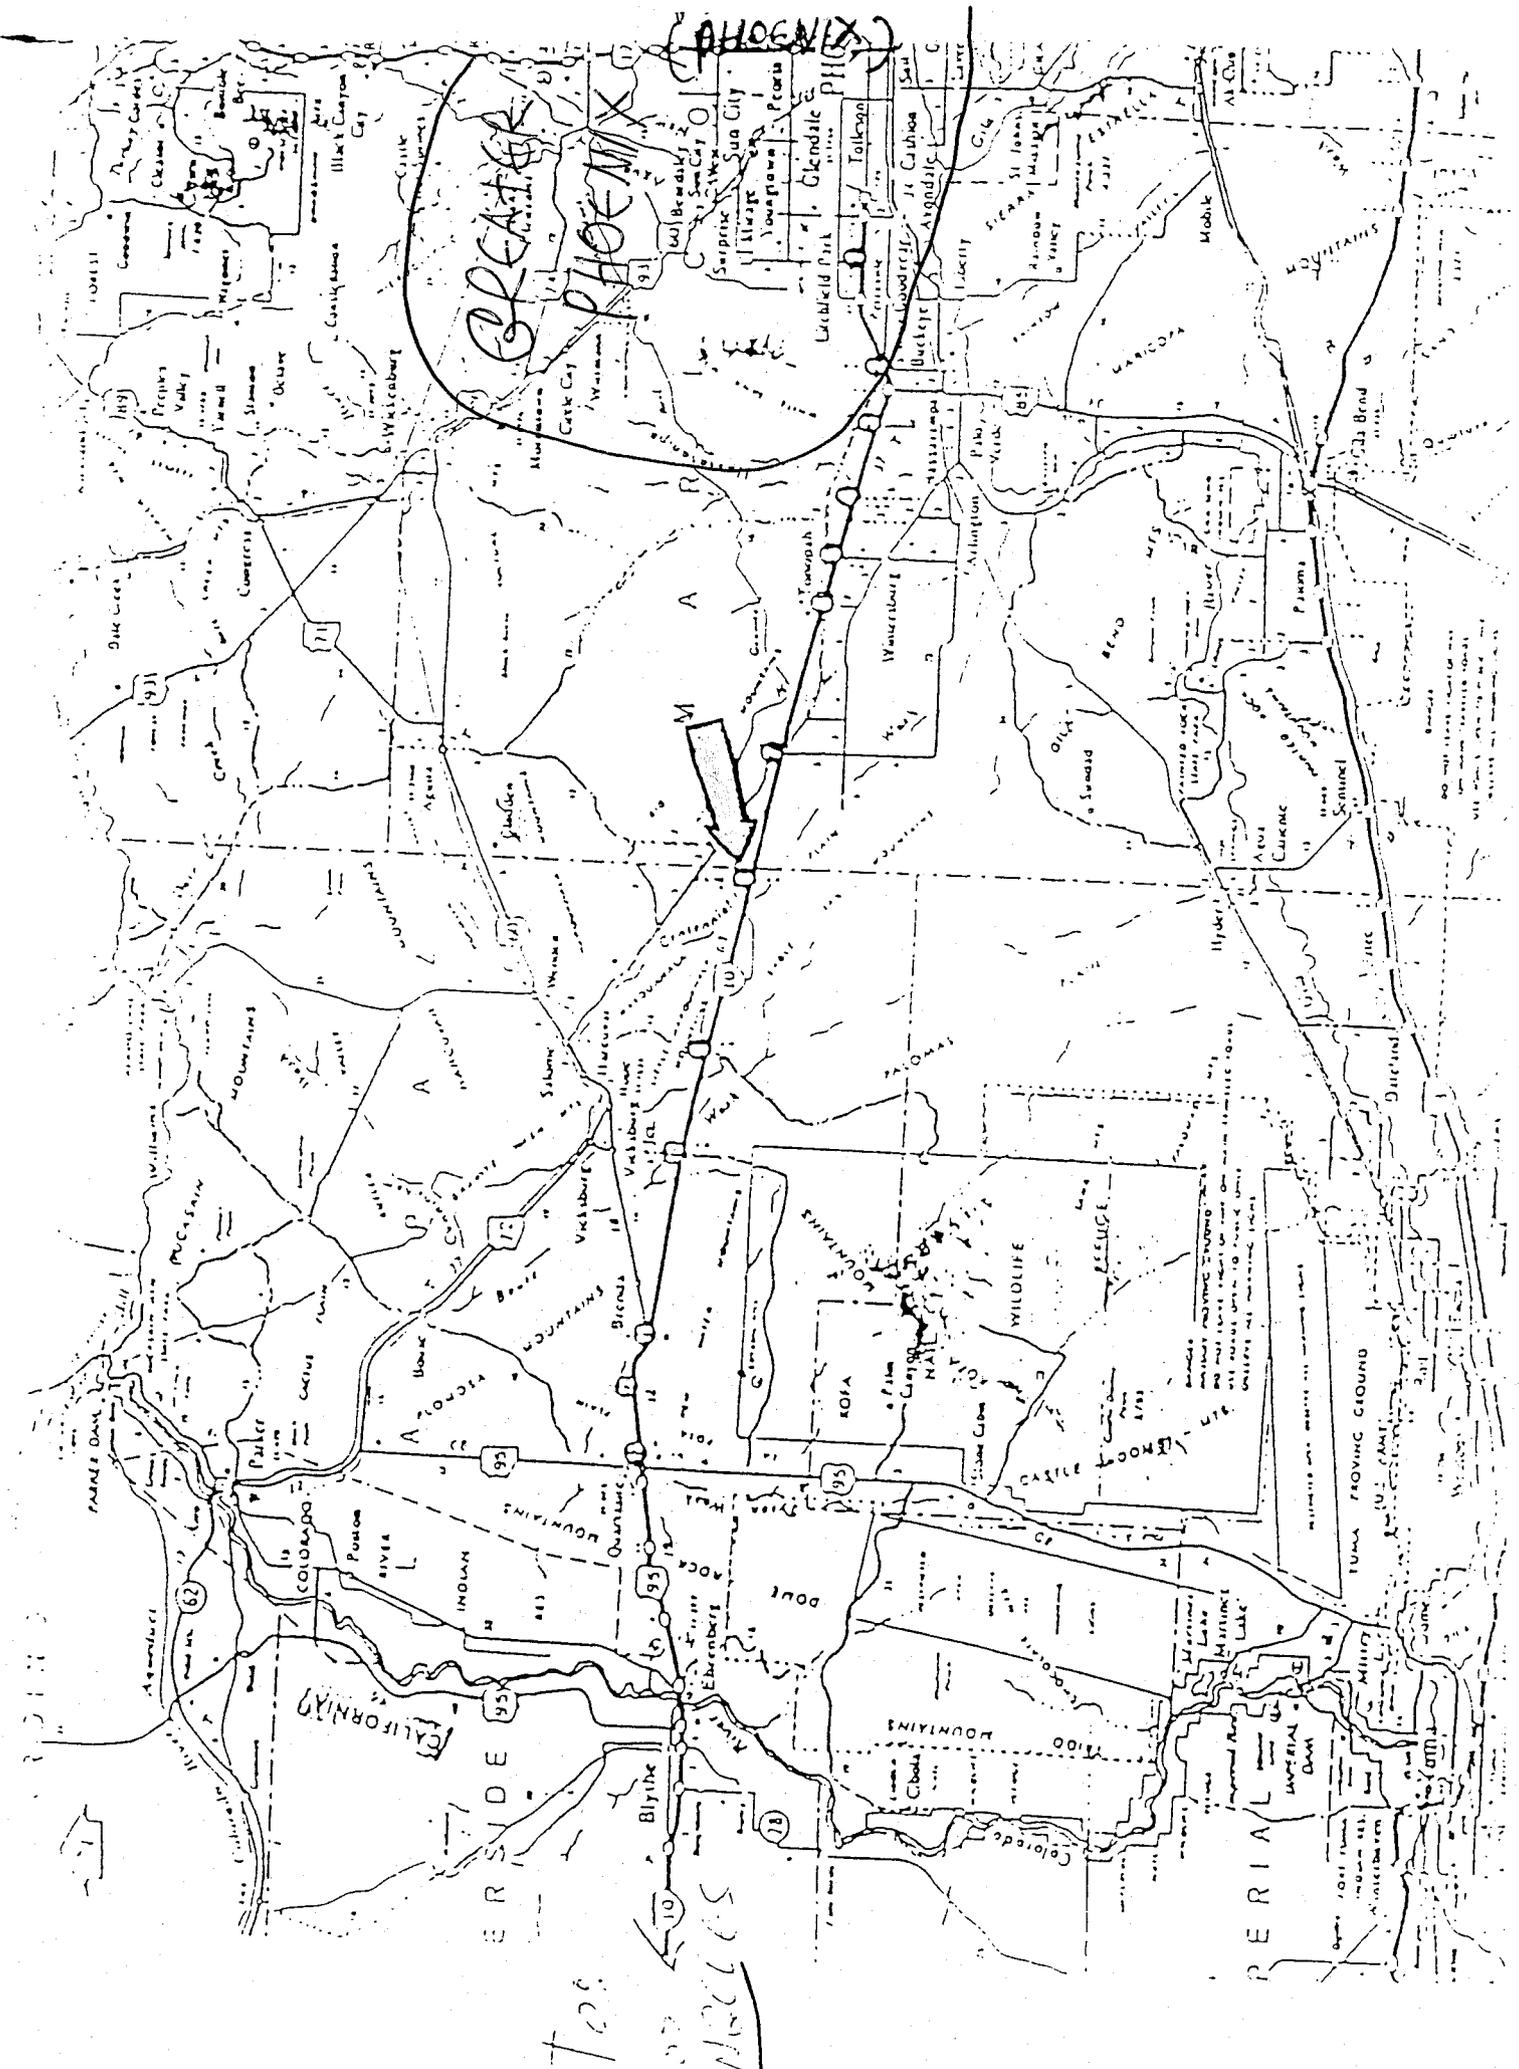

1. The undersigned are the owners of approx. 260 acres ZONED COMMERCIAL in part for motels, restaurants, truck stops and approx 1,000 mobile home sites and R.V.home sites.
2. We respectfully oppose and object to the installation of a power plant and accompanying transmission lines and towers and the visual negative consequences along with environmental possible harm and contamination to the water wells that may be required for the clean beneficial development of this Avenue 75 "gateway entrance" leading into beautiful La Paz County from the east. La Paz County would signal to the entire nation and public traveling into the county that "it does not care" about preserving an attractive image and visual sight. The Arizona Corporation Commission, must care and must be concerned about this main important "gateway first interchange" area looking its finest for generations to come.
3. Economically all Arizona, could be diminishing its ability to attract the right kind of growth by allowing a power plant its its transmission lines right smack at its "front door" entrance into the county. (ugly may be understating what the broad consensus of the public at large would be to view it)
4. Grantine a Certificate of Environmental Compatibility for construction and, for the erection of a power plant and its transmission lines within sight of this important "gateway Interchange ie Avenue 75" it could be creating large economic losses from many attractive beneficial revenue producing developments coming into La Paz County, and into Maricopa County
5. Allow the power plant to be built in a less profile location. Avoid the power plants transmission lines from harming the all Arizona, perception and image as a caring clean inviting place to live and work.
6. Kindly deny a Certificate of Environmental Compatibility at this vital location to the Allegheny Power plant.

Respectfully submitted,

[Signature] - General Part
Melikian Enterprises, L.P.
