IN THE MATTER OF THE APPLICATION OF ARIZONA PUBLIC SERVICE COMPANY FOR AN ORDER OR ORDERS AUTHORIZING IT TO ISSUE, INCUR, AND AMEND EVIDENCES OF LONG-TERM INDEBTEDNESS AND SHORT-TERM INDEBTEDNESS, TO EXECUTE NEW SECURITY INSTRUMENTS TO SECURE ANY SUCH INDEBTEDNESS, TO REPAY AMOUNTS PAID UNDER ANY PINNACLE WEST CAPITAL CORPORATION GUARANTEE OF ARIZONA PUBLIC SERVICE COMPANY INDEBTEDNESS AND FOR DECLARATORY ORDER

DOCKET NO. E-01345A-06-

VERIFIED APPLICATION

Arizona Corporation Commission

DOCKETED

DEC 15 2006

DOCKETED BY

IN THE MATTER OF THE APPLICATION OF PINNACLE WEST CAPITAL CORPORATION FOR AN ORDER OR ORDERS AUTHORIZING IT TO GUARANTEE THE INDEBTEDNESS OF ARIZONA PUBLIC SERVICE COMPANY

I. VERIFIED APPLICATION

Pursuant to Sections 40-285, 40-301, and 40-302 of the Arizona Revised Statutes ("A.R.S."), Arizona Public Service Company (the "Company") hereby files this Application seeking one or more orders which, together, will authorize the Company to:

- (i) incur the Continuing Long-Term Debt (as defined herein); (ii) redeem, refinance, refund, renew, reissue, roll-over, repay, and re-borrow from time to time such Continuing Long-Term Debt, and establish and amend the terms and provisions of Continuing Long-Term Debt from time to time; (iii) incur the Continuing Short-Term Debt (as defined herein); (iv) redeem, refinance, refund, renew, reissue, roll-over, repay, and re-borrow from time to time such Continuing Short-Term Debt, and establish and amend the terms

1 and provisions of Continuing Short-Term Debt from time to time; (v) determine the form
2 of security, if any, for the Continuing Long-Term Debt and the Continuing Short-Term
3 Debt, execute and deliver one or more Security Instruments (as defined herein) in
4 connection with the Continuing Long-Term Debt and the Continuing Short-Term Debt,
5 and establish and amend the terms and provisions of any such Security Instruments from
6 time to time; and (vi) reimburse any amounts paid by Pinnacle West Capital Corporation
7 (“Pinnacle West”) under any Guarantee (as defined herein).

8 APS further requests a declaratory order that confirms that only traditional
9 indebtedness for borrowed money (and not the other types of arrangements described in
10 paragraph 13 of this Application) constitutes an “evidence of indebtedness” under A.R.S.
11 Sections 301 and 302 and that, therefore, such other arrangements (of the type described
12 in paragraph 13) neither require prior Commission authorization nor count against the
13 Continuing Long-Term Debt or Continuing Short-Term Debt authorizations requested in
14 this Application.

15 Pursuant to A.A.C. R14-2-806, Pinnacle West hereby files this Application seeking
16 an ongoing waiver of or authorization under A.A.C. R14-2-803 to allow Pinnacle West to
17 guarantee the indebtedness of the Company from time to time.

18 APS and Pinnacle West request issuance of the order or orders sought in this
19 Application no later than June 30, 2007 so that APS will have sufficient financing
20 authority to support its obligations without interruption. APS and Pinnacle West also
21 request that the order or orders sought in this Application become effective immediately
22 upon the issuance thereof.

23 II. SUPPORTING STATEMENTS

24 In support of this Application, the Company and Pinnacle West respectfully state
25 as follows:

26 1. Both the Company and Pinnacle West are corporations duly organized and
27 existing under the laws of the State of Arizona. Their principal place of business is 400
28

1 North Fifth Street, Phoenix, Arizona, 85004, and their post office address is P.O. Box
2 53999, Phoenix, Arizona 85072-3999.

3 2. The Company is a public service corporation principally engaged in serving
4 electricity in the State of Arizona.

5 3. The Company is a wholly-owned subsidiary of Pinnacle West.

6 4. On October 18, 2006, each of the Company's and Pinnacle West's Board of
7 Directors approved the filing of this Application with the Commission.

8 5. The attorney for the Company in this proceeding is Thomas L. Mumaw.
9 The attorney for Pinnacle West in this proceeding Robert J. Metli of Snell & Wilmer LLP.

10 6. This Application is supported by the Affidavit of Barbara M. Gomez, the
11 Vice President and Treasurer of both the Company and Pinnacle West (the "Affidavit"),
12 which is attached hereto as Exhibit A.

13 Financing Needs and Issues

14 7. The Commission's Decision No. 55017, dated May 6, 1986 (the "1986
15 Order"), allows the Company, among other things, to have, at any one time outstanding in
16 1986 or thereafter, long-term indebtedness (including current maturities thereof) in an
17 aggregate principal amount of up to \$2,698,917,000. Such authorization also permits any
18 redemptions, refinancings, refundings, renewals, reissuances, and roll-overs of any such
19 outstanding indebtedness, the incurrence or issuance of any long-term indebtedness, and
20 the amendment or revision of any terms or provisions of or relating to any long-term
21 indebtedness, as long as total long-term indebtedness at any one time outstanding does not
22 exceed \$2,698,917,000 during any period of more than thirty days. The 1986 Order
23 specifies that the nature and terms of all such issuances and sales of such long-term
24 indebtedness may be determined by the Company by reference to conditions in the
25 financial markets at the time or times of such issuances. A copy of the 1986 Order is
26 attached to this Application as Exhibit B.

27 8. In Commission Decision No. 65796, dated April 4, 2003 (the "2003
28 Financing Order"), the Commission authorized the Company to issue \$500 million of

1 long-term debt and to loan the proceeds thereof to Pinnacle West or Pinnacle West Energy
2 Corporation ("PWEC") for the purpose of repaying Pinnacle West debt incurred to
3 finance construction of the Arizona electric generating plants built to serve APS native
4 load and owned by PWEC and that were later transferred to the Company. In May of
5 2003, the Company issued \$300 million of its 4.650% Notes due 2015 and \$200 million
6 of its 5.625% Notes due 2033 (the "2003 Financing Order Debt")¹. The 2003 Financing
7 Order specified that the 2003 Financing Order Debt would not be counted against the then
8 existing continuing debt limits authorized by the Commission in the 1986 Order. The
9 increased amount requested for the Continuing Long-Term Debt limit in this Application
10 includes the 2003 Financing Order Debt. The 1986 Order and the 2003 Financing Order
11 are referred to herein as the "Orders." The Affidavit describes the benefits to the
12 Company and its customers that have derived from the Orders during the twenty years
13 since the 1986 Order was issued. See "Benefits of Historical Financial Flexibility" in the
14 Affidavit.

15 9. In view of the growth of the Company and its customer base during the 20
16 year period following the issuance of the 1986 Order, as well as changes in financial
17 market conditions, the Company requests Commission authorization to increase the long-
18 term indebtedness limitation set forth in the 1986 Order, so that the Company may have,
19 at any one time outstanding from the date of such authorization or thereafter, up to an
20 aggregate principal amount of long-term indebtedness of \$4.2 billion. The Affidavit
21 describes the Company's outstanding long-term indebtedness, the reasons for its request
22 for additional financing authority, and the basis of the requested increase. See "APS'
23 Long-Term Debt Financing Needs" in the Affidavit. The Company requests that such
24 authorization permit any redemptions, refinancings, refundings, renewals, reissuances,
25 roll-overs, repayments, and re-borrowings of any such outstanding indebtedness, the
26 incurrence or issuance of any additional long-term indebtedness, and the establishment,

27 _____
28 ¹ Although the loan from APS to PWEC has subsequently been repaid in full, the above APS debt issuances remain
outstanding.

1 amendment, or revision of any terms or provisions of or relating to any long-term
2 indebtedness, as long as total long-term indebtedness (including current maturities
3 thereof) at any one time outstanding does not exceed \$4.2 billion for any period of more
4 than thirty days. Such authorization will allow the Company to maintain its flexibility to
5 refund and/or incur or issue long-term indebtedness as market conditions dictate. At no
6 time, however, will the Company be able to exceed the proposed long-term indebtedness
7 limitation for any period of more than thirty days without further Commission
8 authorization. (All long-term indebtedness outstanding on the date of the order or orders
9 of the Commission in this matter or thereafter issued or incurred pursuant to this
10 paragraph being herein referred to as "Continuing Long-Term Debt.") The authorization
11 sought in this paragraph 9 would supersede the long-term indebtedness limitation
12 authorized by the 1986 Order and would be inclusive of the debt issued pursuant to the
13 2003 Financing Order.

14 10. A.R.S. Section 40-302.D allows the Company to issue short-term debt in an
15 amount not to exceed 7% of its capitalization without Commission approval. However,
16 Section 40-302.D restricts the refunding or roll-over of any such notes. The
17 Commission's Decision No. 54230, dated November 8, 1984 (the "1984 Order"), allows
18 the Company to reissue, renew, and resell any such short-term indebtedness and to refund,
19 refinance, and roll-over any such short-term indebtedness with or into additional short-
20 term indebtedness, as long as such 7% limit is not exceeded. The Company requests
21 authority to issue short-term debt at any time and from time to time (excluding current
22 maturities of long-term debt) in an amount not to exceed the sum of: (i) 7% of the
23 Company's capitalization and (ii) \$500 million. The Affidavit describes the Company's
24 outstanding short-term indebtedness, the reason for its request for additional short-term
25 financing authority, and the basis of the requested increase. See "APS' Short-Term Debt
26 Financing Needs" in the Affidavit. The Company requests that such authorization permit
27 any redemptions, refinancings, refundings, renewals, reissuances, roll-overs, repayments,
28 and re-borrowings of any such outstanding indebtedness, the incurrence or issuance of any

1 additional short-term indebtedness, and the establishment, amendment, or revision of any
2 terms or provisions of or relating to any short-term indebtedness, as long as total short-
3 term indebtedness at any one time outstanding (excluding current maturity of long-term
4 debt) does not exceed, for any period of more than thirty days, the sum of: (i) 7% of the
5 Company's capitalization and (ii) \$500 million without further Commission authorization.
6 (All short-term indebtedness outstanding on the date of the order or orders of the
7 Commission in this matter or thereafter issued or incurred pursuant to this paragraph
8 being herein referred to as "Continuing Short-Term Debt.")

9 11. The Company proposes to determine the nature of the Continuing Long-
10 Term Debt and Continuing Short-Term Debt (or the individual components of each
11 issuance of Continuing Long-Term Debt or Continuing Short-Term Debt), the maturities
12 thereof, the interest and/or discount rates thereon, the necessity for and form of any
13 security therefor, the applicable financial markets (e.g., whether domestic or foreign) or
14 lenders, the nature (e.g., whether public or private) of the offerings or borrowings, and the
15 type or types of transaction in which debt would be sold or incurred by reference to
16 conditions in the financial markets at the time or times of commitment or sale. Terms
17 would be negotiated with the intent of obtaining the most favorable results for the
18 Company and its customers. The security, if any, for any such debt by the Company
19 could consist of a mortgage or other lien as discussed in paragraph 12 below or a letter of
20 credit of a third party, bond purchase agreement, or other security instrument.

21 12. In the event that the rating on the Company's long-term unsecured
22 indebtedness is rated non-investment grade or if market conditions otherwise dictate, the
23 Company may find it necessary or advantageous to secure all or any portion of the
24 Continuing Long-Term Debt and the Continuing Short-Term Debt. The Company
25 requests authority to enter into a new mortgage and deed of trust or similar instrument that
26 establishes a lien on all or substantially all of the Company's property, including after-
27 acquired property, as security for all or any part of the Company's indebtedness. The
28 Company also requests authority to enter into separate security instruments of various

1 types that establish liens on separate properties or groups of properties of the Company to
2 secure particular issues or groups of issues of indebtedness. (Any such mortgage and
3 deed of trust or other security instrument to be entered into pursuant to this paragraph
4 being herein referred to as a "Security Instrument.") Any such Security Instrument may
5 be used to secure indebtedness previously issued as well as new indebtedness issued after
6 the date of the financing order requested by this Application. The Affidavit describes the
7 mortgage and deed of trust previously utilized by the Company and its termination in
8 2004, and further describes the basis and rationale for the requests in this paragraph 12.
9 See paragraphs 13 and 22 in the Affidavit.

10 13. The Affidavit describes recent changes in accounting rules and
11 interpretations that have altered and may continue to alter the basis for treatment of
12 various financial arrangements as indebtedness. For example, the Affidavit describes
13 certain circumstances in which a long-term power purchase agreement, long-term fuel
14 supply contract, or similar agreements may be treated as a capital lease or a substantive
15 consolidation and thus be treated as indebtedness on the Company's balance sheet under
16 Generally Accepted Accounting Principles. The Company requests that the Commission
17 confirm that only traditional indebtedness for borrowed money (and not the types of
18 arrangements described in the preceding sentence) is subject to A.R.S. Sections 301 and
19 302 and that, therefore, such other arrangements will not require prior Commission
20 authorization or count against the Continuing Long-Term Debt authorization requested in
21 this Application. The Affidavit further describes the basis and rationale for APS' requests
22 in this paragraph 13. See paragraph 21 in the Affidavit.

23 14. From time to time, it may be advantageous for Pinnacle West to guarantee
24 debt issued, incurred, or sold by the Company. Pinnacle West requests either an ongoing
25 waiver of A.A.C. Rule 14-2-803 in that respect or, alternatively, that the Commission
26 expressly grant to Pinnacle West authority to guarantee the Company's debt from time to
27 time in indeterminate amounts (the "Guarantees"). The Company also seeks authorization
28 to reimburse Pinnacle West for any amounts that Pinnacle West is required to pay under

1 any such Guarantee, along with interest on such amounts until the date of reimbursement
2 at a rate not greater than the rate of interest payable on the debt so Guaranteed and paid by
3 Pinnacle West. The Affidavit describes certain of the circumstances in which such a
4 Guarantee may be required or advantageous and further describes the basis and rationale
5 for the requests in this paragraph 14. See paragraph 23 in the Affidavit.

6 **Purposes**

7 15. The Company proposes that the net proceeds from its issuance of
8 Continuing Long-Term Debt and Continuing Short-Term Debt will be applied, directly or
9 indirectly, to augment the funds available from all sources to finance its construction,
10 resource acquisition and maintenance programs, to redeem or retire outstanding securities,
11 to repay or refund other outstanding long-term or short-term debt, and to meet certain of
12 the Company's working capital and other cash requirements.

13 16. The purpose of any Guarantees of Company debt by Pinnacle West would
14 be to allow the Company to achieve greater access to the financial markets.

15 **General**

16 17. In the Company's opinion, the proposed issuance or incurrence of the
17 Continuing Long-Term Debt and the Continuing Short-Term Debt, the establishment and
18 amendment of any terms and provisions of any long-term or short-term indebtedness, the
19 execution and delivery of the Security Instruments, and the establishment and amendment
20 of any terms and provisions of the Security Instruments, all as contemplated herein, are
21 for lawful purposes that are within its corporate powers and are compatible with the public
22 interest, with sound financial practices, and with the proper performance by the Company
23 of service as a public service corporation and will not impair its ability to perform that
24 service. The Company is further of the opinion that the foregoing, all as contemplated
25 herein, are reasonably necessary or appropriate for such purposes and that such purposes
26 are not, wholly or in part, reasonably chargeable to the Company's operating expenses or
27 to income, except to the extent required by generally accepted accounting principles or by
28 other accounting requirements applicable to the Company, including regulatory

1 requirements. To the extent that the purposes set forth herein may be considered
2 reasonably chargeable to operating expenses or to income, the Company requests that the
3 order or orders of the Commission in this matter authorize such charge or charges.

4 18. A.A.C. R14-2-803 requires notice to the Commission of "reorganizations"
5 by a public utility holding company such as Pinnacle West. A "reorganization" includes
6 the "acquisition or divestiture of a financial interest in an affiliate or a [Class A] utility."
7 A.A.C. R14-2-801(5). The Company is a Class A utility, and thus both it and Pinnacle
8 West are subject to the provisions of Rule 803. In Decision No. 58063, dated November
9 3, 1992, the Commission interpreted the aforementioned language to also include any
10 increase or decrease of an existing "financial interest" in a utility in excess of a specified
11 "exempt amount," which in the case of the Company and Pinnacle West, is \$100 million
12 per year, even if the increase/decrease did not change the status of the utility as a wholly-
13 owned subsidiary of the public utility holding company. The proposed Guarantees could
14 result in an increase in Pinnacle West's existing financial interest in the Company in
15 excess of \$100 million per year. The test for whether a "reorganization" can be rejected
16 by the Commission under Rule 14-2 803 is whether the "reorganization" would: (1)
17 impair the financial status of the public utility, (2) prevent the public utility from
18 attracting capital on fair and reasonable terms, or (3) impair the ability of the public utility
19 to provide safe, reasonable, and adequate service. The proposed Guarantees clearly will
20 not have any of these negative impacts on the Company. Rather they will enhance the
21 financial status of the Company, permit the Company to attract capital and access the
22 capital markets on terms that are more favorable, and are essential to the Company's
23 ability to provide safe, reasonable, and reliable service. The Company notes that pursuant
24 to A.A.C. R14-2-806.C, if the Commission fails to approve, disapprove, or suspend for
25 further consideration an application for waiver within thirty days following filing of a
26 verified application for waiver, the waiver shall become effective on the 31st day
27 following the filing of the application.

28

1 19. The Company requests that notice of the filing of this Application be given
2 in conformity with A.R.S. Section 40-302.

3 20. The Company requests that the order or orders sought by this Application
4 become effective immediately upon the issuance thereof.

5 21. The most current public financial statements of the Company and Pinnacle
6 West, which are included in their most recent combined Quarterly Report on Form 10-Q
7 filed with the Securities Exchange Commission, are attached to this Application as
8 Exhibit C.

9 WHEREFORE, the Company and Pinnacle West ask that the Commission cause
10 notice of the filing of this Application to be given as above-requested; hold such a hearing
11 or hearings as the Commission finds are necessary at a time or times to be specified,
12 making such inquiry or investigation as the Commission may deem of assistance; and
13 make any findings required by A.R.S. Sections 40-285, 40-301, and 40-302, or A.A.C.
14 R14-2-803 and R14-2-806, as applicable, relative to the issuances and incurrences of
15 Continuing Long-Term Debt and Continuing Short-Term Debt, the execution and delivery
16 of the Security Instruments, the establishment and amendment of any terms and
17 provisions of any long-term or short-term indebtedness or any such Security Instruments,
18 the issuance of the Guarantees, and the reimbursement by the Company of amounts paid
19 by Pinnacle West under the Guarantees, all as contemplated herein; and thereafter make
20 one or more immediately effective orders which, together, (i) authorize the Company to
21 issue, sell, and incur the Continuing Long-Term Debt and the Continuing Short-Term
22 Debt, redeem, refinance, refund, renew, reissue, roll-over, repay, and re-borrow from time
23 to time such Continuing Long-Term Debt and Continuing Short-Term Debt, and establish
24 and amend the terms and provisions of long-term and short-term indebtedness from time
25 to time, (ii) authorize the Company to determine the form of security, if any, for the
26 Continuing Long-Term Debt and the Continuing Short-Term Debt, execute and deliver
27 the Security Instruments, and establish and amend the terms and provisions of the Security
28 Instruments, as may be deemed appropriate by the Company in connection with the

1 Continuing Long-Term Debt and the Continuing Short-Term Debt, (iii) state that the
2 issuances and incurrences of the Continuing Long-Term Debt and the Continuing Short-
3 Term Debt and the establishment and amendment of the terms and provisions of any
4 outstanding long-term or short-term indebtedness are reasonably necessary or appropriate
5 for the purposes set forth in this Application and that such purposes are within those
6 permitted by A.R.S. Section 40-301, (iv) permit such purposes to the extent that they may
7 be reasonably chargeable to operating expenses or to income, (v) authorize a continuing
8 waiver of or authorization under R14-2-803 with respect to Pinnacle West Guarantees of
9 Company indebtedness, (vi) authorize the Company to reimburse Pinnacle West for any
10 payment on any such Guarantees, with interest as contemplated herein and (vii) confirm
11 that only traditional indebtedness for borrowed money (and not the other types of
12 arrangements described in paragraph 13 of this Application) are subject to A.R.S. Sections
13 301 and 302 and that, therefore, such arrangements will not count against the Continuing
14 Long-Term Debt or Continuing Short-Term Debt authorizations requested in this
15 Application or require prior Commission approval.

16 Financing orders of the kind requested herein require very specific language to
17 satisfy prospective lenders. Thus, proposed language for certain key paragraphs of the
18 order requested in this matter is attached to this Application as Exhibit D.

19 Dated at Phoenix, Arizona this 15th day of December, 2006.

DECLARATORY ORDER

DOCKET NO. E-01345A-06-_____

**AFFIDAVIT OF
BARBARA M. GOMEZ**

IN THE MATTER OF THE APPLICATION
OF PINNACLE WEST CAPITAL
CORPORATION FOR AN ORDER OR
ORDERS AUTHORIZING IT TO
GUARANTEE THE INDEBTEDNESS OF
ARIZONA PUBLIC SERVICE COMPANY

STATE OF ARIZONA)
)ss.
County of Maricopa)

I, Barbara M. Gomez, upon my oath, do swear and attest as follows:

General

1. My name is Barbara M. Gomez. I am Vice President and Treasurer for both Arizona Public Service Company ("APS" or "Company") and Pinnacle West Capital Corporation ("Pinnacle West"). I am responsible for the Treasury functions at APS and Pinnacle West.

2. The assertions of fact contained within the Verified Application of the Company to which this Affidavit is attached are true and correct to my knowledge and belief.

1 §40-302.D restricts the refunding or roll-over of any such notes. The Commission's Decision No.
2 54230 dated November 8, 1984 (the "1984 Order") allows the Company to refund or roll-over
3 any such short-term debt as long as the 7% limit is not exceeded.

4 **Benefits of Historical Financial Flexibility**

5 8. The 1986 Order and 2003 Financing Order have provided significant financing
6 flexibility that has served the Company's customers extremely well for, in the case of the 1986
7 Order, the past 20 years. The Company accessed the frequently volatile capital markets in a
8 timely and efficient manner, thereby reducing the Company's financing costs and the cost of
9 capital reflected in customer rates.

10 9. During the period from 1985 to the present, the Company has issued nearly
11 \$7 billion in long-term debt, taking advantage of troughs in the interest rate cycle and turning
12 over the Company's entire debt capitalization about three times. As a result, average long-term
13 debt costs have dropped from 10.5% in 1985 to 5.2% in 2005. See Attachment A for a graphical
14 representation of the decline in APS' long-term debt costs. In 1992 alone, the Company
15 voluntarily refinanced \$650 million of debt, producing total interest savings of some \$120 million
16 over the then remaining life of the refinanced debt.

17 10. The concept of an overall limit on the amount of long-term debt outstanding, as
18 contained in the 1986 Order, has provided APS financial flexibility to take advantage of optimal
19 financial conditions at the time of each financing. This flexibility occurs in a number of areas.
20 First, there is the ability to time the financing at the optimal point in terms of financial market
21 conditions, SEC disclosure requirements, and cash flow requirements. Markets are volatile, and
22 having the ability to quickly enter the markets to issue new debt yields better financing pricing
23 and terms. Second, there is the ability to size the borrowing at the optimal level. Since APS
24 knew it could enter the market as many times as necessary as long as it stayed within the limit, it
25 could do smaller debt issuances if that were advantageous at the time. Third, there is the ability
26 to obtain the best terms available at the time. Since the Company was given the ability to
27 negotiate the terms deemed appropriate, it could adapt to changing market conditions and get the
28 best terms available at the time of the financing.

1 11. APS' long-term debt portfolio compares quite favorably with its peers. The most
2 applicable index available for comparison purposes is the Lehman Brothers Electric Utility Index
3 ("Index"), which is comprised of over 250 bonds issued by about 100 companies. The weighted
4 average coupon of the Index at year-end 2005 was 6.10%, which exceeded APS' average coupon
5 on its taxable debt of 5.86% by 24 basis points. APS was able to achieve a lower cost of long-
6 term debt while having slightly longer dated bonds. APS has an average years to maturity on its
7 taxable debt of 12.0 years, which is 0.5 years longer than the 11.5 year average life of the Index.

8 12. The Company has also done an excellent job of managing its tax-exempt bond
9 portfolio. APS has outstanding approximately \$656 million of tax-exempt debt, the proceeds of
10 which financed pollution control equipment at its coal and nuclear power plants. In addition,
11 APS has refinanced the tax-exempt bonds several times in order to obtain lower interest rates or
12 more favorable credit enhancements. At December 31, 2005, the average cost of the tax-exempt
13 debt was 3.25%, and the average life was 24 years. The financing flexibility of the 1986 Order
14 has enabled APS to obtain this low cost form of financing, which results in a lower cost of capital
15 reflected in customer rates.

16 13. APS redeemed the last of its secured debt in April of 2004. Prior to that time APS
17 had issued debt that was secured by substantially all of the property of APS pursuant to the 1946
18 Mortgage and Deed of Trust. The 1946 Mortgage was almost 60 years old at the time of
19 termination, and it did not reflect current market standards for utility secured bond indentures. It
20 also contained certain restrictive covenants. By eliminating the 1946 Mortgage, APS has greater
21 financial flexibility. However, there may come a time when it is advantageous for APS to enter
22 into a new mortgage or other security agreements and once again issue secured debt.

23 14. APS manages its debt portfolio with the goal of having an appropriate mix of fixed
24 and floating rate instruments. The Board of Directors has established a Pinnacle West
25 consolidated limit on floating rate debt of 20% of capitalization. APS had 10.2% floating rate
26 debt at December 31, 2005. Most of the floating rate debt is in the tax-exempt instruments, which
27 have less volatility of interest rates than taxable debt. This is another example of how the 1986
28

1 Order has enabled the Company to manage its debt portfolio so as to benefit the Company and its
2 customers.

3 15. A.R.S. Section 40-302.D and the 1984 Order enable the Company to issue short-
4 term debt up to 7% of capitalization. APS meets its seasonal working capital requirements with
5 short-term borrowings, often in the form of commercial paper. Since the statutory limit is a
6 percent of capitalization, as the Company has grown in size and its capital structure has increased,
7 the amount of short-term debt capacity has also increased. This has provided APS the flexibility
8 to continue to meet its growing working capital needs.

9 16. The Company has continuously complied with each of the terms and conditions of
10 the 1986 Order and the 2003 Financing Order and is in compliance with such Orders as of the
11 date of this Application.

12 17. The Company has operated under the 1986 Order and the 2003 Financing Order in
13 a manner that is compatible with sound financial policy and the public interest. By having ready
14 access to the capital markets as well as the ability to refinance existing debt when the opportunity
15 arises, the Company is able to reduce interest costs, which results in lower customer rates. The
16 new financing authority requested in the Application would enable APS to continue to manage its
17 debt requirements despite changing financial needs and conditions. Thus, the requested financing
18 order is compatible with sound financial policy and the public interest.

19 **APS' Long-Term Debt Financing Needs**

20 18. At September 30, 2006, the Company had total outstanding long-term debt
21 (authorized under the 1986 Order and the 2003 Financing Order) in an aggregate principal
22 amount of \$2,962,071,043. This amount includes current maturities of long-term debt. On
23 November 15, 2006, APS had a bond maturing in the amount of \$83,695,000. At December 31,
24 2006 the amount of long-term debt is expected to be approximately \$2.88 billion. As stated
25 above, the 1986 Order and 2003 Financing Order collectively limit long-term debt to an aggregate
26 principal amount of \$3,198,917,000. Comparing the expected year-end 2006 debt balance to the
27 limit on long-term debt shows that APS would have authorization to issue approximately an
28 additional \$300 million.

1 This could potentially erode the debt-issuing capability of APS and greatly affects the ability of
2 the Company to plan its normal financing activities if these arrangements are included in the
3 continuing debt limit or require prior authorization. By finding that such arrangements are not
4 subject to A.R.S. Sections 301, et seq., the new continuing debt limits will then only apply to
5 traditional borrowings, and the Company will not be at the mercy of changes in accounting
6 regulations.

7 22. In the future APS may find it necessary or advantageous to secure its debt with the
8 property of the Company. APS' credit ratings are currently just one notch above non-investment
9 grade. If APS' credit rating were to fall to non-investment grade, its access to the debt capital
10 markets would be severely curtailed. Even if APS were able to locate non-investment grade
11 investors, there would likely be much more restrictive covenant requirements. These restrictions
12 could include limitations on the use of proceeds, draconian financial tests, and restrictions on free
13 cash flow. In such an environment, APS may be required to issue secured debt in order to obtain
14 the necessary financing. In addition, there may be an interest rate or financial market
15 environment in which it is advantageous for APS to issue secured debt. While the 1986 Order
16 allowed APS to use its assets to secure debt, this authorization was granted under the 1946
17 Mortgage, which has since been retired. Therefore, APS is also requesting Commission
18 authorization to pledge or mortgage APS assets as security for its debt. This would include
19 authority to enter into a new mortgage and deed of trust that establishes a lien on all or
20 substantially all of the Company's property, as well as the authority to enter into separate security
21 instruments for one or more particular debt issuances.

22 23. It may be advantageous for Pinnacle West to guarantee APS debt issuances. APS'
23 debt is currently registered with the Securities and Exchange Commission ("SEC") under the
24 recently enacted short-form registration forms and procedures. In the event the Company is not
25 rated investment grade by at least one nationally recognized statistical rating organization at the
26 time of a debt issuance, a Pinnacle West guarantee would be necessary under the SEC rules to
27 allow continued utilization of these short-form registration forms and procedures. With a parental
28 guarantee, the Company would have greater access to the public financial markets. Pinnacle

1 West requests a waiver of or authority under A.A.C. R14-2-803 to guarantee the Company's debt
2 as needed from time to time. The Company also seeks authorization to reimburse Pinnacle West
3 for any amounts that Pinnacle West is required to pay under any such guarantee, along with
4 associated interest.

5 **APS' Short-Term Debt Financing Needs**

6 24. In addition to an increase in the long-term debt limit, the Company also requests
7 an increase in the short-term debt limit. A.R.S. § 40-302.D allows the Company to issue short-
8 term debt in an amount not to exceed 7% of its capitalization without Commission approval. The
9 1984 Order allows the Company to refinance and roll-over short-term debt as long as the 7% limit
10 is not exceeded. APS is required to obtain approval from the Commission to exceed the limit.
11 Based on its current capitalization, APS' short-term debt is limited to approximately \$420
12 million. As of September 30, 2006, APS had no short-term debt outstanding.

13 25. As APS continues to grow, so does its need for working capital. The 7% limit has
14 adequately met the seasonal working capital requirements of the utility for many years. However,
15 APS' load growth has resulted in an increased exposure to contracted commodity and purchased
16 power. These contracts have cash collateral provisions that can result in significant liquidity
17 demands on the Company as market prices change. APS has recently experienced changes in
18 cash collateral positions in the magnitude of \$100 million in just several days. If APS were to
19 become a non-investment grade company, the magnitude of the collateral changes would be even
20 more extreme since counterparties require additional collateral depending on credit quality. The
21 increased liquidity required to respond to volatile and increasing collateral requirements has
22 resulted in the need for short-term debt in excess of the currently authorized amount.

23 26. The Company recently completed an assessment of its liquidity needs and
24 determined that an additional \$500 million was necessary. In September of 2006, APS closed a
25 \$500 million revolving credit facility which was syndicated in the bank markets primarily with its
26 existing group of lenders. This facility is in addition to the \$400 million revolving credit facility
27 that is used for normal working capital requirements. In order to fully utilize the short-term debt
28 capability provided by the new revolver, additional Commission authority is required.

DOCKET NO. U-1345-86-003

DECISION NO. 55017

ORDER

Open Meeting
April 30, 1986
Phoenix, Arizona

BY THE COMMISSION:

On December 31, 1985, Arizona Public Service Company ("APS") filed an Application with the Arizona Corporation Commission ("Commission") wherein APS sought authorization to, among other things, implement various financings.

On February 25, 1986, the Residential Utility Consumer Office ("RUCO") filed an Application to Intervene herein. Said Application was granted by Procedural Order dated March 4, 1986.

On April 17, 1986, the Commission's Utilities Division Staff ("Staff") filed a Memorandum recommending approval without hearing of the proposed financing program. Attached thereto was written testimony by a Staff Senior Rate Analyst, which testimony supported Staff's overall recommendation.

* * * * *

Having considered the Application, the exhibits and draft testimony submitted therewith, as well as Staff's memorandum and attached testimony, and being fully advised in the premises, the Commission finds, concludes and orders that:

FINDINGS OF FACT

1
2 1. APS is an Arizona corporation engaged in providing electric service
3 to the public within portions of Arizona pursuant to authority granted by this
4 Commission.

5 2. By its Application, as supplemented by APS's draft testimony in this
6 matter, APS requests one or more orders seeking the following:

7 (a) authorization to issue, sell, and incur in 1986
8 or pursuant to lending, purchase, or underwriting
9 commitments obtained in 1986, in one or more
10 transactions, up to \$275,000,000 in aggregate
11 principal amount of additional evidences of long-term
12 indebtedness (all such evidences of indebtedness
13 hereinafter being referred to as "New Debt").

14 it being specified that the nature and terms of all
15 such issuances and sales of New Debt would be determined
16 by APS by reference to conditions in the financial
17 markets at the time or times of commitment;

18 (b) authorization to increase the long-term indebtedness
19 limitation authorized in the Commission's Order in
20 Decision No. 54230, dated November 8, 1984, that allowed
21 APS, among other things, to have, at any one time
22 outstanding in 1985 or thereafter, long-term indebtedness
23 (including current maturities thereof) in an aggregate
24 principal amount of \$2,374,093,000, so as to allow
25 APS to have, at any one time outstanding, up to an
26 aggregate principal amount of long-term indebtedness
27 (including current maturities thereof) of \$2,698,917,000.
28 such authorization to permit any redemptions, refinancings,

1 refundings, renewals, reissuances and roll-overs of any
2 such outstanding indebtedness, the incurrence or
3 issuance of any additional long-term indebtedness, and the
4 amendment or revision of any terms of provisions of or
5 relating to any long-term indebtedness, as long as
6 total long-term indebtedness at any one time outstanding
7 does not exceed (without further Commission authorization)
8 \$2,698,917,000 during any period of more than thirty days,
9 it being specified that the nature and terms of all such
10 issuances and sales of such long-term indebtedness
11 would be determined by APS by reference to conditions
12 in the financial markets at the time or times of such
13 issuances (all such long-term indebtedness to be issued
14 pursuant to this authorization being herein referred to
15 as "Continuing Debt"), and such authorization to
16 supercede the long-term indebtedness limitation
17 authorized by Decision No. 54230.

18 (c) authorization in connection with providing security
19 for any New Debt or Continuing Debt, to execute and
20 deliver one or more new supplemental indentures to its
21 Mortgage and Deed of Trust in the event it is
22 deemed appropriate by APS to do so;

23 (d) authorization for APS to finance its nuclear fuel
24 requirements in connection with the operation of
25 the Palo Verde Nuclear Generating Station by
26 instituting a financing program involving the issuance
27 of APS of commercial paper, intermediate-term notes,
28

1 and/or other evidences of indebtedness in an aggregate
2 principal amount of up to \$200,000,000, all of which
3 may constitute long-term debt (collectively, the
4 "Nuclear Fuel Debt"), and in connection therewith, to
5 issue or incur evidences of indebtedness in 1986 or
6 thereafter, and to refund or roll-over all or a portion
7 of the Nuclear Fuel Debt, any short-term debt to be issued
8 in connection therewith to be in addition to short-term
9 debt previously authorized by the Commission or per-
10 mitted by A.R.S. Section 40-302.D, it being specified
11 that the nature and terms of any issuances and sales
12 of Nuclear Fuel Debt would be determined by APS by
13 reference to conditions in the financial markets at the
14 time or times of commitment.

15 3. On April 17, 1986, Staff filed a Memorandum and written testimony
16 supporting the Application and recommending summary approval thereof.

17 4. The New Debt and the Continuing Debt will be utilized for APS's
18 construction program, the refinancing, retirement, or redemption of outstanding
19 securities, the repayment of short-term debt which previously financed
20 construction projects, and, if necessary, the payment of certain of APS's
21 working captial and other cash requirements. The Nuclear Fuel Debt will be
22 used to finance APS's nuclear fuel requirements for the Palo Verde Nuclear
23 Generating Station, and/or to refund or roll-over the Nuclear Fuel Debt.

24 5. The costs of nuclear fuel will be charged to operating expense or
25 income as such fuel is consumed.

26 6. The Nuclear Fuel Debt would not exceed \$200,000,000 through a
27 combination of intermediate-term domestically issued debt (not to exceed
28 \$50,000,000), a European commercial paper program, and a short-term European

1 loan facility. The Nuclear Fuel Debt may exceed APS's net nuclear fuel assets
2 (up to the \$200,000,000 limit).

3 7. The exact timing of any issuances to be made pursuant to the
4 requested authorization would be dictated by then prevailing market conditions
5 as would the terms and conditions of such issuances, including the type of
6 security (mortgage, deed of trust, letter of credit, standby purchase
7 agreement, etc.), if any, provided therefor.

8 8. The reasonableness of such timing as well as of terms and conditions
9 of sale would be governed by the exercise in good faith of prudent business
10 judgement.

11 9. APS does not anticipate that it will actually have to issue all of
12 the debt for which authorization is being sought.

13 10. The financing flexibility sought herein and as previously granted by
14 Decision No. 54230 has permitted APS to take advantage of rapid and sometimes
15 unanticipated changes in the capital markets.

16 11. Upon the issuance of all the debt for which authorization is sought
17 herein, APS would have adequate operating income to service such debt under
18 existing rates for electric service.

19 12. After issuance of all the debt for which authorization is sought
20 herein, APS's financial ratios as to interest coverage, long-term debt, cash
21 flow, and common equity would be below those of comparable investment grade
22 investor-owned utilities, thus creating some risk of down-rating to
23 sub-investment grade.

24 13. Although such a down-rating would be significantly harmful to both
25 APS and its ratepayers, the risk of its occurrence is small and can be further
26 reduced by either APS receiving rate relief in its pending rate application or
27 by a reduction in discretionary expenditures or by a combination of both.

28 14. There is no reason to believe that any other form of long-term

1 financing would on a risk adjusted basis prove to be less expensive to APS and
2 its ratepayers.

3 15. With the possible exception of the Nuclear Fuel Debt and the payment
4 of certain of APS's working captial and other cash requirements, none of the
5 purposes for which debt is to be issued pursuant to the authorization sought
6 herein is reasonably chargeable to operating expense or income.

7 16. The proposed financing and the authorizations in connection
8 therewith are reasonably necessary for the purposes set forth herein and in the
9 Application.

10 17. The proposed financing program is compatible with sound financial
11 practices and with APS's obligations as a public service corporation and will
12 not impair its ability to provide service to the public.

13 18. The proposed financing program has been approved by APS's board of
14 directors.

15 CONCLUSIONS OF LAW

16 1. APS is a public service corporation within the meaning of Article XV
17 of the Arizona Constitution and A.R.S. §§40-301, et seq.

18 2. The Commission has jurisdiction over APS and of the subject matter
19 of the Application.

20 3. The proposed financing plan, as described herein and in APS's
21 Application, is for lawful purposes within the corporate powers of APS and is
22 compatible with the public interest.

23 ORDER

24 IT IS THEREFORE ORDERED that Arizona Public Service Company be, and the
25 same is hereby authorized:"

26 (a) to issue, sell, and incur up to \$275,000,000 in aggregate
27 principal amount of New Debt, to issue, sell, and incur the
28 Continuing Debt, and to amend the terms and provisions of

1 outstanding long-term indebtedness:

2 (b) to execute and deliver one or more supplemental indentures to
3 the Arizona Public Service Company's Mortgage and Deed of Trust
4 as may be deemed appropriate by Arizona Public Service Company
5 in connection with the New Debt and Continuing Debt:

6 (c) to issue, sell, and incur up to \$200,000,000 in aggregate
7 principal amount of Nuclear Fuel Debt: and,

8 (d) to pay related expenses, all as contemplated in the Application
9 and by the exhibits and testimony filed in connection
10 therewith.

11 IT IS FURTHER ORDERED that Arizona Public Service Company is hereby
12 authorized to sign and deliver such documents and to engage in such acts as are
13 reasonably necessary to effectuate the authorization granted hereinabove.

14 IT IS FURTHER ORDERED that the purposes for which the proposed issuances
15 of New Debt and Continuing Debt are herein authorized are to augment the funds
16 available from all sources to finance Arizona Public Service Company's
17 construction program, to redeem or retire outstanding securities, to repay or
18 refund other outstanding long-term debt, to repay short-term debt which has
19 previously financed construction projects, and, if necessary, to meet certain
20 working capital and other cash requirements, regardless of the extent to which
21 such purposes may be reasonably chargeable to operative expenses or to income.

22 IT IS FURTHER ORDERED that the purposes for which the proposed issuances
23 of Nuclear Fuel Debt are herein authorized are to finance the Arizona Public
24 Service Company's nuclear fuel requirements in connection with the operation of
25 the Palo Verde Nuclear Generating Station, and/or to refund or roll-over the
26 Nuclear Fuel Debt, which purposes are hereby specifically authorized regardless
27 of the extent to which they may be reasonably chargeable to operative expenses
28 or to income.

1-4473	ARIZONA PUBLIC SERVICE COMPANY (an Arizona corporation) 400 North Fifth Street, P.O. Box 53999 Phoenix, Arizona 85072-3999 (602) 250-1000	86-0011170

Indicate by check mark whether each registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

PINNACLE WEST CAPITAL CORPORATION Yes No
 ARIZONA PUBLIC SERVICE COMPANY Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer" and "large accelerated filer" in Rule 12b-2 of the Exchange Act.

PINNACLE WEST CAPITAL CORPORATION
 Large accelerated filer Accelerated filer Non-accelerated filer
 ARIZONA PUBLIC SERVICE COMPANY
 Large accelerated filer Accelerated filer Non-accelerated filer

Indicate by check mark whether each registrant is a shell company (as defined in Exchange Act Rule 12b-2).

PINNACLE WEST CAPITAL CORPORATION Yes No
 ARIZONA PUBLIC SERVICE COMPANY Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock as of the latest practicable date.

PINNACLE WEST CAPITAL CORPORATION Number of shares of common stock, no par value,
 outstanding as of August 4, 2006: 99,477,663

ARIZONA PUBLIC SERVICE COMPANY Number of shares of common stock, \$2.50 par value,
 outstanding as of August 4, 2006: 71,264,947

Arizona Public Service Company meets the conditions set forth in General Instruction H(1)(a) and (b) of Form 10-Q and is therefore filing this form with the reduced disclosure format allowed under that General Instruction.

This combined Form 10-Q is separately filed by Pinnacle West Capital Corporation and Arizona Public Service Company. Each registrant is filing on its own behalf all of the information contained in this Form 10-Q that relates to such registrant and, where required, its subsidiaries. Except as stated in the preceding sentence, neither registrant is filing any information that does not relate to such registrant, and therefore makes no representation as to any such information.

GLOSSARY

ACC – Arizona Corporation Commission
ADEQ – Arizona Department of Environmental Quality
ALJ – Administrative Law Judge
APB – Accounting Principles Board
APS – Arizona Public Service Company, a subsidiary of the Company
APS Energy Services – APS Energy Services Company, Inc., a subsidiary of the Company
Clean Air Act – Clean Air Act, as amended
Company – Pinnacle West Capital Corporation
DOE – United States Department of Energy
EITF – FASB's Emerging Issues Task Force
El Dorado – El Dorado Investment Company, a subsidiary of the Company
EPA – United States Environmental Protection Agency
ERMC – Energy Risk Management Committee
FASB – Financial Accounting Standards Board
FERC – United States Federal Energy Regulatory Commission
FIP – Federal Implementation Plan
GAAP – accounting principles generally accepted in the United States of America
IRS – United States Internal Revenue Service
kWh – kilowatt-hour
Moody's – Moody's Investors Service
MWh – megawatt-hour, one million watts per hour
Native Load – retail and wholesale sales supplied under traditional cost-based rate regulation
NPC – Nevada Power Company
NRC – United States Nuclear Regulatory Commission
OCI – other comprehensive income
Off-System Sales – sales of electricity from generation owned by the Company that is over and above the amount required to serve APS' retail customers and traditional wholesale contracts
Palo Verde – Palo Verde Nuclear Generating Station
Pinnacle West – Pinnacle West Capital Corporation, the Company
Pinnacle West Energy – Pinnacle West Energy Corporation, a subsidiary of the Company
PRP – potentially responsible party
PSA – power supply adjustor

PWEC Dedicated Assets – the following power plants, each of which was transferred by Pinnacle West Energy to APS on July 29, 2005: Redhawk Units 1 and 2, West Phoenix Units 4 and 5 and Saguaro Unit 3

Salt River Project – Salt River Project Agricultural Improvement and Power District

SEC – United States Securities and Exchange Commission

SFAS – Statement of Financial Accounting Standards

Silverhawk – Silverhawk Power Station, a 570-megawatt, natural gas-fueled, combined-cycle electric generating facility located 20 miles north of Las Vegas, Nevada

Standard & Poor's – Standard & Poor's Corporation

SunCor – SunCor Development Company, a subsidiary of the Company

Sundance Plant – 450-megawatt generating facility located approximately 55 miles southeast of Phoenix, Arizona

Superfund – Comprehensive Environmental Response, Compensation and Liability Act

Trading – energy-related activities entered into with the objective of generating profits on changes in market prices

2005 Form 10-K – Pinnacle West/APS Annual Report on Form 10-K for the fiscal year ended December 31, 2005

VIE – variable interest entity

PINNACLE WEST CAPITAL CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Consolidation and Nature of Operations

The unaudited condensed consolidated financial statements include the accounts of Pinnacle West and our wholly-owned subsidiaries: APS, Pinnacle West Energy, APS Energy Services, SunCor and El Dorado. All significant intercompany accounts and transactions between the consolidated companies have been eliminated. Our accounting records are maintained in accordance with GAAP. The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. We have reclassified certain prior year amounts to conform to the current year presentation.

2. Condensed Consolidated Financial Statements

Our unaudited condensed consolidated financial statements reflect all adjustments which we believe are necessary for the fair presentation of our financial position, results of operations and cash flows for the periods presented. We suggest that these condensed consolidated financial statements and notes to condensed consolidated financial statements be read along with the consolidated financial statements and notes to consolidated financial statements included in our 2005 Form 10-K.

3. Quarterly Fluctuations

Weather conditions cause significant seasonal fluctuations in our revenues. In addition, real estate and trading and wholesale marketing activities can have significant impacts on our results for interim periods. For these reasons, results for interim periods do not necessarily represent results to be expected for the year.

4. Changes in Liquidity

In January 2006, Pinnacle West infused into APS \$210 million of the proceeds from the sale of Silverhawk. See "Equity Infusions" in Note 5 for more information.

On February 28, 2006, Pinnacle West entered into an Uncommitted Master Shelf Agreement with Prudential Investment Management, Inc. ("Prudential") and certain of its affiliates. The agreement provides the terms under which Pinnacle West may offer up to \$200 million of its senior notes for purchase by Prudential affiliates at any time prior to December 31, 2007. The maturity of notes issued under the agreement cannot exceed five years. Pursuant to the agreement, on February 28, 2006, Pinnacle West issued and sold to Prudential affiliates \$175 million of its 5.91% Senior Notes, Series A, due February 28, 2011 (the "Series A Notes").

On April 3, 2006, Pinnacle West repaid \$300 million of its 6.40% Senior Notes due April 2006. Pinnacle West used the proceeds of the Series A Notes, cash on hand and commercial paper proceeds to repay these notes.

On August 3, 2006, APS issued \$400 million of debt as follows: \$250 million of its 6.25% Notes due 2016 and \$150 million of its 6.875% Notes due 2036. A portion of the proceeds will be used to pay at maturity approximately \$84 million of APS' 6.75% Senior Notes due November 15,

PINNACLE WEST CAPITAL CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

2006, to fund its construction program and for other general corporate purposes. A portion of the proceeds may also be used to pay any liability determined to be payable as a result of the review by the Internal Revenue Service of a tax refund the Company received in 2002.

The following table shows principal payments due on Pinnacle West's and APS' total long-term debt and capitalized lease requirements (dollars in millions) as of June 30, 2006:

Year	Pinnacle West	APS
2006	\$ 86	\$ 85
2007	2	1
2008	130	1
2009	27	1
2010	227	224
Thereafter	2,438	2,261
Total	<u>\$ 2,910</u>	<u>\$ 2,573</u>

5. Regulatory Matters

APS General Rate Case

On January 31, 2006, APS filed with the ACC updated financial schedules, testimony and other data in the general rate case that APS originally filed on November 4, 2005. As requested by the ACC staff, the updated information uses the twelve months ended September 30, 2005 as the test period instead of the test year ended December 31, 2004 used in APS' original filing. As a result of the updated filing, APS is requesting a 21.3%, or \$453.9 million, increase in its annual retail electricity revenues effective no later than December 31, 2006. The original filing requested a 19.9%, or \$409.1 million, retail rate increase.

The updated requested rate increase is designed to recover the following (dollars in millions):

	Updated Filing (January 31, 2006)		Original Filing (November 4, 2005)	
	Annual Revenue Increase	Percentage Increase	Annual Revenue Increase	Percentage Increase
Increased fuel and purchased power	\$ 299.0	14.0%	\$ 246.8	12.0%
Capital structure update	98.3	4.6%	96.8	4.7%
Rate base update, including acquisition of Sundance Plant	46.2	2.2%	42.5	2.1%
Pension funding	41.3	1.9%	41.2	2.0%
Other items	(30.9)	(1.4)%	(18.2)	(0.9)%
Total increase	<u>\$ 453.9</u>	<u>21.3%</u>	<u>\$ 409.1</u>	<u>19.9%</u>

The request is based on (a) a rate base of \$4.4 billion as of September 30, 2005; (b) a base rate for fuel and purchased power costs of \$0.031904 per kilowatt-hour based on estimated 2006

PINNACLE WEST CAPITAL CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

prices; and (c) a proposed capital structure of 45% long-term debt and 55% common stock equity, with a weighted-average cost of capital of 8.73% (5.41% for long-term debt and 11.50% for common stock equity). The requested increase in annual retail electricity revenues from the original filing is based solely on increased fuel and purchased power costs, slightly offset by other items (see the above chart). If the ACC approves the requested base rate increase for fuel and purchased power costs (see clause (b) of this paragraph), subsequent PSA rate adjustments and/or PSA surcharges would be reduced because more of such costs would be recovered in base rates.

The updated request does not include the PSA annual adjustor rate increase of approximately 5% that took effect February 1, 2006, the PSA surcharge increase of approximately 0.7% that took effect May 1, 2006, or APS' pending application for a 1.9% PSA surcharge rate increase. See "Power Supply Adjustor" below. The interim rate increase described immediately below would, if it becomes permanent, accelerate the recovery of a portion of the fuel and purchased power component of the general rate case request.

Interim Rate Increase

On January 6, 2006, APS filed with the ACC an application requesting an emergency interim rate increase of \$299 million, or approximately 14%, to be effective April 1, 2006. APS later reduced this request to \$232 million, or approximately 11%, due to a decline in expected 2006 natural gas and wholesale power prices. The purpose of the emergency interim rate increase was solely to address APS' under-collection of higher annual fuel and purchased power costs. On May 2, 2006, the ACC approved an order in this matter that, among other things:

- authorized an interim PSA adjustor, effective May 1, 2006, that resulted in an interim retail rate increase of approximately 8.3% designed to recover approximately \$138 million of fuel and purchased power costs incurred in 2006 (this interim adjustor, combined with the \$15 million PSA surcharge approved by the ACC (see "Surcharge for Certain 2005 PSA Deferrals" below), resulted in a rate increase of approximately 9.0% designed to recover approximately \$149 million of fuel and purchased power costs during 2006);
- provides that amounts collected through the interim PSA adjustor "remain subject to a prudency review at the appropriate time" and that "all unplanned Palo Verde outage costs for 2006 should undergo a prudence audit by [the ACC] Staff" (see "PSA Deferrals Related to Unplanned Palo Verde Outages" below);
- encourages parties to APS' general rate case to "propose modifications to the PSA that will address on a permanent basis, the issues with timing of recovery when deferrals are large and growing";
- affirmed APS' ability to defer fuel and purchased power costs above the prior annual cap of \$776.2 million until the ACC decides the general rate case; and
- encourages APS to diversify its resources "through large scale, sustained energy efficiency programs, [using] low cost renewable energy resources as a hedge against high fossil fuel costs."

PINNACLE WEST CAPITAL CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

As noted above, the interim PSA adjustor would, if it becomes permanent, accelerate the recovery of a portion of the fuel and purchased power component of APS' general rate case and is not an additional increase.

Power Supply Adjustor

PSA Provisions

The PSA approved by the ACC in April 2005 as part of APS' 2003 rate case provides for adjustment of retail rates to reflect variations in retail fuel and purchased power costs. On January 25, 2006, the ACC modified the PSA in certain respects. The PSA, as modified, is subject to specified parameters and procedures, including the following:

- APS will record deferrals for recovery or refund to the extent actual retail fuel and purchased power costs vary from the base fuel amount (currently \$0.020743 per kWh);
- the deferrals are subject to a 90/10 sharing arrangement in which APS must absorb 10% of the retail fuel and purchased power costs above the base fuel amount and may retain 10% of the benefit from the retail fuel and purchased power costs that are below the base fuel amount;
- amounts to be recovered or refunded through the PSA adjustor are limited to a) a cumulative plus or minus \$0.004 per kWh from the base fuel amount over the life of the PSA and b) a maximum plus or minus \$0.004 change in the adjustor rate in any one year;
- the recoverable amount of annual retail fuel and purchased power costs through current base rates and the PSA was originally capped at \$776.2 million; however, the ACC has removed the cap pending the ACC's final ruling on APS' pending request in the general rate case to have the cap eliminated or substantially raised;
- the PSA will remain in effect for a minimum five-year period, but the ACC may eliminate the PSA at any time, if appropriate, in the event APS files a rate case before the expiration of the five-year period (which APS did by filing the general rate case noted above) or if APS does not comply with the terms of the PSA; and
- APS is prohibited from requesting PSA surcharges until after the PSA annual adjustor rate has been set each year. The amount available for potential PSA surcharges will be limited to the amount of accumulated deferrals through the prior year-end, which are not expected to be recovered through the annual adjustor or any PSA surcharges previously approved by the ACC.

2006 PSA Annual Adjustor The effective date of the PSA's annual adjustor is February 1, 2006 and the adjustor rate was set at the maximum \$0.004 per kilowatt-hour effective February 1, 2006. The change in the adjustor rate represents a retail rate increase of approximately 5% designed to recover \$110 million of deferred fuel and purchased power costs over the twelve-month period beginning February 1, 2006.

PINNACLE WEST CAPITAL CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Surcharge for Certain 2005 PSA Deferrals On April 12, 2006, the ACC approved APS' request to recover \$15 million of 2005 PSA deferrals over a twelve-month period beginning May 2, 2006, representing a temporary rate increase of approximately 0.7%. Approximately \$45 million of 2005 PSA deferrals remain subject to a pending application (see "PSA Deferrals Related to Unplanned Palo Verde Outages" below); the balance of the 2005 PSA deferrals is being recovered under the 2006 PSA annual adjustor described in the preceding paragraph.

PSA Deferrals Related to Unplanned Palo Verde Outages On February 2, 2006, APS filed with the ACC an application to recover approximately \$45 million over a twelve-month period, representing a temporary rate increase of approximately 1.9%, proposed to begin no later than the ACC's completion of its inquiry regarding the unplanned 2005 Palo Verde outages.

As noted under "Interim Rate Increase" above, the ACC has directed the ACC staff to conduct a "prudence audit" on unplanned 2006 Palo Verde outage costs. PSA deferrals related to these 2006 outages are estimated to be about \$70 million.

Proposed Modifications to PSA (Requested In General Rate Case)

In its pending general rate case, APS has requested the following modifications to the PSA:

- The cumulative plus or minus \$0.004 per kWh limit from the base fuel amount over the life of the PSA would be eliminated, while the maximum plus or minus \$0.004 limit to changes in the adjustor rate in any one year would remain in effect;
- The \$776.2 million annual limit on the retail fuel and purchased power costs under APS' current base rates and the PSA would be removed or increased (although APS may defer fuel and purchased power costs above \$776.2 million per year pending the ACC's final ruling on APS' pending request to have the cap eliminated or substantially raised);
- The current provision that APS is required to file a surcharge application with the ACC after accumulated pretax PSA deferrals equal \$50 million and before they equal \$100 million would be eliminated, thereby giving APS flexibility in determining when a surcharge filing should be made;
- The costs of renewable energy and capacity costs attributable to purchased power obtained through competitive procurement would be excluded from the existing 90/10 sharing arrangement under which APS absorbs 10% of the retail fuel and purchased power costs above the base fuel amount and retains 10% of the benefit from retail fuel and purchased power costs that are below the base fuel amount; and
- 10% of any realized gains or losses resulting from APS' hedges of retail fuel and purchased power costs would be retained or absorbed by APS before being subject to the 90/10 sharing provision under the PSA.

PINNACLE WEST CAPITAL CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Equity Infusions

On November 8, 2005, the ACC approved Pinnacle West's request to infuse more than \$450 million of equity into APS during 2005 or 2006. These infusions consist of about \$250 million of the proceeds of Pinnacle West's common equity issuance on May 2, 2005 and about \$210 million of the proceeds from the sale of Silverhawk in January 2006 (see Note 17). Pinnacle West has made these equity infusions into APS.

Federal

Price Mitigation Plan

In July 2002, the FERC adopted a price mitigation plan that constrains the price of electricity in the wholesale spot electricity market in the western United States. The FERC adopted a price cap of \$250 per MWh for the period subsequent to October 31, 2002. On February 13, 2006, the FERC increased this price cap to \$400 per MWh for prospective sales. Sales at prices above the cap must be justified and are subject to potential refund.

FERC Order

On August 11, 2004, Pinnacle West, APS, Pinnacle West Energy, and APS Energy Services (collectively, the "Pinnacle West Companies") submitted to the FERC an update to its three-year market-based rate review pursuant to the FERC's order implementing a new generation market power analysis. On December 20, 2004, the FERC issued an order approving the Pinnacle West Companies' market-based rates for control areas other than those of APS, Public Service Company of New Mexico ("PNM") and Tucson Electric Power Company ("TEP"). The FERC staff required the Pinnacle West Companies to submit additional data with respect to these control areas, and the Pinnacle West Companies did so.

On April 17, 2006, the FERC issued an order revoking the Pinnacle West Companies' market-based rate authority in the APS control area (the "FERC Order"). The FERC found that the Pinnacle West Companies failed to provide the necessary information about the APS control area to allow the FERC to make a determination about the FERC's generation market power "screens" in the APS control area. The FERC found that the Pinnacle West Companies may charge market-based rates in the PNM and TEP control areas.

As a result of the FERC Order, the Pinnacle West Companies must charge cost-based rates, rather than market-based rates, in the APS control area for sales occurring after the date of the order, April 17, 2006. The Pinnacle West Companies are required to refund any amounts collected that exceed the default cost-based rates for all market rate sales within the APS control area from February 27, 2005 to April 17, 2006.

The Pinnacle West Companies filed a rehearing request of the FERC Order on May 17, 2006 and requested a technical conference with the FERC staff to discuss the order. The rehearing request is still pending. The FERC granted the request to hold a technical conference so that FERC staff and the Pinnacle West Companies may discuss how to implement the cost-based mitigation requirements of the FERC Order. The technical conference was held on July 10, 2006, and the Pinnacle West Companies submitted a supplemental compliance filing on July 31, 2006. Based upon an analysis of

PINNACLE WEST CAPITAL CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

the FERC Order and preliminary calculations of the refund obligations, at this time, neither Pinnacle West nor APS believes that the FERC Order will have a material adverse effect on its financial position, results of operations or cash flows.

6. Retirement Plans and Other Benefits

Pinnacle West sponsors a qualified defined benefit and account balance pension plan, a nonqualified supplemental excess benefit retirement plan, and other postretirement benefit plans for the employees of Pinnacle West and our subsidiaries. Pinnacle West uses a December 31 measurement date for its pension and other postretirement benefit plans. The market-related value of our plan assets is their fair value at the measurement date.

The following table provides details of the plans' benefit costs for the three and six months ended June 30, 2006 and 2005. Also included is the portion of these costs charged to expense, including administrative costs and excluding amounts billed to electric plant participants or capitalized as overhead construction (dollars in millions):

	Pension Benefits				Other Benefits			
	Three Months		Six Months		Three Months		Six Months	
	Ended June 30,	2005	Ended June 30,	2005	Ended June 30,	2005	Ended June 30,	2005
Service cost-benefits earned during the period	\$ 9	\$ 11	\$ 24	\$ 23	\$ 2	\$ 5	\$ 10	\$ 11
Interest cost on benefit obligation	17	21	46	44	4	9	17	17
Expected return on plan assets	(18)	(21)	(48)	(44)	(4)	(8)	(18)	(16)

Prior service cost	1	1	1	1	--	--	--	--
Net actuarial loss	4	4	12	10	1	2	4	5
Net periodic benefit cost	<u>\$ 13</u>	<u>\$ 15</u>	<u>\$ 34</u>	<u>\$ 32</u>	<u>\$ 3</u>	<u>\$ 9</u>	<u>\$ 15</u>	<u>\$ 19</u>
Portion of cost charged to expense	<u>\$ 5</u>	<u>\$ 6</u>	<u>\$ 14</u>	<u>\$ 13</u>	<u>\$ 1</u>	<u>\$ 4</u>	<u>\$ 6</u>	<u>\$ 8</u>
APS' share of costs charged to expense	<u>\$ 5</u>	<u>\$ 6</u>	<u>\$ 13</u>	<u>\$ 12</u>	<u>\$ 1</u>	<u>\$ 3</u>	<u>\$ 6</u>	<u>\$ 7</u>

Contributions

The contribution to our pension plan in 2006 is estimated to be approximately \$50 million, \$29 million of which has been contributed through June 30, 2006. The contribution to our other postretirement benefit plan in 2006 is estimated to be approximately \$29 million. APS' share is approximately 97% of both plans.

7. Business Segments

We have three principal business segments (determined by products, services and the regulatory environment):

PINNACLE WEST CAPITAL CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

- our regulated electricity segment, which consists of traditional regulated retail and wholesale electricity businesses (primarily electricity service to Native Load customers) and related activities and includes electricity generation, transmission and distribution;
- our real estate segment, which consists of SunCor's real estate development and investment activities; and
- our marketing and trading segment, which consists of our competitive energy business activities, including wholesale marketing and trading and APS Energy Services' commodity-related energy services.

Financial data for the three and six months ended June 30, 2006 and 2005 and at June 30, 2006 and December 31, 2005 by business segment is provided as follows (dollars in millions):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2006	2005	2006	2005

PINNACLE WEST CAPITAL CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

8. Stock-Based Compensation

Pinnacle West offers stock-based compensation plans for officers and key employees of Pinnacle West and our subsidiaries.

The 2002 Long-Term Incentive Plan ("2002 Plan") allows Pinnacle West to grant performance shares, stock ownership incentive awards and non-qualified and performance-accelerated stock options to key employees. We have reserved 6 million shares of common stock for issuance under the 2002 plan. No more than 1.8 million shares may be issued in relation to performance share awards and stock ownership incentive awards. The plan also provides for the granting of new non-qualified stock options at a price per share not less than the fair market value of the common stock at the time of grant. The stock options vest over three years, unless certain performance criteria are met, which can accelerate the vesting period. The terms of the options cannot be longer than 10 years and the options cannot be repriced.

Generally, each recipient of performance shares is entitled to receive shares of common stock at the end of a three-year period based upon Pinnacle West's earnings per share growth rate during that three-year period compared to the earnings per share growth rate of all relevant companies in a specified utilities index. The number of shares of common stock a recipient is entitled to receive is determined by Pinnacle West's relative percentile ranking during the three-year period.

The 1994 Long-Term Incentive Plan ("1994 Plan") includes outstanding options but no new options may be granted under the plan. Options vest one-third of the grant per year beginning one year after the date the option is granted and expire ten years from the date of the grant. The 1994 Plan also provided for the granting of any combination of shares of restricted stock, stock appreciation rights or dividend equivalents.

In the third quarter of 2002, we began applying the fair value method of accounting for stock-based compensation, as provided for in SFAS No. 123, "Accounting for Stock-Based Compensation." In accordance with the transition requirements of SFAS No. 123, we applied the fair value method prospectively, beginning with 2002 stock grants. In prior years, we recognized stock compensation expense based on the intrinsic value method allowed in APB No. 25, "Accounting for Stock Issued to Employees."

Effective January 1, 2006, we prospectively adopted SFAS No. 123(R), "Share-Based Payment." Because the fair value recognition provisions of both SFAS No. 123 and SFAS No. 123(R) are materially consistent with respect to our stock-based compensation plans, the adoption of SFAS No. 123(R) did not have a material impact on our financial statements.

The compensation cost that has been charged against income for share-based compensation plans was \$1.3 million and \$4.1 million for the three and six months ended June 30, 2006, respectively compared to \$1.6 million and \$2.2 million for the three and six months ended June 30, 2005, respectively. The total income tax benefit recognized in the condensed consolidated income statement for share-based compensation arrangements was \$0.5 million and \$1.5 million for the three and six months ended June 30, 2006, respectively, compared to \$0.6 million and \$0.9 million for the three and six months ended June 30, 2005, respectively.

PINNACLE WEST CAPITAL CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The following table is a summary of option activity under our equity incentive plans as of June 30, 2006 and changes during the six months ending on that date:

Options	Shares (in thousands)	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value (dollars in thousands)
Outstanding at				
January 1, 2006	1,696	\$ 39.65		
Exercised	(28)	33.00		
Forfeited or expired	(21)	43.92		
Outstanding at				
June 30, 2006	1,647	39.70	4.6	\$ 3,411
Exercisable at				
June 30, 2006	<u>1,641</u>	39.71	4.6	3,400

There were no options granted during the six months ended June 30, 2006 and 2005. The intrinsic value of options exercised during the three months ended June 30, 2006 and 2005 was \$0.2 million and \$0.6 million, respectively. The intrinsic value of options exercised during the six months ended June 30, 2006 and 2005 was \$0.2 million and \$1.1 million, respectively.

The following table is a summary of the status of stock compensation awards, other than options, as of June 30, 2006 and changes during the six months ending on that date:

Nonvested shares	Shares (in thousands)	Weighted-Average Grant-Date Fair Value
Nonvested at January 1, 2006	528	\$ 38.23
Granted	274	41.50
Vested	(13)	44.13
Forfeited	(224)	36.10
Nonvested at June 30, 2006	<u>565</u>	40.52

As of June 30, 2006, there was \$8.6 million of total unrecognized compensation cost related to nonvested share-based compensation arrangements granted under the plan. That cost is expected to be recognized over a weighted-average period of 1.8 years. No shares vested during the three months ended June 30, 2006 and 2005. The total fair value of shares vested during the six months ended June 30, 2006 and 2005 was \$0.5 million and \$2.9 million, respectively.

Cash received from options exercised under our share-based payment arrangements was \$0.9 million and \$2.1 million for the three months ended June 30, 2006 and 2005, respectively. Cash received from options exercised under our share-based payment arrangements was \$0.9 million and \$6.1 million for the six months ended June 30, 2006 and 2005, respectively. The actual tax benefit realized for the tax deductions from option exercises of the share-based payment arrangements was immaterial for the three and six months ended June 30, 2006 and 2005.

PINNACLE WEST CAPITAL CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Pinnacle West has a current policy of issuing new shares to satisfy share requirements for stock compensation plans and does not expect to repurchase any shares during 2006.

9. Variable-Interest Entities

In 1986, APS entered into agreements with three separate VIE lessors in order to sell and lease back interests in Palo Verde Unit 2. The leases are accounted for as operating leases in accordance with GAAP. We are not the primary beneficiary of the Palo Verde VIEs and, accordingly, do not consolidate them.

APS is exposed to losses under the Palo Verde sale leaseback agreements upon the occurrence of certain events that APS does not consider to be reasonably likely to occur. Under certain circumstances (for example, the NRC issuing specified violation orders with respect to Palo Verde or the occurrence of specified nuclear events), APS would be required to assume the debt associated with the transactions, make specified payments to the equity participants, and take title to the leased Unit 2 interests, which, if appropriate, may be required to be written down in value. If such an event had occurred as of June 30, 2006, APS would have been required to assume approximately \$228 million of debt and pay the equity participants approximately \$182 million.

10. Derivative and Energy Trading Accounting

We use derivative instruments (primarily forward purchases and sales, swaps, options and futures) to manage our exposure to the commodity price risk inherent in the purchase and sale of fuel, electricity and emission allowances and credits, as well as interest rate risk associated with long-term debt. As of June 30, 2006, we hedged exposures to the price variability of the power and gas commodities for a maximum of 3.25 years. The changes in market value of such contracts have a high correlation to price changes in the hedged transactions. In addition, subject to specified risk parameters monitored by the ERM, we engage in marketing and trading activities intended to profit from market price movements.

Cash Flow Hedges

The changes in the fair value of our hedged positions included in the Condensed Consolidated Statements of Income, after consideration of amounts deferred under the PSA, for the three and six months ended June 30, 2006 and 2005 are comprised of the following (dollars in thousands):

PINNACLE WEST CAPITAL CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

	Three Months Ended June 30,		Six Months Ended June 30,	
	2006	2005	2006	2005
Gains (losses) on the ineffective portion of derivatives qualifying for hedge accounting	\$ (2,975)	\$ 453	\$ (3,154)	\$ 7,777
Gains (losses) from the change in options' time value excluded from measurement of effectiveness	3	(119)	(14)	739
Gains from the discontinuance of cash flow hedges	--	--	434	385

During the next twelve months ending June 30, 2007, we estimate that a net gain of \$47 million before income taxes will be reclassified from accumulated OCI as an offset to the effect of market price changes for the related hedged transactions. To the extent the amounts are eligible for inclusion in the PSA, the amounts will be recorded as either a regulatory asset or liability and have no effect on earnings (see Note 5).

Our assets and liabilities from risk management and trading activities are presented in two categories, consistent with our business segments.

The following table summarizes our assets and liabilities from risk management and trading activities at June 30, 2006 and December 31, 2005 (dollars in thousands):

June 30, 2006

	Current Assets	Investments and Other Assets	Current Liabilities	Deferred Credits and Other	Net Asset (Liability)

Mark-to-market	\$ 330,793	\$ 192,384	\$ (329,666)	\$ (161,754)	\$ 31,757
Margin account and options	15,632	--	--	(1,114)	14,518
Marketing and trading:					
Mark-to-market	126,604	128,461	(55,085)	(81,018)	118,962
Options and emission allowances	522	286	(14,617)	--	(13,809)
Total	<u>\$ 473,551</u>	<u>\$ 321,131</u>	<u>\$ (399,368)</u>	<u>\$ (243,886)</u>	<u>\$ 151,428</u>

PINNACLE WEST CAPITAL CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2005

	Current Assets	Investments and Other Assets	Current Liabilities	Deferred Credits and Other	Net Asset (Liability)
Regulated electricity:					
Mark-to-market	\$ 516,399	\$ 228,873	\$ (335,801)	\$ (74,787)	\$ 334,684
Margin account and options	1,814	--	(124,165)	--	(122,351)
Marketing and trading:					
Mark-to-market	307,883	291,122	(236,922)	(181,417)	180,666
Options and emission allowances	1,683	77,836	(23,805)	(209)	55,505
Total	<u>\$ 827,779</u>	<u>\$ 597,831</u>	<u>\$ (720,693)</u>	<u>\$ (256,413)</u>	<u>\$ 448,504</u>

We maintain a margin account with a broker to support our risk management and trading activities. The margin account was an asset of \$13 million at June 30, 2006 and a liability of \$123 million at December 31, 2005 and is included in the margin account in the table above. Cash is deposited with the broker in this account at the time futures or options contracts are initiated. The change in market value of these contracts (reflected in mark-to-market) requires adjustment of the margin account balance.

Cash or other assets may be required to serve as collateral against our open positions on certain energy-related contracts. Collateral provided to counterparties was \$13 million at June 30, 2006 and \$6 million at December 31, 2005, and is included in other current assets on the Condensed Consolidated Balance Sheets. Collateral provided to us by counterparties was \$67 million at June 30, 2006 and \$216 million at December 31, 2005, and is included in other current liabilities on the Condensed Consolidated Balance Sheets.

Credit Risk

We are exposed to losses in the event of nonperformance or nonpayment by counterparties. We have risk management and trading contracts with many counterparties. Our risk management process assesses and monitors the financial exposure of all counterparties. Despite the fact that the great majority of trading counterparties' securities are rated as investment grade by the credit rating agencies, there is still a possibility that one or more of these companies could default, resulting in a material impact on consolidated earnings for a given period. Counterparties in the portfolio consist principally of financial institutions, major energy companies, municipalities and local distribution companies. We maintain credit policies that we believe minimize overall credit risk to within acceptable limits. Determination of the credit quality of our counterparties is based upon a number of factors, including credit ratings and our evaluation of their financial condition. To manage credit risk, we employ collateral requirements, standardized agreements that allow for the netting of positive and negative exposures associated with a single counterparty and credit default swaps. Valuation adjustments are established representing our estimated credit losses on our overall exposure to counterparties.

PINNACLE WEST CAPITAL CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

11. Comprehensive Income (Loss)

Components of comprehensive income (loss) for the three and six months ended June 30, 2006 and 2005 are as follows (dollars in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2006	2005	2006	2005
Net income	\$ 112,154	\$ 26,735	\$ 124,609	\$ 51,183
OCI (loss):				
Net unrealized gains (losses) on derivative instruments (a)	(69,124)	(24,220)	(274,107)	135,424
Reclassification of realized gain to income (b)	(676)	(9,769)	(18,206)	(15,688)
Income tax benefit (expense) related to items of OCI	27,257	13,334	114,149	(46,972)
Total OCI (loss)	(42,543)	(20,655)	(178,164)	72,764
Comprehensive income (loss)	<u>\$ 69,611</u>	<u>\$ 6,080</u>	<u>\$ (53,555)</u>	<u>\$ 123,947</u>

- (a) These amounts primarily include unrealized gains and losses on contracts used to hedge our forecasted electricity and natural gas requirements to serve Native Load. These changes are primarily due to changes in forward natural gas prices and wholesale electricity prices.
- (b) These amounts primarily include the reclassification of unrealized gains and losses to realized for contracted commodities delivered during the period.

12. Commitments and Contingencies

Palo Verde Nuclear Generating Station

Spent Nuclear Fuel and Waste Disposal

Nuclear power plant operators are required to enter into spent fuel disposal contracts with the DOE, and the DOE is required to accept and dispose of all spent nuclear fuel and other high-level radioactive wastes generated by domestic power reactors. Although the Nuclear Waste Policy Act required the DOE to develop a permanent repository for the storage and disposal of spent nuclear fuel by 1998, the DOE has announced that the repository cannot be completed before 2010 and it does not intend to begin accepting spent nuclear fuel prior to that date. In November 1997, the United States Court of Appeals for the District of Columbia Circuit (D.C. Circuit) issued a decision preventing the DOE from excusing its own delay, but refused to order the DOE to begin accepting spent nuclear fuel. Based on this decision and the DOE's delay, a number of utilities, including APS (on behalf of itself and the other Palo Verde owners), filed damages actions against the DOE in the Court of Federal Claims.

PINNACLE WEST CAPITAL CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

APS currently estimates it will incur \$147 million (in 2005 dollars) over the life of Palo Verde for its share of the costs related to the on-site interim storage of spent nuclear fuel. At June 30, 2006, APS had a regulatory asset of \$2 million that represents amounts spent for on-site interim spent fuel storage net of amounts recovered in rates per the ACC rate order that was effective April 1, 2005.

California Energy Market Issues and Refunds in the Pacific Northwest

FERC

In July 2001, the FERC ordered an expedited fact-finding hearing to calculate refunds for spot market transactions in California during a specified time frame. APS was a seller and a purchaser in the California markets at issue, and to the extent that refunds are ordered, APS should be a recipient as well as a payor of such amounts. The FERC is still considering the evidence and refund amounts have not yet been finalized. However, on September 6, 2005, the Ninth Circuit issued a decision, concluding that the FERC may not order refunds from entities that are not within the FERC's jurisdiction. Because a number of the entities owing refunds under the FERC's calculations are not within the FERC's jurisdiction, this order may affect the level of recovery of refunds due in this proceeding. In addition, on August 8, 2005, the FERC issued an order allowing sellers in the California markets to demonstrate that its refund methodology results in an overall revenue shortfall for their transactions in the relevant markets over a specified time frame. More than twenty sellers made such cost recovery filings on September 14, 2005. On January 26, 2006, the FERC conditionally accepted thirteen of these filings, reducing the refund liability for these sellers. Correspondingly, this will reduce the recovery of total refunds in the California markets. On August 2, 2006, the Ninth Circuit issued a decision on the appropriate temporal scope and the type of transactions properly subject to the refund orders. In the decision, the Court preserved the scope of the FERC's existing refund proceedings, but also expanded it potentially to include additional transactions, remanding the orders to the FERC for further proceedings. Petitions for rehearing on this order are due 90 days from the date of issuance. We currently believe the refund claims at FERC will have no material adverse impact on our financial position, results of operations, cash flow or liquidity.

On March 19, 2002, the State of California filed a complaint with the FERC alleging that wholesale sellers of power and energy, including the Company, failed to properly file rate information at the FERC in connection with sales to California from 2000 to the present under market-based rates. The complaint requests the FERC to require the wholesale sellers to refund any rates that are "found to exceed just and reasonable levels." This complaint was dismissed by the FERC and the State of California appealed the matter to the Ninth Circuit Court of Appeals. In an order issued September 9, 2004, the Ninth Circuit upheld the FERC's authority to permit market-based rates, but rejected the FERC's claim that it was without authority to consider retroactive refunds when a utility has not strictly adhered to the quarterly reporting requirements of the market-based rate system. On September 9, 2004, the Ninth Circuit remanded the case to the FERC for further proceedings. Several of the intervenors in this appeal filed a petition for rehearing of this decision on October 25, 2004. The petition for rehearing was denied on July 31, 2006. On August 4, 2006, the State of California filed a motion to stay the issuance of the mandate (scheduled to be issued on August 7, 2006), until the end of the period for seeking rehearing in the California refund

PINNACLE WEST CAPITAL CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

proceeding before the Ninth Circuit, discussed above. The outcome of the further proceedings cannot be predicted at this time.

The FERC also ordered an evidentiary proceeding to discuss and evaluate possible refunds for the Pacific Northwest. The FERC affirmed the ALJ's conclusion that the prices in the Pacific Northwest were not unreasonable or unjust and refunds should not be ordered in this proceeding. This decision has now been appealed to the Ninth Circuit Court of Appeals. Although the FERC ruling in the Pacific Northwest matter is being appealed and the FERC has not yet calculated the specific refund amounts due in California, we do not expect that the resolution of these issues, as to the amounts alleged in the proceedings, will have a material adverse impact on our financial position, results of operations or cash flows.

On March 26, 2003, the FERC made public a Final Report on Price Manipulation in Western Markets, prepared by its staff and covering spot markets in the West in 2000 and 2001. The report stated that a significant number of entities who participated in the California markets during the 2000-2001 time period, including APS, may potentially have been involved in arbitrage transactions that allegedly violated certain provisions of the Independent System Operator tariff. After reviewing the matter, along with the data supplied by APS, the FERC staff moved to dismiss the claims against APS and to dismiss the proceeding. The motion to dismiss was granted by the FERC on January 22, 2004. Certain parties have sought rehearing of this order, and that request is pending.

FERC Order

See "FERC Order" in Note 5 for a discussion of an order issued by the FERC on April 17, 2006.

Natural Gas Supply

Pursuant to the terms of a comprehensive settlement entered into in 1996 with El Paso Natural Gas Company, the rates charged for natural gas transportation were subject to a rate moratorium through December 31, 2005.

On July 9, 2003, the FERC issued an order that altered the capacity rights of parties to the 1996 settlement but maintained the cost responsibility provisions agreed to by parties to that settlement. On December 28, 2004, the D.C. Court of Appeals upheld the FERC's authority to alter the capacity rights of parties to the settlement. With respect to the FERC's authority to maintain the cost responsibility provisions of the settlement, a party has sought appellate review and is seeking to reallocate the cost responsibility associated with the changed contractual obligations in a way that would be less favorable to APS and Pinnacle West Energy than under the FERC's July 9, 2003 order. Should this party prevail on this point, APS and Pinnacle West Energy's annual capacity cost could be increased by approximately \$3 million per year after income taxes for the period September 2003 through December 2005. This appeal had been stayed pending further consideration by the FERC. On May 26, 2006, the FERC issued an Order on Remand affirming its earlier decision that there is no basis for modifying the settlement rates during the remaining term of the settlement. Despite the May 26 order, the party seeking appellate review is continuing to pursue an appeal of this issue.

PINNACLE WEST CAPITAL CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Consistent with its obligations under the 1996 settlement, El Paso filed a new rate case on June 30, 2005, which proposed new rates, terms and conditions and services to become effective on January 1, 2006. These rates are subject to refund pending the outcome of a hearing. The cost impact of this rate case will not have a material adverse effect on APS' financial position, results of operations, cash flows or liquidity.

Navajo Nation Litigation

In June 1999, the Navajo Nation served Salt River Project with a lawsuit filed in the United States District Court for the District of Columbia (the "D.C. Lawsuit") naming Salt River Project, several Peabody Coal Company entities (collectively, "Peabody"), Southern California Edison Company and other defendants, and citing various claims in connection with the renegotiations of the coal royalty and lease agreements under which Peabody mines coal for the Navajo Generating Station and the Mohave Generating Station. APS is a 14% owner of the Navajo Generating Station, which Salt River Project operates. The D.C. Lawsuit alleges, among other things, that the defendants obtained a favorable coal royalty rate by improperly influencing the outcome of a federal administrative process under which the royalty rate was to be adjusted. The suit seeks \$600 million in damages, treble damages, punitive damages of not less than \$1 billion, and the ejection of defendants "from all possessory interests and Navajo Tribal lands arising out of the [primary coal lease]." In July 2001, the court dismissed all claims against Salt River Project.

In January 2005, Peabody served APS with a lawsuit filed in the Circuit Court for the City of St. Louis naming APS and the other Navajo Generating Station participants and seeking, among other things, a declaration that the participants "are obligated to reimburse Peabody for any royalty, tax, or other obligation arising out of the D.C. Lawsuit." Based on APS' ownership interest in the Navajo Generating Station, APS could be liable for up to 14% of any such obligation. APS believes Peabody's claims are without merit and intends to contest those claims. Because the litigation is in preliminary stages, however, APS cannot currently predict the outcome of this matter.

Superfund

Superfund establishes liability for the cleanup of hazardous substances found contaminating the soil, water or air. Those who generated, transported or disposed of hazardous substances at a contaminated site are among those who are PRPs. PRPs may be strictly, and often jointly and severally, liable for clean-up. On September 3, 2003, the EPA advised APS that the EPA considers APS to be a PRP in the Motorola 52nd Street Superfund Site, Operable Unit 3 (OU3) in Phoenix, Arizona. APS has facilities that are within this superfund site. APS and Pinnacle West have agreed with the EPA to perform certain investigative activities of the APS facilities within OU3. Because the investigation has not yet been completed and ultimate remediation requirements are not yet finalized, neither APS nor Pinnacle West can currently estimate the expenditures which may be required.

Income Taxes

As a result of a change in IRS guidance, we claimed a tax deduction related to an APS tax accounting method change on the 2001 federal consolidated income tax return. The accelerated deduction resulted in a \$200 million reduction in the current income tax liability and a corresponding

PINNACLE WEST CAPITAL CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

increase in the plant-related deferred tax liability. In 2002, we received an income tax refund of approximately \$115 million related to our 2001 federal consolidated income tax return. The 2001 federal consolidated income tax return is currently under examination by the IRS. As part of this ongoing examination, the IRS is reviewing this accounting method change and the resultant deduction. During 2004 and again in 2005, the current income tax liability was increased, with a corresponding decrease to plant-related deferred tax liability, to reflect the expected outcome of this audit. We do not expect the ultimate outcome of this examination to have a material adverse impact on our financial position or results of operations. We expect that it will have a negative impact on cash flows.

Litigation

We are party to various other claims, legal actions and complaints arising in the ordinary course of business, including but not limited to environmental matters related to the Clean Air Act, Navajo Nation issues and EPA and ADEQ issues. In our opinion, the ultimate resolution of these matters will not have a material adverse effect on our financial position, results of operations, cash flows or liquidity.

13. Nuclear Insurance

The Palo Verde participants have insurance for public liability resulting from nuclear energy hazards to the full limit of liability under federal law. This potential liability is covered by primary liability insurance provided by commercial insurance carriers in the amount of \$300 million and the balance by an industry-wide retrospective assessment program. If losses at any nuclear power plant covered by the programs exceed the accumulated funds, APS could be assessed retrospective premium adjustments. The maximum assessment per reactor under the program for each nuclear incident is approximately \$101 million, subject to an annual limit of \$15 million per incident, to be periodically adjusted for inflation. Based on APS' interest in the three Palo Verde units, APS' maximum potential assessment per incident for all three units is approximately \$88 million, with an annual payment limitation of approximately \$13 million.

The Palo Verde participants maintain "all risk" (including nuclear hazards) insurance for property damage to, and decontamination of, property at Palo Verde in the aggregate amount of \$2.75 billion, a substantial portion of which must first be applied to stabilization and decontamination. APS has also secured insurance against portions of any increased cost of generation or purchased power and business interruption resulting from a sudden and unforeseen accidental outage of any of the three units. The property damage, decontamination, and replacement power coverages are provided by Nuclear Electric Insurance Limited (NEIL). APS is subject to retrospective assessments under all NEIL policies if NEIL's losses in any policy year exceed accumulated funds. The maximum amount of retrospective assessments APS could incur under the current NEIL policies totals \$17.8 million. The insurance coverage discussed in this and the previous paragraph is subject to certain policy conditions and exclusions.

14. Other Income and Other Expense

The following table provides detail of other income and other expense for the three and six months ended June 30, 2006 and 2005 (dollars in thousands):

PINNACLE WEST CAPITAL CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2006	2005	2006	2005
Other income:				
Asset sales	\$ 8,810	\$ 142	\$ 9,171	\$ 383
Interest income	2,285	3,872	7,190	5,191
SunCor joint venture earnings	717	2,370	883	2,342
Investment gains – net (a)	--	923	--	--
Miscellaneous	210	1,377	245	1,571
Total other income	<u>\$ 12,022</u>	<u>\$ 8,684</u>	<u>\$ 17,489</u>	<u>\$ 9,487</u>
Other expense:				
Non-operating costs (b)	\$ (3,828)	\$ (3,058)	\$ (7,547)	\$ (6,156)
Investment losses – net (a)	(1,066)	--	(1,097)	(326)
Miscellaneous	(921)	(788)	(1,712)	(1,750)
Total other expense	<u>\$ (5,815)</u>	<u>\$ (3,846)</u>	<u>\$ (10,356)</u>	<u>\$ (8,232)</u>

(a) Includes joint venture and other non-operating income.

(b) As defined by the FERC, includes below-the-line non-operating utility costs (primarily community relations and other costs excluded from utility rate recovery).

15. Guarantees

We have issued parental guarantees and letters of credit and obtained surety bonds on behalf of APS Energy Services. Our credit support instruments enable APS Energy Services to offer commodity energy and energy-related products. Non-performance or non-payment under the original contract by APS Energy Services would require us to perform under the guarantee or surety bond. No liability is currently recorded on the Condensed Consolidated Balance Sheets related to Pinnacle West's current outstanding guarantees on behalf of its subsidiary. Our guarantees have no recourse or collateral provisions to allow us to recover amounts paid under the guarantees. At June 30, 2006, we had guarantees totaling \$21 million and surety bonds totaling \$24 million with a term of approximately one year for APS Energy Services.

At June 30, 2006, Pinnacle West had approximately \$4 million of letters of credit related to workers' compensation expiring in 2007. We intend to provide from either existing or new facilities for the extension, renewal or substitution of the letters of credit to the extent required.

APS has entered into various agreements that require letters of credit for financial assurance purposes. At June 30, 2006, approximately \$200 million of letters of credit were outstanding to support existing pollution control bonds of approximately \$200 million. The letters of credit are available to fund the payment of principal and interest of such debt obligations and expire in 2010. APS has also entered into approximately \$93 million of letters of credit to support certain equity lessors in the Palo Verde sale leaseback transactions (see Note 9 for further details on the Palo Verde sale leaseback transactions). These letters of credit expire in 2010. Additionally, at June 30, 2006 APS had approximately \$5 million of letters of credit related to counterparty collateral requirements

PINNACLE WEST CAPITAL CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

expiring in 2006. APS intends to provide from either existing or new facilities for the extension, renewal or substitution of the letters of credit to the extent required.

We enter into agreements that include indemnification provisions relating to liabilities arising from or related to certain of our agreements. APS has agreed to indemnify the equity participants and other parties in the Palo Verde sale leaseback transactions with respect to certain tax matters. Generally, a maximum obligation is not explicitly stated in the indemnification provisions and, therefore, the overall maximum amount of the obligation under such indemnification provisions cannot be reasonably estimated. Based on historical experience and evaluation of the specific indemnities, we do not believe that any material loss related to such indemnification provisions is likely.

16. Earnings Per Share

The following table presents earnings per weighted average common share outstanding for the three and six months ended June 30, 2006 and 2005:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2006	2005	2006	2005
Basic earnings per share:				
Income from continuing operations	\$ 1.12	\$ 0.88	\$ 1.23	\$ 1.22
Income (loss) from discontinued operations	0.01	(0.60)	0.03	(0.68)
Earnings per share – basic	<u>\$ 1.13</u>	<u>\$ 0.28</u>	<u>\$ 1.26</u>	<u>\$ 0.54</u>
Diluted earnings per share:				
Income from continuing operations	\$ 1.11	\$ 0.88	\$ 1.23	\$ 1.22
Income (loss) from discontinued operations	0.02	(0.60)	0.02	(0.68)
Earnings per share – diluted	<u>\$ 1.13</u>	<u>\$ 0.28</u>	<u>\$ 1.25</u>	<u>\$ 0.54</u>

Dilutive stock options and performance shares increased average common shares outstanding by approximately 419,000 shares and 107,000 shares for the three months ended June 30, 2006 and 2005, respectively, and by approximately 394,000 shares and 100,000 shares for the six months ended June 30, 2006 and 2005, respectively.

Options to purchase 881,628 shares for the three-month period ended June 30, 2006 and 808,876 shares for the six-month period ended June 30, 2006 were outstanding but were not included in the computation of earnings per share because the options' exercise prices were greater than the average market price of the common shares. Options to purchase shares of common stock that were not included in the computation of diluted earnings per share for that same reason were 491,984 shares for the three-month period ended June 30, 2005 and 503,859 shares for the six-month period ended June 30, 2005.

PINNACLE WEST CAPITAL CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

17. Discontinued Operations

Silverhawk (marketing and trading segment) – In June 2005, we entered into an agreement to sell our 75% interest in the Silverhawk Power Station to NPC. The sale was completed on January 10, 2006. As a result of this sale, we recorded a loss from discontinued operations of approximately \$56 million (\$91 million pretax) in the second quarter of 2005. The marketing and trading segment discontinued operations amounts in the chart below also include the revenues and expenses related to the operations of Silverhawk.

SunCor (real estate segment) – In 2005 and 2006, SunCor sold commercial properties that are required to be reported as discontinued operations on Pinnacle West's Condensed Consolidated Statements of Income in accordance with SFAS No. 144.

The following table provides revenue and income (loss) before income taxes and after income taxes classified as discontinued operations on Pinnacle West's Condensed Consolidated Statements of Income for the three and six months ended June 30, 2006 and 2005 (dollars in millions):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2006	2005	2006	2005
Revenue:				
Silverhawk	\$ --	\$ 15	\$ 1	\$ 43
SunCor – commercial operations	2	3	3	7
Total revenue	<u>\$ 2</u>	<u>\$ 18</u>	<u>\$ 4</u>	<u>\$ 50</u>
Income (loss) before income taxes:				
Silverhawk (a)	\$ --	\$ (97)	\$ 1	\$ (107)
SunCor – commercial operations	2	1	3	3
Total income (loss) before income taxes	<u>\$ 2</u>	<u>\$ (96)</u>	<u>\$ 4</u>	<u>\$ (104)</u>
Income (loss) after income taxes:				
Silverhawk	\$ --	\$ (59)	\$ 1	\$ (65)
SunCor – commercial operations	1	1	2	1
Total income (loss) after income taxes	<u>\$ 1</u>	<u>\$ (58)</u>	<u>\$ 3</u>	<u>\$ (64)</u>

- (a) For the three and six months ended June 30, 2005, income (loss) before income taxes includes an interest expense allocation, net of capitalized costs, of \$3 million and \$6 million respectively. The allocation was based on Pinnacle West's weighted-average interest rate applied to the net property, plant and equipment.

18. Nuclear Decommissioning Trust

To fund the costs APS expects to incur to decommission Palo Verde, APS established external decommissioning trusts in accordance with NRC regulations. APS invests the trust funds in debt and domestic equity securities. APS applies the provisions of SFAS No. 115, "Accounting for Certain Investments in Debt and Equity Securities," in accounting for investments in

PINNACLE WEST CAPITAL CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

decommissioning trust funds, and classifies these investments as available for sale. As a result, we record the decommissioning trust funds at their fair value on our Condensed Consolidated Balance Sheets. Because of the ability of APS to recover decommissioning costs in rates and in accordance with the regulatory treatment for decommissioning trust funds, APS has recorded the offsetting amount of unrealized gains (losses) on investment securities in other regulatory liabilities/assets. The following table summarizes the fair value of APS' nuclear decommissioning trust fund assets at June 30, 2006 and December 31, 2005 (dollars in millions):

	Fair Value	Total Unrealized Gains	Total Unrealized Losses
June 30, 2006			
Equity securities	\$ 160	\$ 53	\$ --
Debt securities	147	1	2
Total	<u>\$ 307</u>	<u>\$ 54</u>	<u>\$ 2</u>
December 31, 2005			
Equity securities	\$ 150	\$ 50	\$ --
Debt securities	144	3	1
Total	<u>\$ 294</u>	<u>\$ 53</u>	<u>\$ 1</u>

The costs of securities sold are determined on the basis of specific identification. The following table sets forth approximate gains and losses and proceeds from the sale of securities by the nuclear decommissioning trust funds (dollars in millions):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2006	2005	2006	2005
Realized gains	\$ 1	\$ --	\$ 1	\$ 1
Realized losses	(1)	--	(2)	(1)
Proceeds from the sale of securities	49	43	115	83

The fair value of debt securities, summarized by contractual maturities, at June 30, 2006 is as follows (dollars in millions):

	Fair Value June 30, 2006
Less than one year	\$ 14
1 year - 5 years	32
5 years - 10 years	38
Greater than 10 years	63
Total	<u>\$ 147</u>

PINNACLE WEST CAPITAL CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

19. New Accounting Standards

In June 2006, the FASB issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109." This guidance requires us to recognize the tax benefits of an uncertain tax position if it is more likely than not that the benefit will be sustained upon examination by the taxing authority. The Interpretation is effective for fiscal years beginning after December 15, 2006. We are currently evaluating this new guidance and believe it will not have a material impact on our financial statements.

ARIZONA PUBLIC SERVICE COMPANY
SUPPLEMENTAL NOTES TO THE CONDENSED FINANCIAL STATEMENTS

S-1. Derivative and Energy Trading Accounting

APS is exposed to the impact of market fluctuations in the commodity price of electricity, natural gas, coal and emissions allowances. As part of its overall risk management program, APS uses various commodity instruments that qualify as derivatives to hedge purchases and sales of electricity, fuels, and emission allowances and credits. As of June 30, 2006, APS hedged exposures to these risks for a maximum of 3.25 years.

Cash Flow Hedges

The changes in the fair value of APS' hedged positions included in the APS Condensed Statements of Income, after consideration of amounts deferred under the PSA, for the three and six months ended June 30, 2006 and 2005 were comprised of the following (dollars in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2006	2005	2006	2005
Gains (losses) on the ineffective portion of derivatives qualifying for hedge accounting	\$ (2,824)	\$ 451	\$ (3,260)	\$ 7,868
Gains (losses) from the change in options' time value excluded from measurement of effectiveness	3	(119)	(14)	739
Gains from the discontinuance of cash flow hedges	--	--	159	302

During the next twelve months ending June 30, 2007, APS estimates that a net gain of \$15 million before income taxes will be reclassified from accumulated OCI as an offset to the effect of market price changes for the related hedged transactions. To the extent the amounts are eligible for inclusion in the PSA, the amounts will be recorded as either a regulatory asset or liability and have no effect on earnings (see Note 5).

APS' assets and liabilities from risk management and trading activities are presented in two categories, consistent with Pinnacle West's business segments.

The following table summarizes APS' assets and liabilities from risk management and trading activities at June 30, 2006 and December 31, 2005 (dollars in thousands):

ARIZONA PUBLIC SERVICE COMPANY
SUPPLEMENTAL NOTES TO THE CONDENSED FINANCIAL STATEMENTS

June 30, 2006

	Current Assets	Investments and Other Assets	Current Liabilities	Deferred Credits and Other	Net Asset (Liability)
Regulated Electricity:					
Mark-to-market	\$ 330,793	\$ 192,384	\$ (329,666)	\$ (161,754)	\$ 31,757
Margin account and options	15,632	--	--	(1,114)	14,518

Mark-to-market	3,232	2,935	(3,951)	(5,119)	(2,903)
Options	--	--	(2,755)	--	(2,755)
Total	\$ 349,657	\$ 195,319	\$ (336,372)	\$ (167,987)	\$ 40,617

December 31, 2005

	Current Assets	Investments and Other Assets	Current Liabilities	Deferred Credits and Other	Net Asset (Liability)
Regulated Electricity:					
Mark-to-market	\$ 516,399	\$ 228,873	\$ (335,801)	\$ (74,787)	\$ 334,684
Margin account and options	1,814	--	(124,165)	--	(122,351)
Marketing and Trading:					
Mark-to-market	13,027	5,499	(20,172)	(8,778)	(10,424)
Options	1,683	--	--	(209)	1,474
Total	\$ 532,923	\$ 234,372	\$ (480,138)	\$ (83,774)	\$ 203,383

We maintain a margin account with a broker to support our risk management and trading activities. The margin account was an asset of \$13 million at June 30, 2006 and a liability of \$123 million at December 31, 2005 and is included in the margin account in the table above. Cash is deposited with the broker in this account at the time futures or options contracts are initiated. The change in market value of these contracts (reflected in mark-to-market) requires adjustment of the margin account balance.

Cash or other assets may be required to serve as collateral against APS' open positions on certain energy-related contracts. Collateral provided to counterparties was \$4 million at June 30, 2006 and is included in other current assets on the Condensed Balance Sheets. No collateral was provided at December 31, 2005. Collateral provided to us by counterparties was \$16 million at June 30, 2006 and \$175 million at December 31, 2005, and is included in other current liabilities on the Condensed Balance Sheets.

S-2. Comprehensive Income (Loss)

Components of APS' comprehensive income (loss) for the three and six months ended June 30, 2006 and 2005 are as follows (dollars in thousands):

ARIZONA PUBLIC SERVICE COMPANY
SUPPLEMENTAL NOTES TO THE CONDENSED FINANCIAL STATEMENTS

	Three Months Ended June 30,		Six Months Ended June 30,	
	2006	2005	2006	2005
Net income	\$ 93,757	\$ 63,998	\$ 88,236	\$ 91,043
OCI (loss):				
Unrealized gains (losses) on derivative instruments (a)	(62,304)	(24,147)	(225,196)	84,070
Reclassification of realized (gains) losses to income (b)	2,958	(4,437)	(7,157)	(5,819)
Income tax (expense) benefit related to items of OCI	23,175	11,253	90,735	(30,807)
Total OCI (loss)	<u>(36,171)</u>	<u>(17,331)</u>	<u>(141,618)</u>	<u>47,444</u>
Comprehensive income (loss)	<u>\$ 57,586</u>	<u>\$ 46,667</u>	<u>\$ (53,382)</u>	<u>\$ 138,487</u>

- (a) These amounts primarily include unrealized gains and losses on contracts used to hedge our forecasted electricity and natural gas requirements to serve Native Load. These changes are primarily due to changes in forward natural gas prices and wholesale electricity prices.
- (b) These amounts primarily include the reclassification of unrealized gains and losses to realized gains and losses for contracted commodities delivered during the period.

S-3. Other Income and Other Expense

The following table provides detail of APS' other income and other expense for the three and six months ended June 30, 2006 and 2005 (dollars in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2006	2005	2006	2005
Other income:				
Asset sales	\$ 8,810	\$ 142	\$ 9,171	\$ 383
Interest income	1,970	4,177	5,504	9,600
Investment gains – net	--	981	165	479
Miscellaneous	209	1,705	245	2,202
Total other income	<u>\$ 10,989</u>	<u>\$ 7,005</u>	<u>\$ 15,085</u>	<u>\$ 12,664</u>
Other expense:				
Non-operating costs(a)	\$ (3,311)	\$ (2,708)	\$ (6,527)	\$ (5,335)
Investment losses – net	(710)	--	--	--
Miscellaneous	(537)	(168)	(1,001)	(899)
Total other expense	<u>\$ (4,558)</u>	<u>\$ (2,876)</u>	<u>\$ (7,528)</u>	<u>\$ (6,234)</u>

- (a) As defined by the FERC, includes below-the-line non-operating utility costs (primarily community relations and other costs excluded from utility rate recovery).

SUPPLEMENTAL NOTES TO THE CONDENSED FINANCIAL STATEMENTS

S-4. Related Party Transactions

From time to time, APS enters into transactions with Pinnacle West or Pinnacle West's other subsidiaries. The following table summarizes the amounts included in the APS Condensed Statements of Income and Condensed Balance Sheets related to transactions with affiliated companies (dollars in millions):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2006	2005	2006	2005
Electric operating revenues:				
Pinnacle West – marketing and trading	\$ 2	\$ 2	\$ 3	\$ 3
Pinnacle West Energy	--	1	--	2
Total	<u>\$ 2</u>	<u>\$ 3</u>	<u>\$ 3</u>	<u>\$ 5</u>
 Fuel and purchased power costs:				
Pinnacle West Energy	\$ --	\$ 39	\$ --	\$ 47
 Other:				
Pinnacle West Energy interest income	\$ --	\$ --	\$ --	\$ 5
			As of	As of
			June 30, 2006	December 31, 2005
Net intercompany receivables (payables):				
Pinnacle West – marketing and trading	\$	13	\$	82
APS Energy Services		1		2
Pinnacle West		(19)		(2)
Total	<u>\$</u>	<u>(5)</u>	<u>\$</u>	<u>82</u>

Electric revenues include sales of electricity to affiliated companies at contract prices. Purchased power includes purchases of electricity from affiliated companies at contract prices. APS purchases electricity from and sells electricity to APS Energy Services; however, these transactions are settled net and reported net in accordance with EITF 03-11, "Reporting Realized Gains and Losses on Derivative Instruments That Are Subject to FASB Statement No. 133 and Not 'Held for Trading Purposes' As Defined in EITF Issue No. 02-3."

Intercompany receivables primarily include amounts related to the intercompany sales of electricity. Intercompany payables primarily include amounts related to the intercompany purchases of electricity. Intercompany receivables and payables are generally settled on a current basis in cash.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

INTRODUCTION

The following discussion should be read in conjunction with Pinnacle West's Condensed Consolidated Financial Statements and Arizona Public Service Company's Condensed Financial Statements and the related Notes that appear in Item 1 of this report.

OVERVIEW

Pinnacle West owns all of the outstanding common stock of APS. APS is a vertically-integrated electric utility that provides retail and wholesale electric service to most of the state of Arizona, with the major exceptions of about one-half of the Phoenix metropolitan area, the Tucson metropolitan area and Mohave County in northwestern Arizona. APS has historically accounted for a substantial part of our revenues and earnings, and is expected to continue to do so. Customer growth in APS' service territory is about three times the national average and remains a fundamental driver of our revenues and earnings.

The ACC regulates APS' retail electric rates. The key issue affecting Pinnacle West's and APS' financial outlook is the satisfactory resolution of APS' retail rate proceedings pending before the ACC. As discussed in greater detail in Note 5, these proceedings consist of:

- a general retail rate case pursuant to which APS is requesting a 21.3%, or \$453.9 million, increase in its annual retail electricity revenues effective no later than December 31, 2006;
- an application for a temporary rate increase of approximately 1.9%, through a PSA surcharge, to recover \$45 million in retail fuel and purchased power costs relating to Palo Verde's 2005 unplanned outages that were deferred by APS in 2005 under the PSA and are subject to the ACC's completion of an inquiry regarding the outages; and
- the ACC's prudence review of amounts collected through the May 2, 2006 interim PSA adjuster (see "Interim Rate Increase" in Note 5) related to unplanned 2006 Palo Verde outages. The related PSA deferrals were approximately \$70 million for the six months ended June 30, 2006.

SunCor, our real estate development subsidiary, has been and is expected to be an important source of earnings and cash flow. Our subsidiary, APS Energy Services, provides competitive commodity-related energy services and energy-related products and services to commercial and industrial retail customers in the western United States. El Dorado, our investment subsidiary, owns minority interests in several energy-related investments and Arizona community-based ventures.

Pinnacle West Energy is our subsidiary that previously owned and operated unregulated generating plants. Pursuant to the ACC's April 7, 2005 order in APS' 2003 rate case, on July 29, 2005, Pinnacle West Energy transferred the PWEC Dedicated Assets to APS. See "APS 2003 Rate Case" in Note 5. Pinnacle West Energy sold its 75% interest in Silverhawk to NPC on January 10, 2006. See Note 17 for discussion of discontinued operations. As a result, Pinnacle West Energy no longer owns any generating plants and has ceased operations.

We continue to focus on solid operational performance in our electricity generation and delivery activities. In the delivery area, we focus on superior reliability and customer satisfaction. We plan to expand long-term resources and our transmission and distribution systems to meet the electricity needs of our growing retail customers and sustain reliability.

See “Pinnacle West Consolidated – Factors Affecting Our Financial Outlook” below for a discussion of several factors that could affect our future financial results.

EARNINGS CONTRIBUTION BY BUSINESS SEGMENT

Pinnacle West has three principal business segments (determined by products, services and the regulatory environment):

- our regulated electricity segment, which consists of traditional regulated retail and wholesale electricity businesses (primarily electric service to Native Load customers) and related activities and includes electricity generation, transmission and distribution;
- our real estate segment, which consists of SunCor’s real estate development and investment activities; and
- our marketing and trading segment, which consists of our competitive energy business activities, including wholesale marketing and trading and APS Energy Services’ commodity-related energy services.

The following table summarizes net income by segment for the three months and six months ended June 30, 2006 and 2005 (dollars in millions):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2006	2005	2006	2005
Regulated electricity	\$ 95	\$ 69	\$ 82	\$ 83
Real estate	8	11	30	19
Marketing and trading	7	4	9	11
Other	1	1	1	2
Income from continuing operations	111	85	122	115
Discontinued operations – net of tax:				
Real estate (a)	1	1	2	1
Marketing and trading (b)	-	(59)	1	(65)
Net income	\$ 112	\$ 27	\$ 125	\$ 51

(a) Primarily relates to sales of commercial properties.

(b) Relates to the loss on the sale of Silverhawk in June 2005 and the operations of Silverhawk.

PINNACLE WEST CONSOLIDATED – RESULTS OF OPERATIONS

General

Throughout the following explanations of our results of operations, we refer to “gross margin.” With respect to our regulated electricity segment and our marketing and trading segment, gross margin refers to operating revenues less fuel and purchased power costs. “Gross margin” is a “non-GAAP financial measure,” as defined in accordance with SEC rules. Exhibit 99.1 reconciles this non-GAAP financial measure to operating income, which is the most directly comparable financial measure calculated and presented in accordance with accounting principles generally accepted in the United States (GAAP). We view gross margin as an important performance measure of the core profitability of our operations. This measure is a key component of our internal financial reporting and is used by our management in analyzing our business segments. We believe that investors benefit from having access to the same financial measures that our management uses. In addition, we have reclassified certain prior-period amounts to conform to our current-period presentation.

Deferred Fuel and Purchased Power Costs

APS’ retail rate settlement became effective April 1, 2005. As part of the settlement, the ACC approved the PSA, which permits APS to defer for recovery or refund fluctuations in retail fuel and purchased power costs, subject to specified parameters. In accordance with the PSA, APS defers for future rate recovery 90% of the difference between actual retail fuel and purchased power costs and the amount of such costs currently included in base rates. APS’ recovery of PSA deferrals from its customers is subject to the ACC’s approval of annual PSA adjustments and periodic surcharge applications. See “Power Supply Adjustor” in Note 5.

Since the inception of the PSA, APS has incurred substantially higher fuel and purchased power prices than those authorized in APS’ current base rates and has deferred those cost differences in accordance with the PSA. The balance of APS’ PSA deferrals at June 30, 2006 was \$175 million. APS estimates that its PSA deferral balance at December 31, 2006 will be approximately \$155 million to \$175 million, based on APS’ hedged positions for fuel and purchased power at June 30, 2006 and recent forward market prices for natural gas and purchased power (which are subject to change). The recovery of PSA deferrals through ACC approved adjustors and surcharges recorded as revenue is offset dollar-for-dollar by the amortization of those deferred expenses.

APS operated Palo Verde Unit 1 at reduced power levels from December 25, 2005 until March 18, 2006 due to vibration levels in one of the Unit’s shutdown cooling lines. During an outage at Unit 1 from March 18, 2006 to July 7, 2006, APS performed the necessary work and modifications to remedy the situation. APS estimates that incremental replacement power costs resulting from Palo Verde’s outages and reduced power levels were approximately \$78 million during the six months ended June 30, 2006. The related PSA deferrals were approximately \$70 million in that period. The Palo Verde replacement power costs were partially offset by \$30 million of lower than expected replacement power costs related to APS’ fossil-fueled generating units during the six months ended June 30, 2006. As a result, the corresponding deferrals were reduced in that six-month period by \$27 million.

The PSA deferral balance at June 30, 2006 and estimated balance as of December 31, 2006 each includes (a) \$45 million related to replacement power costs associated with unplanned 2005

Palo Verde outages and (b) \$70 million related to replacement power costs associated with unplanned 2006 outages or reduced power operations at Palo Verde. The PSA deferrals associated with these unplanned Palo Verde outages and reduced power operations are the subject of ACC prudence reviews. See "PSA Deferrals Related to Unplanned Palo Verde Outages" in Note 5.

Operating Results – Three-month period ended June 30, 2006 compared with three-month period ended June 30, 2005

Our consolidated net income for the three months ended June 30, 2006 was \$112 million compared with \$27 million for the comparable prior-year period. The three months ended June 30, 2005 included a net loss from discontinued operations of \$58 million, substantially all of which was related to the sale and operations of Silverhawk. Income from continuing operations increased \$26 million in the period-to-period comparison, reflecting the following changes in earnings by segment:

- Regulated Electricity Segment – Income from continuing operations increased approximately \$26 million primarily due to higher retail sales volumes related to customer growth; effects of warmer weather on retail sales; income tax credits related to prior years resolved in 2006; and lower interest expense. These positive factors were partially offset by higher operations and maintenance expense related to generation and customer service. Higher fuel and purchased power costs (as discussed above) were substantially offset by the deferral of those costs in accordance with the PSA.
- Real Estate Segment – Income from continuing operations decreased approximately \$3 million primarily due to decreased margins on parcel sales, partially offset by increased margins on residential sales.
- Marketing and Trading Segment – Income from continuing operations increased approximately \$3 million primarily due to higher unit margins on wholesale sales.

Additional details on the major factors that increased (decreased) net income are contained in the following table (dollars in millions):

	Increase (Decrease)	
	Pretax	After Tax
Regulated electricity segment gross margin:		
Higher fuel and purchased power costs	\$ (43)	\$ (26)
Increased deferred fuel and purchased power costs	40	24
Higher retail sales volumes due to customer growth, excluding weather effects	26	16
Effects of warmer weather on retail sales	16	10
Miscellaneous items, net	(9)	(6)
Net increase in regulated electricity segment gross margin	30	18
Higher marketing and trading segment gross margin primarily due to higher unit margins on wholesale sales	3	2
Lower real estate segment contribution primarily related to decreased margins on parcel sales, partially offset by increased margins on residential sales	(5)	(3)
Operations and maintenance increases primarily due to:		
Generation costs, including maintenance and overhauls	(6)	(4)
Customer service costs, including regulatory demand-side management programs and planned maintenance	(4)	(2)
Miscellaneous items, net	(5)	(3)
Lower interest expense, net of capitalized financing costs, primarily due to lower debt balances, partially offset by higher rates	6	4
Income tax credits related to prior years resolved in 2006	--	10
Miscellaneous items, net	1	4
Net increase in income from continuing operations	\$ 20	26
Discontinued operations related to the sale of Silverhawk		59
Net increase in net income		\$ 85

Regulated Electricity Segment Revenues

Regulated electricity segment revenues were \$133 million higher for the three months ended June 30, 2006 compared with the prior-year period primarily as a result of:

- a \$75 million increase in revenues related to recovery of PSA deferrals, which had no earnings effect because of amortization of the same amount recorded as fuel and purchased power expense (see "Deferred Fuel and Purchased Power Costs" above);
- a \$36 million increase in retail revenues related to customer growth, excluding weather effects;
- a \$22 million increase in retail revenues related to warmer weather;
- a \$10 million increase in Off-System Sales due to higher prices; and
- a \$10 million decrease due to miscellaneous factors.

Real Estate Segment Revenues

Real estate segment revenues were \$28 million higher for the three months ended June 30, 2006 compared with the prior-year period primarily as a result of:

- a \$32 million increase from residential sales due to higher prices and volumes;
- an \$11 million decrease from parcel sales due to timing; and
- a \$7 million increase due to miscellaneous sales.

Marketing and Trading Segment Revenues

Marketing and trading segment revenues were \$19 million higher for the three months ended June 30, 2006 compared with the prior-year period primarily as a result of:

- a \$12 million increase due to higher power prices on delivered wholesale electricity sales;
- a \$10 million increase from higher prices on competitive retail sales in California; and
- a \$3 million decrease in mark-to-market gains on contracts for future delivery due to changes in forward prices.

Operating Results – Six-month period ended June 30, 2006 compared with six-month period ended June 30, 2005

Our consolidated net income for the six months ended June 30, 2006 was \$125 million compared with \$51 million for the comparable prior-year period. The six months ended June 30, 2005 included a net loss from discontinued operations of \$64 million, substantially all of which was related to the sale and operations of Silverhawk. Income from continuing operations increased \$7 million in the period-to-period comparison, reflecting the following changes in earnings by segment:

- Regulated Electricity Segment – Income from continuing operations decreased approximately \$1 million primarily due to higher fuel and purchased power costs (as discussed above); and higher operations and maintenance expense related to generation and customer service. These negative factors were partially offset by deferred fuel and purchased power costs; higher retail sales volumes due to customer growth; income tax credits related to prior years resolved in 2006; effects of weather on retail sales; a retail price increase effective April 1, 2005; lower interest expense; and higher interest income.
- Real Estate Segment – Income from continuing operations increased approximately \$11 million primarily due to increased margins on residential and parcel sales.
- Marketing and Trading Segment – Income from continuing operations decreased approximately \$2 million primarily due to lower mark-to-market gains on contracts for future delivery, partially offset by higher unit margins on wholesale sales.

Additional details on the major factors that increased (decreased) net income are contained in the following table (dollars in millions):

	Increase (Decrease)	
	Pretax	After Tax
Regulated electricity segment gross margin:		
Higher fuel and purchased power costs	\$ (98)	\$ (60)
Increased deferred fuel and purchased power costs (deferrals began April 1, 2005)	53	32
Higher retail sales volumes due to customer growth, excluding weather effects	39	24
Effects of weather on retail sales	13	8
Retail price increase effective April 1, 2005	7	4
Miscellaneous items, net	(13)	(7)
Net increase in regulated electricity segment gross margin	1	1
Lower marketing and trading segment gross margin primarily related to lower mark-to-market gains, partially offset by higher unit margins on wholesale sales	(4)	(2)
Higher real estate segment contribution primarily related to increased margins on residential and parcel sales	18	11
Operations and maintenance increases primarily due to:		
Generation costs, including maintenance and overhauls	(28)	(17)
Customer service costs, including regulatory demand-side management programs and planned maintenance	(11)	(7)
Lower interest expense, net of capitalized financing costs, primarily due to lower debt balances, partially offset by higher rates	7	4
Higher other income, net of expense, primarily due to miscellaneous asset sales and increased interest income	6	4
Income tax credits related to prior years resolved in 2006	--	10
Miscellaneous items, net	1	3
Net increase (decrease) in income from continuing operations	\$ (10)	7
Discontinued operations related to the sale of Silverhawk and sales of real estate assets		67
Net increase in net income		\$ 74

Regulated Electricity Segment Revenues

Regulated electricity segment revenues were \$183 million higher for the six months ended June 30, 2006 compared with the prior-year period primarily as a result of:

- a \$93 million increase in revenues related to recovery of PSA deferrals, which had no earnings effect because of amortization of the same amount recorded as fuel and purchased power expense (see "Deferred Fuel and Purchased Power Costs" above);
- a \$54 million increase in retail revenues related to customer growth, excluding weather effects;

- an \$18 million increase in retail revenues related to weather;
- a \$12 million increase in Off-System Sales primarily resulting from sales previously reported in the marketing and trading segment that were classified beginning in April 2005 as sales in the regulated electricity segment in accordance with the APS retail rate case settlement;
- a \$10 million increase in Off-System Sales due to higher prices;
- a \$7 million increase in retail revenues due to a price increase effective April 1, 2005; and
- an \$11 million decrease due to miscellaneous factors.

Real Estate Segment Revenues

Real estate segment revenues were \$66 million higher for the six months ended June 30, 2006 compared with the prior-year period primarily as a result of:

- a \$48 million increase from residential sales due to higher prices and volumes;
- a \$9 million increase from parcel sales due to timing; and
- a \$9 million increase due to miscellaneous sales.

Marketing and Trading Segment Revenues

Marketing and trading segment revenues were \$15 million higher for the six months ended June 30, 2006 compared with the prior-year period primarily as a result of:

- a \$32 million increase from higher prices on competitive retail sales in California;
- a \$12 million decrease in off-system sales due to the absence of sales previously reported in the marketing and trading segment that were classified beginning in April 2005 as sales in the regulated electricity segment in accordance with the APS retail rate case settlement;
- a \$7 million decrease in mark-to-market gains on contracts for future delivery due to changes in forward prices; and
- a \$2 million increase due to miscellaneous factors.

LIQUIDITY AND CAPITAL RESOURCES

Capital Needs and Resources – Pinnacle West Consolidated

Capital Expenditure Requirements

The following table summarizes the actual capital expenditures for the six months ended June 30, 2006 and estimated capital expenditures for the next three years:

	CAPITAL EXPENDITURES			
	(dollars in millions)			
	Six Months Ended June 30,	Estimated for the Year Ended December 31,		
	2006	2006	2007	2008
APS				
Distribution	\$ 184	\$ 322	\$ 323	\$ 362
Transmission	55	120	169	203
Generation	73	184	207	279
Other (a)	10	23	16	13
Subtotal	322	649	715	857
SunCor (b)	100	232	142	119
Other	5	6	2	6
Total	<u>\$ 427</u>	<u>\$ 887</u>	<u>\$ 859</u>	<u>\$ 982</u>

- (a) Primarily information systems and facilities projects.
- (b) Consists primarily of capital expenditures for land development and retail and office building construction reflected in "Real estate investments" and "Capital expenditures" on the Condensed Consolidated Statements of Cash Flows.

Distribution and transmission capital expenditures are comprised of infrastructure additions and upgrades, capital replacements, new customer construction and related information systems and facility costs. Examples of the types of projects included in the forecast include lines, substations, line extensions to new residential and commercial developments and upgrades to customer information systems. Major transmission projects are driven by strong regional customer growth.

Generation capital expenditures are comprised of various improvements to APS' existing fossil and nuclear plants and the replacement of Palo Verde steam generators (see below). Examples of the types of projects included in this category are additions, upgrades and capital replacements of various power plant equipment such as turbines, boilers and environmental equipment. Generation also includes nuclear fuel expenditures of approximately \$35 million annually for 2006 through 2008.

The Palo Verde owners have approved the manufacture of one additional set of steam generators. These generators will be installed in Unit 3 and are scheduled for completion in the fall of 2007 at an approximate cost of \$75 million (APS' share). Approximately \$25 million of the Unit

3 steam generator costs have been incurred through June 30, 2006, with the remaining \$50 million included in the capital expenditures table above. Capital expenditures will be funded with internally generated cash and/or external financings.

Contractual Obligations

Our future contractual obligations have not changed materially from the amounts disclosed in Part II, Item 7 of the 2005 Form 10-K, with the exception of our aggregate:

- fuel and purchased power commitments, which increased from approximately \$1.9 billion at December 31, 2005 to \$2.9 billion at June 30, 2006 as follows (in billions):

2006	2007-2008	2009-2010	Thereafter	Total
\$0.5	\$0.6	\$0.4	\$1.4	\$2.9

See Note 4 for a list of payments due on total long-term debt and capitalized lease requirements.

Off-Balance Sheet Arrangements

In 1986, APS entered into agreements with three separate VIE lessors in order to sell and lease back interests in Palo Verde Unit 2. The leases are accounted for as operating leases in accordance with GAAP. We are not the primary beneficiary of the Palo Verde VIEs and, accordingly, do not consolidate them.

APS is exposed to losses under the Palo Verde sale leaseback agreements upon the occurrence of certain events that APS does not consider to be reasonably likely to occur. Under certain circumstances (for example, the NRC issuing specified violation orders with respect to Palo Verde or the occurrence of specified nuclear events), APS would be required to assume the debt associated with the transactions, make specified payments to the equity participants, and take title to the leased Unit 2 interests, which, if appropriate, may be required to be written down in value. If such an event had occurred as of June 30, 2006, APS would have been required to assume approximately \$228 million of debt and pay the equity participants approximately \$182 million.

Guarantees and Letters of Credit

We have issued guarantees and letters of credit in support of our unregulated businesses. We have also obtained surety bonds on behalf of APS Energy Services. We have not recorded any liability on our Condensed Consolidated Balance Sheets with respect to these obligations. We generally agree to indemnification provisions related to liabilities arising from or related to certain of our agreements, with limited exceptions depending on the particular agreement. See Note 15 for additional information regarding guarantees and letters of credit.

Credit Ratings

The ratings of securities of Pinnacle West and APS as of August 7, 2006 are shown below. The ratings reflect the respective views of the rating agencies, from which an explanation of the significance of their ratings may be obtained. There is no assurance that these ratings will continue for any given period of time. The ratings may be revised or withdrawn entirely by the rating

agencies, if, in their respective judgments, circumstances so warrant. Any downward revision or withdrawal may adversely affect the market price of Pinnacle West's or APS' securities and serve to increase the cost of and access to capital. It may also require additional collateral related to certain derivative instruments (see Note 10).

	Moody's	Standard & Poor's
Pinnacle West		
Senior unsecured ^(a)	Baa3 (P)	BB+ (prelim)
Commercial paper	P-3	A-3
Outlook	Negative	Stable
APS		
Senior unsecured	Baa2	BBB-
Secured lease obligation bonds	Baa2	BBB-
Commercial paper	P-2	A-3
Outlook	Negative	Stable

^(a)Pinnacle West has a combined shelf registration under SEC Rule 415. Moody's assigns a provisional (P) rating and Standard & Poor's assigns a preliminary (prelim) rating to such shelf registrations. Pinnacle West currently has no outstanding, rated senior unsecured securities.

Debt Provisions

Pinnacle West's and APS' debt covenants related to their respective bank financing arrangements include a debt to capitalization ratio. Certain of APS' bank financing arrangements also include an interest coverage test. Pinnacle West and APS comply with these covenants and each anticipates it will continue to meet these and other significant covenant requirements. For each of Pinnacle West and APS, these covenants require that the ratio of consolidated debt to total consolidated capitalization cannot exceed 65%. At June 30, 2006, the ratio was approximately 48% for Pinnacle West and 46% for APS. The provisions regarding interest coverage require a minimum cash coverage of two times the interest requirements for APS. The interest coverage was approximately 4 times under APS' bank financing agreements as of June 30, 2006. Failure to comply with such covenant levels would result in an event of default which, generally speaking, would require the immediate repayment of the debt subject to the covenants and could cross-default other debt.

Neither Pinnacle West's nor APS' financing agreements contain "rating triggers" that would result in an acceleration of the required interest and principal payments in the event of a rating downgrade. However, in the event of a further rating downgrade, Pinnacle West and/or APS may be subject to increased interest costs under certain financing agreements.

All of Pinnacle West's bank agreements contain "cross-default" provisions that would result in defaults and the potential acceleration of payment under these loan agreements if Pinnacle West or APS were to default under certain other material agreements. All of APS' bank agreements contain cross-default provisions that would result in defaults and the potential acceleration of payment under these bank agreements if APS were to default under certain other material agreements. Pinnacle West and APS do not have a material adverse change restriction for revolver borrowings.

See Note 4 for further discussions.

Capital Needs and Resources - By Company

Pinnacle West (Parent Company)

Our primary cash needs are for dividends to our shareholders and principal and interest payments on our long-term debt. The level of our common stock dividends and future dividend growth will be dependent on a number of factors including, but not limited to, payout ratio trends, free cash flow and financial market conditions.

Our primary sources of cash are dividends from APS, external financings and cash distributions from our other subsidiaries, primarily SunCor. An existing ACC order requires APS to maintain a common equity ratio of at least 40% and prohibits APS from paying common stock dividends if the payment would reduce its common equity below that threshold. As defined in the ACC order, the common equity ratio is common equity divided by the sum of common equity and long-term debt, including current maturities of long-term debt. At June 30, 2006, APS' common equity ratio, as defined, was approximately 54%.

Pinnacle West sponsors a qualified defined benefit and account balance pension plan for the employees of Pinnacle West and our subsidiaries. We contribute at least the minimum amount required under IRS regulations, but no more than the maximum tax-deductible amount. The minimum required funding takes into consideration the value of the plan assets and our pension obligation. The assets in the plan are comprised of common stocks, bonds, common and collective trusts and short-term investments. Future year contribution amounts are dependent on fund performance and valuation assumptions of plan assets. We contributed \$53 million in 2005. The contribution to our pension plan in 2006 is estimated to be approximately \$50 million, \$29 million of which has been contributed through June 30, 2006. The contribution to our other postretirement benefit plan in 2006 is estimated to be approximately \$29 million. APS and other subsidiaries fund their share of the contributions. APS' share is approximately 97% of both plans.

In January 2006, Pinnacle West infused into APS \$210 million of the proceeds from the sale of Silverhawk. See "Equity Infusions" in Note 5 for more information.

On February 28, 2006, Pinnacle West entered into an Uncommitted Master Shelf Agreement with Prudential Investment Management, Inc. ("Prudential") and certain of its affiliates. The agreement provides the terms under which Pinnacle West may offer up to \$200 million of its senior notes for purchase by Prudential affiliates at any time prior to December 31, 2007. The maturity of notes issued under the agreement cannot exceed five years. Pursuant to the agreement, on February 28, 2006, Pinnacle West issued and sold to Prudential affiliates \$175 million of its 5.91% Senior Notes, Series A, due February 28, 2011 (the "Series A Notes").

On April 3, 2006, Pinnacle West repaid \$300 million of its 6.40% Senior Notes due April, 2006. Pinnacle West used the proceeds of the Series A Notes, cash on hand and commercial paper proceeds to repay these notes.

On July 19, 2006, the Pinnacle West Board of Directors declared a quarterly dividend of \$0.50 per share of common stock, payable on September 1, 2006, to shareholders of record on August 1, 2006.

In connection with the FERC Order discussed under "Federal" in Note 5, the FERC revoked a previous FERC order allowing Pinnacle West to issue securities or incur long-term debt without FERC approval. On May 3, 2006, the FERC issued an order approving Pinnacle West's application to issue a broad range of debt and equity securities through June 30, 2008. Pinnacle West does not expect this FERC order to limit its ability to meet its capital requirements.

APS

APS' capital requirements consist primarily of capital expenditures and optional and mandatory redemptions of long-term debt. APS pays for its capital requirements with cash from operations and, to the extent necessary, external financings. APS has historically paid its dividends to Pinnacle West with cash from operations. See "Pinnacle West (Parent Company)" above for a discussion of the common equity ratio that APS must maintain in order to pay dividends to Pinnacle West.

Although provisions in APS' articles of incorporation and ACC financing orders establish maximum amounts of preferred stock and debt that APS may issue, APS does not expect any of these provisions to limit its ability to meet its capital requirements.

On August 3, 2006, APS issued \$400 million of debt as follows: \$250 million of its 6.25% Notes due 2016 and \$150 million of its 6.875% Notes due 2036. A portion of the proceeds will be used to pay at maturity approximately \$84 million of APS' 6.75% Senior Notes due November 15, 2006, to fund its construction program and for other general corporate purposes. A portion of the proceeds may also be used to pay any liability determined to be payable as a result of the review by the Internal Revenue Service of a tax refund the Company received in 2002.

See "Deferred Fuel and Purchased Power Costs" above and "Power Supply Adjustor" in Note 5 for information regarding the PSA approved by the ACC. Although APS defers actual retail fuel and purchased power costs on a current basis, APS' recovery of the deferrals from its ratepayers is subject to the ACC's approval of annual PSA adjustments and periodic surcharge applications. During the six months ended June 30, 2006, APS recovered approximately \$93 million of PSA deferrals, which had no effect on earnings because of amortization of the same amount recorded as fuel and purchased power expense.

See "Cash Flow Hedges" in Note 10 for information related to collateral provided to us by counterparties.

Pinnacle West Energy

See Note 17 of Notes to Condensed Consolidated Financial Statements above for a discussion of the sale of our 75% ownership interest in Silverhawk.

Other Subsidiaries

During the past three years, SunCor funded its cash requirements with cash from operations and its own external financings. SunCor's capital needs consist primarily of capital expenditures for land development and retail and office building construction. See the capital expenditures table above for actual capital expenditures during the six months ended June 30, 2006 and projected capital expenditures for the next three years. SunCor expects to fund its future capital requirements with cash from operations and external financings.

El Dorado expects minimal capital requirements over the next three years and intends to focus on prudently realizing the value of its existing investments.

APS Energy Services expects minimal capital expenditures over the next three years.

CRITICAL ACCOUNTING POLICIES

In preparing the financial statements in accordance with GAAP, management must often make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses and related disclosures at the date of the financial statements and during the reporting period. Some of those judgments can be subjective and complex, and actual results could differ from those estimates. Our most critical accounting policies include the impacts of regulatory accounting, the determination of the appropriate accounting for our pension and other postretirement benefits and derivatives accounting. There have been no changes to our critical accounting policies since our 2005 Form 10-K. See "Critical Accounting Policies" in Item 7 of the 2005 Form 10-K for further details about our critical accounting policies.

OTHER ACCOUNTING MATTERS

In June 2006, the FASB issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109." This guidance requires us to recognize the tax benefits of an uncertain tax position if it is more likely than not that the benefit will be sustained upon examination by the taxing authority. The Interpretation is effective for fiscal years beginning after December 15, 2006. We are currently evaluating this new guidance and believe it will not have a material impact on our financial statements.

PINNACLE WEST CONSOLIDATED – FACTORS AFFECTING OUR FINANCIAL OUTLOOK

Factors Affecting Operating Revenues, Fuel and Purchased Power Costs

General Electric operating revenues are derived from sales of electricity in regulated retail markets in Arizona and from competitive retail and wholesale power markets in the western United States. These revenues are affected by electricity sales volumes related to customer mix, customer growth and average usage per customer as well as electricity rates and tariffs and variations in weather from period to period. Competitive sales of energy and energy-related products and services are made by APS Energy Services in certain western states that have opened to competition.

Retail Rate Proceedings The key issue affecting Pinnacle West's and APS' financial outlook is the satisfactory resolution of APS' retail rate proceedings pending before the ACC. As discussed in greater detail in Note 5, these proceedings consist of a general rate case request; an application for a 1.9% temporary rate increase that is subject to the ACC's completion of an inquiry regarding unplanned 2005 Palo Verde outages; and a "prudence review" of amounts collected through the May 2, 2006 interim PSA adjustor, including a "prudence audit" of unplanned 2006 Palo Verde outages to be conducted by the ACC staff.

Fuel and Purchased Power Costs Fuel and purchased power costs are impacted by our electricity sales volumes, existing contracts for purchased power and generation fuel, our power plant performance, transmission availability or constraints, prevailing market prices, new generating plants being placed in service, variances in deferrals and amortization of fuel and purchased power since April 1, 2005 and our hedging program for managing such costs. See "Power Supply Adjustor" in Note 5 for information regarding the PSA, including PSA deferrals related to unplanned Palo Verde outages and reduced power operations that are the subject of ACC prudence reviews. See "Natural Gas Supply" in Note 12 for more information on fuel costs. APS' recovery of PSA deferrals from its ratepayers is subject to the ACC's approval of annual PSA adjustments and periodic surcharge applications.

Customer and Sales Growth The customer and sales growth referred to in this paragraph applies to Native Load customers and sales to them. Customer growth in APS' service territory averaged about 3.8% a year for the three years 2003 through 2005; we currently expect customer growth to average about 4.2% per year from 2006 to 2008. We currently estimate that total retail electricity sales in kilowatt-hours will grow 3.7% on average, from 2006 through 2008, before the effects of weather variations. Customer growth was 4.5% higher for the six-month period ended June 30, 2006 when compared with the prior-year period.

Actual sales growth, excluding weather-related variations, may differ from our projections as a result of numerous factors, such as economic conditions, customer growth, usage patterns and responses to retail price changes. Our experience indicates that a reasonable range of variation in our kilowatt-hour sales projection attributable to such economic factors can result in increases or decreases in annual net income of up to \$10 million.

Weather In forecasting retail sales growth, we assume normal weather patterns based on historical data. Historical extreme weather variations have resulted in annual variations in net income in excess of \$20 million. However, our experience indicates that the more typical variations from normal weather can result in increases or decreases in annual net income of up to \$10 million.

Wholesale Power Market Conditions The marketing and trading division focuses primarily on managing APS' risks relating to fuel and purchased power costs in connection with its costs of serving Native Load customer demand. The marketing and trading division, subject to specified parameters, markets, hedges and trades in electricity, fuels and emission allowances and credits.

Other Factors Affecting Financial Results

Operations and Maintenance Expenses Operations and maintenance expenses are impacted by growth, power plant additions and operations, inflation, outages, higher trending pension and other postretirement benefit costs and other factors.

Depreciation and Amortization Expenses Depreciation and amortization expenses are impacted by net additions to utility plant and other property, which include generation construction, acquisition, the sale of generation (see discussion of the sale of Silverhawk – Note 17), changes in depreciation and amortization rates, and changes in regulatory asset amortization.

Property Taxes Taxes other than income taxes consist primarily of property taxes, which are affected by tax rates and the value of property in-service and under construction. The average property tax rate for APS, which currently owns the majority of our property, was 9.2% of assessed value for 2005 and 2004. We expect property taxes to increase as new power plants, the acquisition of the Sundance Plant in 2005 and our additions to transmission and distribution facilities are included in the property tax base.

Interest Expense Interest expense is affected by the amount of debt outstanding and the interest rates on that debt. The primary factors affecting borrowing levels in the next several years are expected to be our capital requirements and our internally generated cash flow. Capitalized interest offsets a portion of interest expense while capital projects are under construction. We stop accruing capitalized interest on a project when it is placed in commercial operation.

Retail Competition Although some very limited retail competition existed in Arizona in 1999 and 2000, there are currently no active retail competitors providing unbundled energy or other utility services to APS' customers. We cannot predict when, and the extent to which, additional competitors will re-enter APS' service territory.

Subsidiaries SunCor's net income was \$56 million in 2003, \$45 million in 2004 and \$56 million in 2005.

APS Energy Services' and El Dorado's historical results are not indicative of future performance.

General Our financial results may be affected by a number of broad factors. See "Forward-Looking Statements" for further information on such factors, which may cause our actual future results to differ from those we currently seek or anticipate.

Market Risks

Our operations include managing market risks related to changes in interest rates, commodity prices and investments held by our nuclear decommissioning trust fund.

Interest Rate and Equity Risk

We have exposure to changing interest rates. Changing interest rates will affect interest paid on variable-rate debt and the market value of debt securities held by our nuclear decommissioning trust fund. The nuclear decommissioning trust fund also has risk associated with the changing market value of its investments. Nuclear decommissioning costs are recovered in regulated electricity prices.

Commodity Price Risk

We are exposed to the impact of market fluctuations in the commodity price and transportation costs of electricity, natural gas, coal and emissions allowances. We manage risks associated with these market fluctuations by utilizing various commodity instruments that qualify as derivatives, including exchange-traded futures and options and over-the-counter forwards, options and swaps. Our ERM, consisting of officers and key management personnel, oversees company-wide energy risk management activities and monitors the results of marketing and trading activities to ensure compliance with our stated energy risk management and trading policies. As part of our risk management program, we use such instruments to hedge purchases and sales of electricity, fuels and emissions allowances and credits. The changes in market value of such contracts have a high correlation to price changes in the hedged commodities. In addition, subject to specified risk parameters monitored by the ERM, we engage in marketing and trading activities intended to profit from market price movements.

The mark-to-market value of derivative instruments related to our risk management and trading activities are presented in two categories consistent with our business segments:

- Regulated Electricity – non-trading derivative instruments that hedge our purchases and sales of electricity and fuel for APS' Native Load requirements of our regulated electricity business segment; and
- Marketing and Trading – non-trading and trading derivative instruments of our competitive business segment.

The following tables show the pretax changes in mark-to-market of our non-trading and trading derivative positions for the six months ended June 30, 2006 and 2005 (dollars in millions):

	Six Months Ended June 30, 2006		Six Months Ended June 30, 2005	
	Regulated Electricity	Marketing and Trading	Regulated Electricity	Marketing and Trading
Mark-to-market of net positions at beginning of period	\$ 335	\$ 181	\$ 33	\$ 107
Recognized in earnings:				
Change in mark-to-market for future period deliveries – gains (losses)	(6)	(3)	12	12
Mark-to-market gains (losses) realized including ineffectiveness during the period	(4)	1	(1)	(10)
Deferred as a regulatory (asset) liability	(61)	--	4	--
Recognized in OCI:				
Change in mark-to-market for future period deliveries – gains (losses) (a)	(225)	(49)	84	52
Mark-to-market gains realized during the period	(7)	(11)	(6)	(10)
Mark-to-market of net positions at end of period	<u>\$ 32</u>	<u>\$ 119</u>	<u>\$ 126</u>	<u>\$ 151</u>

(a) The gains (losses) in regulated mark-to-market recorded in OCI are due primarily to increases (decreases) in forward natural gas prices.

The tables below show the fair value of maturities of our non-trading and trading derivative contracts (dollars in millions) at June 30, 2006 by maturities and by the source for calculating the fair values. See Note 1, "Derivative Accounting," in Item 8 of our 2005 Form 10-K for more discussion of our valuation methods.

Regulated Electricity

Source of Fair Value	2006	2007	2008	2009	2010	Years thereafter	Total fair value
Prices actively quoted	\$ (20)	\$ 63	\$ 20	\$ (1)	\$ --	\$ --	\$ 62

	Price Up 10%	Price Down 10%	Price Up 10%	Price Down 10%
Mark-to-market changes reported in earnings (a):				
Electricity	\$ 1	\$ (1)	\$ --	\$ --
Mark-to-market changes reported in OCI (b):				
Electricity	85	(85)	66	(66)
Natural gas	88	(88)	103	(103)
Total	\$ 174	\$ (174)	\$ 169	\$ (169)

- (a) These contracts are primarily structured sales activities hedged with a portfolio of forward purchases that protects the economic value of the sales transactions.
- (b) These contracts are hedges of our forecasted purchases of natural gas and electricity. The impact of these hypothetical price movements would substantially offset the impact that these same price movements would have on the physical exposures being hedged.

Credit Risk

We are exposed to losses in the event of non-performance or non-payment by counterparties. See Note 1, "Derivative Accounting" in Item 8 of our 2005 Form 10-K for a discussion of our credit valuation adjustment policy. See Note 10 for further discussion of credit risk.

ARIZONA PUBLIC SERVICE COMPANY – RESULTS OF OPERATIONS

General

Throughout the following explanations of our results of operations, we refer to “gross margin.” Gross margin refers to electric operating revenues less fuel and purchased power costs. Gross margin is a “non-GAAP financial measure,” as defined in accordance with SEC rules. Exhibit 99.2 reconciles this non-GAAP financial measure to operating income, which is the most directly comparable financial measure calculated and presented in accordance with GAAP. We view gross margin as an important performance measure of the core profitability of our operations. This measure is a key component of our internal financial reporting and is used by our management in analyzing our business. We believe that investors benefit from having access to the same financial measures that our management uses. In addition, we have reclassified certain prior-period amounts to conform to our current-period presentation.

Deferred Fuel and Purchased Power Costs

APS’ retail rate settlement became effective April 1, 2005. As part of the settlement, the ACC approved the PSA, which permits APS to defer for recovery or refund fluctuations in retail fuel and purchased power costs, subject to specified parameters. In accordance with the PSA, APS defers for future rate recovery 90% of the difference between actual retail fuel and purchased power costs and the amount of such costs currently included in base rates. APS’ recovery of PSA deferrals from its customers is subject to the ACC’s approval of annual PSA adjustments and periodic surcharge applications. See “Power Supply Adjustor” in Note 5.

Since the inception of the PSA, APS has incurred substantially higher fuel and purchased power prices than those authorized in APS’ current base rates and has deferred those cost differences in accordance with the PSA. The balance of APS’ PSA deferrals at June 30, 2006 was \$175 million. APS estimates that its PSA deferral balance at December 31, 2006 will be approximately \$155 million to \$175 million, based on APS’ hedged positions for fuel and purchased power at June 30, 2006 and recent forward market prices for natural gas and purchased power (which are subject to change). The recovery of PSA deferrals through ACC approved adjustors and surcharges recorded as revenue is offset dollar-for-dollar by the amortization of those deferred expenses.

APS operated Palo Verde Unit 1 at reduced power levels from December 25, 2005 until March 18, 2006 due to vibration levels in one of the Unit’s shutdown cooling lines. During an outage at Unit 1 from March 18, 2006 to July 7, 2006, APS performed the necessary work and modifications to remedy the situation. APS estimates that incremental replacement power costs resulting from Palo Verde’s outages and reduced power levels were approximately \$78 million during the six months ended June 30, 2006. The related PSA deferrals were approximately \$70 million in that period. The Palo Verde replacement power costs were partially offset by \$30 million of lower than expected replacement power costs related to APS’ fossil-fueled generating units during the six months ended June 30, 2006. As a result, the corresponding deferrals were reduced in that six-month period by \$27 million.

The PSA deferral balance at June 30, 2006 and estimated balance as of December 31, 2006 each includes (a) \$45 million related to replacement power costs associated with unplanned 2005 Palo Verde outages and (b) \$70 million related to replacement power costs associated with unplanned 2006 outages or reduced power operations at Palo Verde. The PSA deferrals associated

with these unplanned Palo Verde outages and reduced power operations are the subject of ACC prudence reviews. See "PSA Deferrals Related to Unplanned Palo Verde Outages" in Note 5.

See "Power Supply Adjustor" in Note 5 for further information regarding the PSA.

Operating Results – Three-month period ended June 30, 2006 compared with three-month period ended June 30, 2005

APS' net income for the three months ended June 30, 2006 was \$94 million compared with \$64 million for the comparable prior-year period. The \$30 million increase was primarily due to the higher retail sales volumes due to customer growth; effects of warmer weather on retail sales; and income tax credits related to prior years resolved in 2006. These positive factors were partially offset by higher operations and maintenance expense related to generation and customer service costs and higher depreciation and amortization related to increased depreciable assets. In addition, the increase also related to the absence of a prior year cost-based contract for PWEC Dedicated Assets which was partially offset by increased operations and maintenance expense and depreciation of those units. Higher fuel and purchased power costs (as discussed above) were substantially offset by the deferral of those costs in accordance with the PSA.

Additional details on the major factors that increased (decreased) net income are contained in the following table (dollars in millions):

	Increase (Decrease)	
	Pretax	After Tax
Gross margin:		
Higher fuel and purchased power costs	\$ (43)	\$ (26)
Deferred fuel and purchased power costs	40	24
Absence of prior year cost-based contract for PWEC Dedicated Assets	40	24
Higher retail sales volumes due to customer growth, excluding weather effects	26	16
Effects of warmer weather on retail sales	16	10
Miscellaneous items, net	(11)	(6)
Net increase in gross margin	68	42
Operations and maintenance increases primarily due to:		
Costs of PWEC Dedicated Assets not included in prior year period	(8)	(5)
Generation costs, including maintenance and overhauls	(6)	(4)
Customer service costs, including regulatory demand-side management programs and planned maintenance	(6)	(4)
Miscellaneous items, net	(6)	(4)
Depreciation and amortization increases primarily due to:		
Higher depreciable assets due to transfer of PWEC Dedicated Assets	(6)	(4)
Higher other depreciable assets partially offset by lower depreciation rates	(5)	(3)
Income tax credits related to prior years resolved in 2006	--	7
Miscellaneous items, net	1	5
Net increase in net income	\$ 32	\$ 30

Regulated Electricity Revenues

Regulated electricity revenues were \$133 million higher for the three months ended June 30, 2006 compared with the prior-year period primarily as a result of:

- a \$75 million increase in revenues related to recovery of PSA deferrals, which had no earnings effect because of amortization of the same amount recorded as fuel and purchased power expense (see “Deferred Fuel and Purchased Power Costs” above);
- a \$36 million increase in retail revenues related to customer growth, excluding weather effects;
- a \$22 million increase in retail revenues related to warmer weather;
- a \$10 million increase in Off-System Sales due to higher prices; and
- a \$10 million decrease due to miscellaneous factors.

Operating Results – Six-month period ended June 30, 2006 compared with six-month period ended June 30, 2005

APS’ net income for the six months ended June 30, 2006 was \$88 million compared with \$91 million for the comparable prior-year period. The \$3 million decrease was primarily due to higher fuel and purchased power costs (as discussed above); higher operations and maintenance expense related to generation and customer service costs; and higher depreciation and amortization related to increased depreciable assets. These negative factors were partially offset by deferred fuel and purchased power costs; higher retail sales volumes due to customer growth; effects of weather on retail sales; income tax credits related to prior years resolved in 2006; and a retail price increase effective April 1, 2005. In addition, the increase also related to the absence of a prior year cost-based contract for PWEC Dedicated Assets which was partially offset by increased operations and maintenance expense and depreciation of those units.

Additional details on the major factors that increased (decreased) net income are contained in the following table (dollars in millions):

	Increase (Decrease)	
	Pretax	After Tax
Gross margin:		
Higher fuel and purchased power costs	\$ (98)	\$ (60)
Deferred fuel and purchased power costs (deferrals began April 1, 2005)	53	32
Absence of prior year cost-based contract for PWEC Dedicated Assets	42	26
Higher retail sales volumes due to customer growth, excluding weather effects	39	24
Effects of weather on retail sales	13	8
Higher marketing and trading gross margin primarily related to higher mark-to-market gains	13	8
Retail price increase effective April 1, 2005	7	4
Miscellaneous items, net	(15)	(9)
Net increase in gross margin	54	33
Operations and maintenance increases primarily due to:		
Generation costs, including maintenance and overhauls	(25)	(15)
Costs of PWEC Dedicated Assets not included in prior year period	(15)	(9)
Customer service costs, including regulatory demand-side management programs and planned maintenance	(12)	(7)
Miscellaneous items, net	(5)	(3)
Depreciation and amortization increases primarily due to:		
Higher depreciable assets due to transfer of PWEC Dedicated Assets	(12)	(7)
Higher other depreciable assets partially offset by lower depreciation rates	(3)	(2)
Higher property taxes due to increased plant in service	(5)	(3)
Income tax credits related to prior years resolved in 2006	--	7
Miscellaneous items, net	2	3
Net decrease in net income	\$ (21)	\$ (3)

Regulated Electricity Revenues

Regulated electricity revenues were \$182 million higher for the six months ended June 30, 2006 compared with the prior-year period primarily as a result of:

- a \$93 million increase in revenues related to recovery of PSA deferrals, which had no earnings effect because of amortization of the same amount recorded as fuel and purchased power expense (see "Deferred Fuel and Purchased Power Costs" above);
- a \$54 million increase in retail revenues related to customer growth, excluding weather effects;

- an \$18 million increase in retail revenues related to weather;
- a \$12 million increase in Off-System Sales primarily resulting from sales previously reported in marketing and trading that were classified beginning in April 2005 as sales in regulated electricity in accordance with the APS retail rate case settlement;
- a \$10 million increase in Off-System Sales due to higher prices;
- a \$7 million increase in retail revenues due to a price increase effective April 1, 2005; and
- a \$12 million decrease due to miscellaneous factors.

Marketing and Trading Revenues

Marketing and trading revenues were \$16 million lower for the six months ended June 30, 2006 compared with the prior-year period primarily as a result of:

- a \$15 million decrease in energy trading revenues on realized sales of electricity primarily due to lower delivered electricity prices and lower volumes;
- an \$11 million increase in mark-to-market gains on contracts for future delivery due to changes in forward prices; and
- a \$12 million decrease in Off-System Sales due to the absence of sales previously reported in marketing and trading that were classified beginning in April 2005 as sales in regulated electricity in accordance with the APS retail rate case settlement.

ARIZONA PUBLIC SERVICE COMPANY – LIQUIDITY AND CAPITAL RESOURCES

Contractual Obligations

APS' future contractual obligations have not changed materially from the amounts disclosed in Part II, Item 7 of the 2005 Form 10-K, with the exception of our aggregate:

- fuel and purchased power commitments, which increased from approximately \$1.7 billion at December 31, 2005 to \$2.7 billion at June 30, 2006 as follows (in billions):

2006	2007-2008	2009-2010	Thereafter	Total
\$0.4	\$0.5	\$0.4	\$1.4	\$2.7

See Note 4 for a list of APS' payments due on total long-term debt and capitalized lease requirements.

FORWARD-LOOKING STATEMENTS

This document contains forward-looking statements based on current expectations, and neither Pinnacle West nor APS assumes any obligation to update these statements or make any further statements on any of these issues, except as required by applicable law. These forward-looking statements are often identified by words such as “estimate,” “predict,” “hope,” “may,” “believe,” “anticipate,” “plan,” “expect,” “require,” “intend,” “assume” and similar words. Because actual results may differ materially from expectations, we caution readers not to place undue reliance on these statements. A number of factors could cause future results to differ materially from historical results, or from results or outcomes currently expected or sought by Pinnacle West or APS. In addition to the Risk Factors described in Item 1A of the 2005 Form 10-K, these factors include, but are not limited to:

- state and federal regulatory and legislative decisions and actions, including the outcome and timing of APS’ retail rate proceedings pending before the ACC;
- the timely recovery of PSA deferrals, including approximately \$115 million of deferrals at June 30, 2006 associated with unplanned Palo Verde outages and reduced power operations that are the subject of ACC prudence reviews;
- the ongoing restructuring of the electric industry, including the introduction of retail electric competition in Arizona and decisions impacting wholesale competition;
- the outcome of regulatory, legislative and judicial proceedings, both current and future, relating to the restructuring;
- market prices for electricity and natural gas;
- power plant performance and outages;
- transmission outages and constraints;
- weather variations affecting local and regional customer energy usage;
- customer growth and energy usage;
- regional economic and market conditions, including the results of litigation and other proceedings resulting from the California energy situation, volatile fuel and purchased power costs and the completion of generation and transmission construction in the region, which could affect customer growth and the cost of power supplies;
- the cost of debt and equity capital and access to capital markets;
- current credit ratings remaining in effect for any given period of time;
- our ability to compete successfully outside traditional regulated markets (including the wholesale market);
- the performance of our marketing and trading activities due to volatile market liquidity and any deteriorating counterparty credit and the use of derivative contracts in our business (including the interpretation of the subjective and complex accounting rules related to these contracts);
- changes in accounting principles generally accepted in the United States of America and the interpretation of those principles;
- the performance of the stock market and the changing interest rate environment, which affect the amount of required contributions to Pinnacle West’s pension plan and APS’ nuclear decommissioning trust funds, as well as the reported costs of providing pension and other postretirement benefits;
- technological developments in the electric industry;

- the strength of the real estate market in SunCor's market areas, which include Arizona, Idaho, New Mexico and Utah; and
- other uncertainties, all of which are difficult to predict and many of which are beyond the control of Pinnacle West and APS.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

See “Pinnacle West Consolidated – Factors Affecting Our Financial Outlook - Market Risks” in Item 2 above for a discussion of quantitative and qualitative disclosures about market risks.

Item 4. CONTROLS AND PROCEDURES

(a) Disclosure Controls and Procedures

The term “disclosure controls and procedures” means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Securities Exchange Act of 1934 (the “Exchange Act”) (15 U.S.C. 78a *et seq.*) is recorded, processed, summarized and reported, within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to a company’s management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Pinnacle West's management, with the participation of Pinnacle West's Chief Executive Officer and Chief Financial Officer, have evaluated the effectiveness of Pinnacle West's disclosure controls and procedures as of June 30, 2006. Based on that evaluation, Pinnacle West's Chief Executive Officer and Chief Financial Officer have concluded that, as of that date, Pinnacle West's disclosure controls and procedures were effective.

APS' management, with the participation of APS' Chief Executive Officer and Chief Financial Officer, have evaluated the effectiveness of APS' disclosure controls and procedures as of June 30, 2006. Based on that evaluation, APS' Chief Executive Officer and Chief Financial Officer have concluded that, as of that date, APS' disclosure controls and procedures were effective.

(b) Changes In Internal Control Over Financial Reporting

The term “internal control over financial reporting” (defined in SEC Rule 13a-15(f)) refers to the process of a company that is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with GAAP.

No change in Pinnacle West's or APS' internal control over financial reporting occurred during the fiscal quarter ended June 30, 2006 that materially affected, or is reasonably likely to materially affect, Pinnacle West's or APS' internal control over financial reporting.

Part II - OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

See Note 12 of Notes to Condensed Consolidated Financial Statements in Part I, Item 1 of this report in regard to pending or threatened litigation or other disputes.

Item 1A. RISK FACTORS

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, "Item 1A. Risk Factors" in the 2005 Form 10-K, which could materially affect the business, financial condition or future results of APS and Pinnacle West. The risks described in this report and the 2005 Form 10-K are not the only risks facing APS and Pinnacle West. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect the business, financial condition and/or operating results of APS and Pinnacle West.

Item 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

Proposal 1 – Election of Directors

At our Annual Meeting of Shareholders held on May 17, 2006, the following persons were elected as directors:

<u>Class III (Term to expire at 2009 Annual Meeting)</u>	<u>Votes For</u>	<u>Votes Withheld</u>	<u>Abstentions and Broker Non-Votes</u>
Jack E. Davis	86,958,623	1,821,065	N/A
Pamela Grant	86,967,924	1,811,764	N/A
Martha O. Hesse	86,924,165	1,855,523	N/A
William S. Jamieson, Jr.	86,990,842	1,788,846	N/A

Continuing Directors

The terms of Roy A. Herberger, Jr., Humberto S. Lopez, Kathryn L. Munro, and William L. Stewart will expire in 2007. The terms of Edward N. Basha, Jr., Michael L. Gallagher, Bruce J. Nordstrom and William J. Post will expire in 2008.

Proposal 2 - Independent Auditors

At the same meeting, a proposal for the ratification of the selection of Deloitte & Touche LLP as independent Auditors of the Company for fiscal year ending 2006 was submitted to the shareholders, and the voting was as follows:

Proposal for the ratification of the selection of Deloitte & Touche LLP for fiscal year ending 2006	Votes For	Votes Against	Abstentions and Broker Non-Votes
	87,880,830	234,347	664,511

Proposal 3 – Shareholder Proposal

Also at this annual meeting, a shareholder proposal requesting that the Board of Directors take action to allow for the annual election of directors was submitted to the shareholders, and the voting was as follows:

Proposal to elect each director annually	Votes For	Votes Against	Abstentions and Broker Non-Votes
	61,797,460	12,834,465	14,147,763

Item 5. OTHER INFORMATION

Construction and Financing Programs

See “Liquidity and Capital Resources” in Part I, Item 2 of this report for a discussion of construction and financing programs of the Company and its subsidiaries.

Regulatory Matters

See Note 5 of Notes to Condensed Consolidated Financial Statements in Part I, Item 1 of this report for a discussion of regulatory developments.

Environmental Matters

See “Environmental Matters – Superfund” in Note 12 of Notes to Condensed Consolidated Financial Statements in Part I, Item 1 of this report for a discussion of a Superfund site.

Mercury. By November 2006, the Arizona Department of Environmental Quality will submit a State Implementation Plan to the EPA to implement the Clean Air Mercury Rule or an alternate mercury program, as authorized by the EPA. See “Environmental Matters – Mercury” in Part I, Item 1 of the 2005 Form 10-K. ADEQ issued a proposed mercury rule on July 25, 2006. The proposed rule generally incorporates EPA’s model cap-and-trade program, but requires sources to acquire two allowances for every one allowance needed for compliance. The proposed rule also requires coal-fired power plants to achieve a 90% mercury removal efficiency or to achieve certain emission limits. APS is still evaluating the potential impacts of the proposed rule and cannot currently estimate the expenditures which may be required.

Federal Implementation Plan. In September 1999, the EPA proposed a FIP to set air quality standards at certain power plants, including the Navajo Generating Station and the Four Corners Power Plant. See “Environmental Matters – Federal Implementation Plan” in Part I, Item 1 of the 2005 Form 10-K. On July 26, 2006, the Sierra Club sued the EPA to compel the EPA to issue a final FIP for Four Corners Power Plant. APS does not currently expect the FIP to have a material adverse effect on its financial position, results of operations, cash flows or liquidity.

Item 6. EXHIBITS

(a) Exhibits

<i>Exhibit No.</i>	<i>Registrant(s)</i>	<i>Description</i>
10.1	Pinnacle West	First Amendment to Amended and Restated Credit Agreement, dated as of May 15, 2006, supplementing and amending the Amended and Restated Credit Agreement, dated as of December 9, 2005, among Pinnacle West Capital Corporation, as Borrower, JPMorgan Chase Bank, N.A., as Agent and the other parties thereto
12.1	Pinnacle West	Ratio of Earnings to Fixed Charges
12.2	APS	Ratio of Earnings to Fixed Charges

EXHIBIT D
Certain Language for Proposed Order

EXHIBIT D

PROPOSED LANGUAGE FOR ORDER

[Capitalized terms used in the paragraphs below are intended to have the meanings given in the Application.]

IT IS THEREFORE ORDERED that the Company is hereby authorized (i) to issue, sell, and incur the Continuing Long-Term Debt and the Continuing Short-Term Debt, redeem, refinance, refund, renew, reissue, roll-over, repay, and re-borrow from time to time such Continuing Long-Term Debt and Continuing Short-Term Debt, and establish and amend the terms and provisions of long-term and short-term indebtedness from time to time, (ii) to determine the form of security, if any, for the Continuing Long-Term Debt and the Continuing Short-Term Debt, execute and deliver the Security Instruments, and establish and amend the terms and provisions of the Security Instruments, as may be deemed appropriate by the Company in connection with the Continuing Long-Term Debt and the Continuing Short-Term Debt, and (iii) to pay all related expenses, all as contemplated in the Application and by the exhibits and testimony presented during the hearing in this matter.

IT IS FURTHER ORDERED that only traditional indebtedness for borrowed money (and not the other types of arrangements described in paragraph 13 of the Application) is subject to A.R.S. Sections 301 and 302 and that, therefore, such other arrangements will not count against the Continuing Long-Term Debt or Continuing Short-Term Debt authorizations provided in this Decision or require prior Commission approval.

IT IS FURTHER ORDERED that the Company is hereby authorized to sign and deliver such documents and to engage in such acts as are reasonably necessary to effectuate the authorization granted hereinabove.

IT IS FURTHER ORDERED that the purposes for which the proposed issuances of Continuing Long-Term Debt and the Continuing Short-Term Debt are herein authorized are to augment the funds available from all sources to finance the Company's construction, resource acquisition and maintenance programs, to redeem or retire outstanding securities, to repay or refund other outstanding long-term or short-term debt and to meet certain of the Company's working capital and other cash requirements. Such purposes are within those permitted by A.R.S. Section 301 and are permitted regardless of the extent to which they may be reasonably chargeable to operating expenses or to income.

IT IS FURTHER ORDERED that Pinnacle West is hereby granted an ongoing waiver of and authorization under A.C.C. R14-2-803 for the purpose of guaranteeing the Company's indebtedness from time to time. The Company is hereby authorized to reimburse Pinnacle West for any amounts paid by Pinnacle West under any guarantee of the Company's debt from time to time, along with interest thereon to the date of reimbursement at a rate of interest not greater than the rate payable on the debt so guaranteed and paid by Pinnacle West.

IT IS FURTHER ORDERED That this Decision shall become effective immediately.
