c. The Critical Dates monitored by the Company for the purpose of calculating a Cancellation Charge are as follows:

- Application Date (APP): The date the customer provides a firm commitment and sufficient information to the Company for order placement. The APP Date is the date the Company enters the order into the Company's order distribution system(s). This is sometimes referred to as the order date.
- Design Layout Report Date (DLRD): The date the Design Layout Report which contains the design for the service(s) ordered is forwarded to the customer.
- Plant Test Date (PTD): The date acceptance testing is performed with the customer.
- Service Date (DD): The date the service is due to be made available to the customer. This is sometimes referred to as the Due Date.

d. When a customer cancels an order prior to the Service Date, the Company will calculate the Cancellation Charge by multiplying \$1,500.00 by the percentage shown in e., following, based on the last monitored Critical Date which has occurred on the order. When a customer cancels an order, or part of an order, on or after the Service Date, \$1,500.00 plus the minimum billing period charges apply.

e. The Critical Dates monitored by the Company are as follows:

	APP	DLRD	PTD	DD
	%	%	%	%
• Digital Switched Service	13	44	77	[2]

f. When a customer cancels an order for the discontinuance of service, no charges apply for the cancellation.

g. If the Company misses a service date due to circumstances over which it has direct control (excluding, e.g., acts of God, governmental requirements, work stoppages and civil commotions), the customer may cancel an order without incurring cancellation charges.

h. A request for cancellation after completion of an installation will be treated as a discontinuance of service.
