Re: **Docket Nos. W-04264A-04-0438**
SW-04265A-04-0439
W-01445A-04-0755
Decision No. 68453
Annual Effluent Use Report

DOCKETED BY	<i>nr</i>
-------------	-----------

The above referenced decision requires that Woodruff Utility Company (WUC) provide the Commission within one year of the effective date of the CC&N and annually thereafter, a report describing WUC's progress toward the use of effluent specifically as it pertains to golf courses, ornamental lakes and other aesthetic water features.

To date we have submitted a preliminary treatment plant design and specifications to the Arizona Department of Environmental Quality for review. Final design will be completed in February of this year. Because of a downturn in the real estate market we have had a short delay but construction should begin later this year. We are developing system standards and details. The trunk collection system and first phase subdivision collection system design is at 90%.

Currently, because no construction has begun on a wastewater treatment facility, there is no effluent production or use to report. If you have questions regarding this report, please contact me at (602) 956-7200.

Sincerely,

Brian R. Hall
General Manager
Woodruff Utility Company
