Re: Docket No. U-0000-94-165
Restructuring of Arizona's Electric Industry

DOCKETED BY 

Dear Commissioners,

We applaud the Commission for its efforts to move the electric industry to competitive choice for all customers in Arizona. As the Commission considers its final vote on its proposed rule, it is important that the results of that decision not impede the ability of all customers, utilities, and other power suppliers to participate. Excluding any party diminishes the ultimate goal of a vibrant competitive market. Any decision which limits competitive choice to less than all customers will result in unfairness and leave excluded customers at a competitive disadvantage.

We are not endorsing any specific proposal by any party. We urge the Commission and all parties to seek a resolution to any issues which would hinder any electric supplier, private or public, from participating in the competitive electricity market.
