Line 16, STRIKE "an impact."

Line 17, after "existing well." INSERT reference to Footnote No. 2 to read:

"2. The ADWR rule that Empirita's hydrology witness cited, A.A.C. R12-15-830, appears to have been replaced in August 2006 by A.A.C. R12-15-1302. However, as relevant to this proceeding, the rule change appears to have retained the '10 feet of additional drawdown over the first 5 years' standard relied on by Empirita's hydrology witness for ascertaining whether a prohibited well impact would occur."
