7.4 Features (Cont'd)

Local Number Portability Surcharge

Local Number Portability (LNP) Service provides end users of telecommunication service, where facilities permit, the ability to retain their existing telephone number when switching from one local exchange service provider to another provided that the end user Customer remains within the same rate center.

LNP Service provides for the completion of all calls to ported telephone numbers, as described above, regardless of where the call originates.

Monthly recurring charges for LNP service will apply to end user Business Service customers receiving All Other Service. The charge will be applied on a per line basis as provided in the Price List. LNP Service charge will be assessed on all of these lines beginning on February 13, 2002 and concluding on November 30, 2006.

Monthly recurring charges for LNP service will apply to end user Business service customers receiving AT&T Business Network Service, DS-1 Digital Facilities and DS-1 ISDN PRI on AT&T Business Network Service. LNP Service charge will be assessed on all of these lines beginning on July 28, 2003 and concluding on July 28, 2008. Refer to Price List for charges.

Preferential Hunt

This feature enables incoming calls to a specific number within a hunt group to hunt over a unique hunting sequence of lines within the hunting group. The unique hunting sequence is other than that encountered when a caller dials the first telephone number in the hunt group. Preferential Hunt is available to customers with two or more lines.
