ARSENIC IMPACT HOOK-UP FEE TARIFF

I. Purpose and Applicability

The purpose of the Arsenic Impact Fee Tariff, payable to Abra Water Co. ("the Company") pursuant to this tariff, is to equitably apportion the costs of constructing water treatment plant facilities to treat and remove arsenic. These charges are applicable to all new service connections established on or after the effective date of the tariff. The charges are one-time charges and are payable as a condition to the Company's establishment of service, as more particularly provided below.

II. Definitions

Unless the context otherwise requires, the definitions set forth in R-14-2-401 of the Arizona Corporation Commission's ("Commission") rules and regulations governing water utilities shall apply in interpreting this tariff schedule.

"Applicant" means any party entering into an agreement with the Company for the installation of water facilities to serve new service connections.

"Arsenic Treatment Facilities" means treatment equipment and related appurtenances necessary for the removal of arsenic through treatment of water to meet the 10 parts per billion ("ppb") arsenic standards.

"Company" means Abra Water Co., an Arizona corporation.

"Main Extension Agreement" means any agreement whereby an applicant agrees to advance the costs of the installation of water facilities to the Company to serve new service connections, or install water facilities to serve new service connections and transfer ownership of such water facilities to the Company, which agreement shall require the approval of the Commission's Utilities Division (same as line extension agreements).

"Service Connection" means and includes all service connections for residential, commercial, industrial, or other uses, regardless of meter size.

III. Arsenic Impact Hook-Up Fee Tariff Charges

Each new service connection shall pay the Arsenic Impact Hook-Up Fee Tariff derived from the following table:

- (B) Use of Arsenic Impact Hook-Up Fee Funds: Arsenic Impact Fee may only be used to pay for capital items of arsenic treatment facilities (including engineering and design costs for such facilities), or for repayment of loans obtained for installation or arsenic treatment facilities.  - i. In the event that the Applicant is required to enter into a main extension agreement, whereby the Applicant agrees to advance the costs of installing mains, valves, fittings, hydrants, and other on-site improvements in order to extend service in accordance with R-14-2-406(B), payment of the charges required hereunder, as to service connections to be served through such facilities and improvements, shall be made by the Applicant within fifteen (15) calendar days after receipt of notification from the Company that the Utilities Division of the Commission has approved the main extension agreement in accordance with R-14-2-406(M).

 - ii. In the event the Applicant is not required to enter into a main extension agreement, the charges hereunder shall be due and payable at the time the service line and meter installation charge is due and payable.
