Docket No. W-04249A-04-0249  
Decision No. 67231  
*W-03745A-04-0249*

Dear Ms. Battista;

Please allow us to apologize for the tone and attitude of response in our letter docketed on March 26, 2007. Per your phone conversation with our secretary, Nancy Moreno, she emphasized the fact of our intentions, which we did not clarify in that letter.

To clarify our intentions for Jakes Corner, we do intend to install a storage tank, which we have acquired and is on hand.

We were concentrating our efforts and finances on Arroyo Water Company issues first, since it has a larger customer base and has dire needs. That does not mean we think Jakes Corner is a lesser system, we do not have water issues there and our customer base stays stable with 20 customers. Arroyo has constant 90 to 100 customers and a waiting customer list of approximately 75.

We are requesting the Commission to allow us time to address Arroyo Water Company's issues, with our full intentions of installing a storage tank for Jakes Corner. The installation of the storage tank at Jakes Corner should be complete within the next 3 months.

We will be at the hearing on June 12<sup>th</sup> in regards to Arroyo's CC&N and we are looking forward to aggressively responding to the issues of that system.
