Subject: Devers-Palo Verde # 2 line

ORIGINAL

Mr. Gleason:

I respectfully ask that you deny Southern California Edison the certificate they have requested to run a power line through important and sensitive wildlife habitat, including the KOFA National Wildlife Habitat.

The line will have negligible value and will certainly result in disruption of endangered species in the area as well as diminishing the beauty and desirability of the environment for recreation.

Thank you for considering my opinion as you make your decision.
