DATE PREPARED: June 22, 2007

Page 8, STRIKE lines 7 through 12 and INSERT:

"Rather, the critical question in this case is whether or not there is a public need and necessity for water utility service in the proposed extension area, even though there has not been a request for service since Woodside Homes withdrew its request from the Company in August 2006. After considering the facts and circumstances specific to this case, including Woodside Homes' neutral position on whether the Company or the City should be the water provider, we find that such a need persists. Further, we give little weight to the City's objection to the application because development in an unincorporated area should not be prevented simply because a municipality seeks to serve that area at some uncertain point in the future. Accordingly, we find that it is in the public interest to approve the Company's application, as recommended by Staff, subject to Staff's conditions set forth in Findings of Fact No. 25 and 26."

"Without a valid request for service, the evidence does not establish that"
