Notice To Customers – Goodman Water Company

Arizona Corporation Commission
DOCKETED

Meter Change-Out Opportunity

MAY 23 2007

Dear Water Customer,

DOCKETED BY

As you know, Goodman Water Company has completed a rate review and subsequent increase with the Arizona Corporation Commission (ACC). The new increase (tariff) will be effective May 1, 2007. A copy of the new tariff is enclosed.

Part of the process of the rate review and related hearing addressed the significant change for a 1" meter base-rate. One inch meters were installed on homes requiring internal sprinkler systems, based on square footage. During the recent process, it was determined the fire authority, Golder Ranch, would allow for 3/4" meters in lieu of the larger 1" meters for residential sprinklers.

Estimates have been provided to Goodman Water Company to change out the 1" meters. DR Horton has offered to absorb the cost of changing existing 1" meters to 3/4"; therefore, no charges will be assessed to existing customers having 1" meters. This will result in substantial savings to those customers who wish to take advantage of this program.

Time is of the essence. The ACC has allowed this opportunity only for 90 days, ending August 1, 2007. In order to expedite meter change-outs for existing 1" customers, Goodman Water Company requests affected customers to respond by filling out the attached, in order to proceed with this process. The existing 1" meters will be returned to DR Horton. Again, there will be no fees for the change-out to customers.

Goodman Water Company anticipates most or all affected customers will take advantage of this opportunity. Please complete the attached change-out request form as soon as possible, in order to carry this process forward and complete prior to the 90 day time-line.

Sincerely,

Karen Hartwell
