Re: *Docket No. T-20514A-07-0113*
Response to Letter of Insufficiency and First Set of Data Requests
Broadweave Networks of Arizona, LLC

Mr. Bostwick:

Pursuant to our discussion, Broadweave Networks of Arizona, LLC ("Broadweave" or "Applicant") hereby provides the following responses to Staff's Letter of Insufficiency and First Set of Data Requests. This submission shall serve as a substitute for Broadweave's original responses to Staff's Letter of Insufficiency and First Set of Data Requests, filed on April 16, 2007. The instant submission is more comprehensive than the original response, as it is prepared according to specific guidance of Staff and presented in a manner intended to facilitate Staff's review of Broadweave's qualifications on a more expedited basis.

As an initial matter, Broadweave wishes to clarify its request for confidential treatment of the financial information ("Confidential Financial Statements") submitted with its Application, as follows:

To facilitate staff's ability to include references to key elements of its Confidential Financial Statements in its reports and the Commission's Orders, Broadweave hereby specifically waives its request for confidential treatment of the following -

Total assets, net income/loss and stockholder's equity

Pursuant to this waiver, Staff and the Commission are authorized to publicly release the aforementioned information to the extent reasonably necessary to complete the certification process.

JFB1-1. Your tariff indicates that you intend to offer private line service in Arizona. You did not indicate in Item (A-1) of your Application that you intend to offer private line service. Please revise your response to Item (A-1).

Broadweave does not intend, at this time, to offer private line service in the State of Arizona. Any reference to private line service has been removed from the application and proposed tariff. Broadweave may offer private line service in the future following its entrance into the Arizona telecommunications market. If Broadweave intends to offer private line service, applicant will notify the Commission and update the tariff.

JFB1-2. Please be advised that you filed your Application on the form dated 04/14/04. You should have used the Application form dated 07/07/06. Make sure your information on the Application is accurate and complete. Provide all information requested on the Application form dated 07/07/06.

Applicant hereby supplements and/or replaces its original Application (04/14/04 form) with a completed Application utilizing the 07/07/06 form. See Attachment 1.

The supplemental/replacement Application is accurate, complete and reflects changes as indicated in Applicant's responses to the Data Request.

JFB1-3.

In Item (A-9), you did not provide any reference by Tariff page number to the following information:

Broadweave has enclosed herewith its proposed Arizona Tariff No.2 (see Attachment 5), for the provision of interexchange telecommunications services and provides references to appropriate page and section numbers for each of the proposed tariffs in response to the following. Tariff No. 1 refers to Broadweave's proposed CLEC Tariff and Tariff No. 2 refers to Broadweave's proposed IXC Tariff.

1. Proposed Rates and Charges for each service offered (reference by Tariff page number).

Tariff No. 1 - Section 4, pages 1 through 4.

Tariff No. 1 - Section 5, pages 1 through 18.

Tariff No.2 - Section 3, pages 14 through 15.

2. Tariff Maximum Rate and Prices to be charged (reference by Tariff page number).

Tariff No. 1 - Section 4, pages 1 through 4.

Tariff No. 1 - Section 5, pages 1 through 18.

Tariff No. 2 - Section 3, pages 14 through 15.

3. Terms and Conditions Applicable to provision of Service (reference by Tariff page number).

Tariff No. 1 - Section 2, pages 1 through 33.

Tariff No. 2 - Section 2, pages 6 through 11.

Tariff No. 2 - Section 3, pages 12 through 13.

4. Deposits, Advances and/or Prepayments Applicable to provision of Service (reference by Tariff page number).

Tariff No. 1 - Section 2, pages 18 and 19.

Tariff No. 2 - Section 2, page 11.

5. The proposed fee that will be charged for returned checks (reference by Tariff page number).

Tariff No. 1 - Section 2, page 17.

Tariff No. 2 - Section 4, page 16.

JFB1-4. In Item (A-14) please be advised that a "No" response is not an option. Please check the appropriate box(es).

Response to A-14 revised accordingly. *See Attachment 1.*

JFB1-5.

In Item (A-15) if any box in (A-14) is marked "No," provide the following information. You did not reference by tariff page number your deposit policy. Also, you did not provide a detailed explanation or evidentiary data of why the Applicant's financial position is superior and limits any risk to Arizona consumers.

Applicant's deposit policy appears in Section 2, pages 18 and 19 of its proposed Arizona Tariff No. 1 for the provision of local exchange telecommunications services. Applicant's deposit policy appears in Section 2, on page 11 of its proposed Arizona Tariff No. 2 for the provision of interexchange telecommunications services. Applicant's policy specifically states that it does not collect deposits or advance payments under any circumstances. In addition, as evidenced in its financial statements, submitted as "confidential" Attachment D to its original application, Applicant is the wholly-owned subsidiary of a financially secure parent. See response to JFB1-6, below, for further information on the status of Applicant's financial materials. The financial statements submitted with the application demonstrate that Applicant, through its parent, is financially capable of providing the requested services in the state of Arizona. Applicant will supplement Attachment D upon finalization of year end 2006 financial statements, which will further demonstrate Applicant's financial qualifications.

Wherefore, because Applicant: (1) does not collect advance payments or deposits and (2) is financially sound, we believe the submission of the \$10,000 surety bond applicable to resellers of interexchange services, is not necessary for the protection of Arizona consumers.

Applicant, however, stands prepared to submit evidence of the \$100,000 surety bond required of facilities-based LECs and the \$25,000 bond required of resellers of Local Exchange services. In other words, Applicant does not dispute nor does it seek any waiver of a total of \$125,000 in surety bonds.

JFB1-6. In Item (B-2), you did not include "Attachment D."

Since you are relying on the financial resources of ~~Gila River Telecommunications~~ (BROADWEAVE NETWORKS, INC.), parent company, please provide the parent company's financial information for the two (2) most recent years.

1. A copy of the Applicant's balance sheet.
2. A copy of the Applicant's income statement.
3. A copy of the Applicant's audit report.
4. A copy of the Applicant's retained earnings balance.
5. A copy of all related notes to the financial statements and information.

Note: Make sure "most recent years" includes current calendar year or current year reporting period.

Note: Please contact the Legal Division of the Arizona Corporation Commission to make sure your financial statements are treated in a confidential manner. The phone of the Legal Division is 602-542-3402.

Applicant's original application contained as "confidential" Attachment D the audited financial statements for 2003, 2004 and 2005 and unaudited financial statements through June 2006. Attachment D was submitted under seal. Subsequent to docketing the application, the Commission advised counsel that the confidential materials became separated from the application. Following discussions with Ms. Deborah Amaral in the Commission's legal division advised, counsel was advised that the envelope containing the financial statements was located and incorporated into the docket. Accordingly, the Commission should be in possession of the financial material at this time.

In reference to Applicant's request for confidential treatment of Attachment D, as indicated in the opening paragraph of this submission, Applicant hereby waives its request as to confidential treatment of the following elements of the Confidential Financial Statements:

Total assets, net income/loss and stockholder's equity.

JFB1-7. In Arizona Tariff No. 1, you indicated that you want to provide private line services in Arizona. For each type of tariffed service, please answer the set of questions JFB1-8 through JFB1-11.

Broadweave will not offer private line service in Arizona. Accordingly, Broadweave has removed any reference to private line service in both the proposed tariff and its Application. See Attachment 1 for Broadweave's updated Application.

JFB1-8. Please explain how your company calculated the actual maximum and actual minimum rates that will be contained in your tariffs for private line services.

N/A. See answer to JFB1-7, *supra*.

JFB1-9. Please indicate why you believe that your range of rates is just and reasonably using a competitive market analysis. Your analysis should contain publicly available examples of tariff rates and charges charged by the incumbent and other carriers for similar services. Include supporting material and any other information that you believe demonstrates that your actual or proposed tariff rates and charges are just and reasonable.

Use a matrix format to list BNA's proposed services, rates and/or charges. Based on the Applicant's tariff, list all the private line services BNA will provide in Arizona. For each of the private line services listed, list the rate and/or charge for each service and reference each service, rate and/or charge to BNA's tariff. Provide BNA's tariff pages that support each of BNA's services, rates and/or charges.

Use a matrix format to capture BNA's list of private line services that will be provided in Arizona. Show each competitor's tariff rates and/or charges for the same or comparable services and reference each service, rate and/or charge to each competitor's tariff. Provide tariff pages of each competitor that support each competitor's services, rates and/or charges offering the same or similar telecommunications services in Arizona.

At a minimum, show a complete set of tariff information of Qwest, Cox Telecom and two other competitors in Arizona. For a list of telecommunications carriers certificated in Arizona, go to www.cc.stat.az/utility/utility. For a list of telecommunications carriers' tariff rates and charges, go to www.cc.state.az.us/utility/tariffs.

The material you provide should enable Staff to determine whether the proposed tariff rates and/or charges of the Applicant are identical or just and reasonable compared to other competitors offering the same or similar telecommunications services in Arizona.

N/A. See answer to JFB1-7, *supra*.

JFB1-10. Please indicate why you believe that your range of rates is just and reasonable using a fair value or cost basis. Please include economic justification or cost support data. Please include any supporting materials.

N/A. See answer to JFB1-7, *supra*.

JFB1-11. Use a matrix format to capture BNA's list of private line services that will be provided in Arizona. Identify other states/jurisdictions in which your company or an affiliate company is providing or applying to provide private line services.

For each private line that will be provided in Arizona, list BNA's or affiliates' rates and/or charges that are or will be charged in other states or jurisdictions. Show for each state or jurisdiction, the tariff rates and/or charges for the same or comparable services and reference each service, rate and/or charge to BNA's or each affiliate's tariff. Provide BNA's or affiliate's tariff pages that support BNA's or each affiliate's services, rates and/or charges that are or will be charged in other states or jurisdiction offering the same or similar telecommunications services in Arizona.

If there is a difference between the tariff rates and charges that BNA or an affiliate charges or will charge in Arizona and the tariff rates and charges that BNA or affiliate charges or will charge in other states or jurisdictions for private line services: please identify the service, indicate the amount of the difference and explain why you are charging different tariff rates and charges in Arizona.

At a minimum, show a complete set of tariff information of Arizona and three other states or jurisdictions.

The material you provide should enable Staff to determine whether the proposed tariff rates and/or charges of the Applicant are identical or just and reasonable compared to the tariff rates and charges that are or will be charged in other states or jurisdictions offering the same or similar telecommunications services in Arizona.

N/A. See answer to JFB1-7, *supra*.

- JFB1-12. In your Application, you indicated that you want to provide facilities-based local exchange in Arizona. For each type of tariffed service, please answer the set of questions JFB1-13 through JFB1-16.
- JFB1-13. Please explain how your company calculated the actual maximum and actual minimum rates that will be contained in your tariffs for facilities-based local exchange.

Broadweave intends to charge similar, competitive rates for all tariffed facilities-based local exchange services offered in the State of Arizona. Broadweave's tariffs contain a single charge for telecommunications services that is competitive with other companies providing similar services in the state of Arizona, such as Qwest Communications Corp., Cox Arizona Telecom, L.L.C., Airespring, Inc., XO Communications, Inc., and OnePoint Communications. Broadweave does not include minimum or maximum rates in its proposed tariffs for local exchange services.

The rates set forth in the proposed tariff were set at levels determined to provide the Company the ability to compete with other local exchange carriers currently operating within the State. As there is considerable uncertainty regarding what cost increases may be imminent and/or how other competitive prices may change, there is no established formula for "calculating" rates; rather, Broadweave's rates are established based primarily on judgment and comparison with other telecommunications providers in the State. As a new competitive entrant into the telecommunications market in Arizona, Broadweave has no market power and therefore lacks any ability to "set" the price for its service; rather, it must set its prices in response to competitive market conditions.

There is no certainty that the company would be able to recover its costs at market-based prices and thus, it is unlikely that Broadweave would be able to increase its rates to extraordinary levels and still remain competitive with other telecommunications carriers. If, in the event that any of the company's proposed rates exceed those of other telecommunications service providers for comparable services, consumers will not purchase these services from Broadweave. Accordingly, Broadweave's rates are competitive.

JFB1-14.

Please indicate why you believe that your range of rates is just and reasonable using a competitive market analysis. Your analysis should contain publicly available examples of tariff rates and charges charged by the incumbent and other carriers for similar services. Include supporting material and any other information that you believe demonstrates that your actual or proposed tariff rates and charges are just and reasonable.

Use a matrix format to list BNA's proposed services, rates and/or charges. Based on the Applicant's tariff, list all the facilities-based local exchange services BNA will provide in Arizona. For each of the facilities-based local exchange services listed, list the rate and/or charge of each service and reference each service, rate and/or charge to BNA's tariff. Provide BNA's tariff pages that support each of BNA's services, rates and/or charges.

Use a matrix format to capture BNA's list of facilities-based local exchange services that will be provided in Arizona. Show each competitor's tariff rates and/or charges for the same or comparable services and reference each service, rate and/or charge to each competitor's tariff. Provide tariff pages of each competitor that support each competitor's services, rates and/or charges offering the same or similar telecommunications services in Arizona.

At a minimum, show a complete set of tariff information of Qwest, Cox Telecom and two other competitors in Arizona. For a list of telecommunications carriers certificated in Arizona, go to www.cc.stat.az/utility/utility. For a list of telecommunications carriers' tariff rates and charges, go to www.cc.state.az.us/utility/tariffs.

The material you provide should enable Staff to determine whether the proposed tariff rates and/or charges of the Applicant are identical or just and reasonable compared to other competitors offering the same or similar telecommunications services in Arizona.

In Response to the Commission's request, and to demonstrate the competitiveness of the rates included in its proposed local exchange tariff (Arizona Tariff No. 1) is a matrix listing all of Broadweave's rates for local residential and small business services within the state of Arizona. *See Attachment 2.*

As the matrix demonstrates, Broadweave intends to offer local residential and small business services in a packaged format. Residential and small business customers will receive a single, primary line connection to the Broadweave's local exchange network and unlimited calls within their local calling area. These packages will also include custom calling features such as: call waiting, caller ID, call transfer, voicemail, 3-way calling, call rejection, last call return, and distinctive ring.

The matrix also includes rates for comparable services from Qwest Communications Corp., Cox Arizona Telecom, L.L.C., Airespring, Inc., XO Communications, Inc., and OnePoint Communications. Broadweave has selected packages from these companies that most closely resemble the residential and small business plans offered by Broadweave. While some of the competing packages do not correspond precisely with those offered by Broadweave, a comparative analysis of these documents demonstrates that Broadweave's proposed rates are both competitive and reasonable.

JFB1-15

Please indicate why you believe that your range of rates is just and reasonable using a fair value or cost basis. Please include economic justifications or cost support data. Please include any supporting materials.

As indicated in the answer JFB1-13, *supra*, Broadweave's rates are determined primarily through a comparative analysis of comparable services and service packages of other local exchange telecommunications providers operating in the State.

As the rate comparison matrix supporting this response demonstrates, Broadweave's rates for local, facilities-based telecommunications service are just and reasonable in comparison with other service providers in the State. *See Attachment 2.*

JFB1-16.

Use a matrix format to capture BNA's list of facilities-based local exchange services that will be provided in Arizona. Identify other states/jurisdictions in which your company or an affiliate company is providing or applying to provide facilities-based local exchange services.

For each facilities-based local exchange service that will be provided in Arizona, list BNA's or affiliates' rates and/or charges that are or will be charged in other states or jurisdictions. Show for each state or jurisdiction the tariff rates and/or charges for the same or comparable services and reference each service, rate and/or charge to BNA's or each affiliate's tariff. Provide BNA's or affiliate's tariff pages that support BNA's or each affiliate's services, rates and/or charges that are or will be charged in other states or jurisdictions offering the same or similar telecommunications services in Arizona.

If there is a difference between the tariff rates and charges that BNA or an affiliate charges or will charge in Arizona and the tariff rates and charges that BNA or affiliate charges or will charge in other states or jurisdictions for facilities-based local exchange services: please identify the service, indicate the amount of the difference and explain why you are charging different tariff rates and charges in Arizona.

At a minimum, show a complete set of tariff information of Arizona and three other states or jurisdictions.

The material you provide should enable Staff to determine whether the proposed tariff rates and/or charges of the Applicant are identical or just and reasonable compared to the tariff rates and charges that are or will be charged in other states or jurisdictions offering the same or similar telecommunications services in Arizona.

Broadweave currently has, or will have, local exchange tariffs filed in California, New Mexico, and Texas. Rates for Broadweave's local exchange services in these tariffs directly mirror the rates in the proposed Arizona tariff. The prices for these services in matrix format, and the corresponding tariff pages, are attached. *See Attachment 3.*

JFB1-17. In your Application, you indicated that you want to provide resold local exchange services in Arizona. For each type of tariffed service, please answer the set of questions JFB1-18 through JFB1-21.

The only difference between resold and facilities-based exchange services is the method by which Broadweave obtains and provisions these telecommunications services; and not the manner in which the services are sold to the public. Prices and descriptions of resold and facilities-based local exchange services set forth in Broadweave's proposed Arizona Tariff No. 2 mirror the prices and services for Broadweave's resold local exchange services. For this reason, all answers provided in JFB1-12 - JFB1-16 are identical to those asked in JFB1-17 - JFB1-21.

JFB1-18. Please explain how your company calculated the actual maximum and actual minimum rates that will be contained in your tariffs for resold local exchange services.

See answer to JFB1-17, *supra*.

JFB1-19. Please indicate why you believe that your range of rates is just and reasonable using a competitive market analysis. Your analysis should contain publicly available example of tariff rates and charges charged by the incumbent and other carriers for similar services. Include supporting material and any other information that you believe demonstrates that your actual or proposed tariff rates and charges are just and reasonable.

Use a matrix format to list BNA's proposed services, rates and/or charges. Based on the Applicant's tariff, list all the resold local exchange services BNA will provide in Arizona. For each of the resold local exchange services listed, list the rate and/or charge of each service and reference each service, rate and/or charge to BNA's tariff. Provide BNA's tariff pages that support each of BNA's services, rates and/or charges.

Use a matrix format to capture BNA's list of resold local exchange services that will be provided in Arizona. Show each competitor's tariff rates and/or charges for the same or comparable services and reference each service, rate and/or charge to each competitor's tariff. Provide tariff pages of each competitor that support each competitor's services, rates and/or charges offering the same or similar telecommunications service in Arizona.

At a minimum, show a complete set of tariff information of Qwest, Cox Telecom and two other competitors in Arizona. For a list of telecommunications carriers certificated in Arizona, go to www.cc.stat.az/utility/utility. For a list of telecommunications carriers' tariff rates and charges, go to www.cc.state.az.us/utility/tariffs.

The material you provide should enable Staff to determine whether the proposed tariff rates and/or charges of the Applicant are identical or just and reasonable compared to other competitors offering the same or similar telecommunications services in Arizona.

See answer to JFB1-17, *supra*.

JFB1-20. Please indicate why you believe that your range of rates is just and reasonable using a fair value or cost basis. Please include economic justification or cost support data. Please include any supporting materials.

See answer to JFB1-17, *supra*.

JFB1-21. Use a matrix format to capture BNA's list of resold local exchange services that will be provided in Arizona. Identify other states/jurisdictions in which your company or an affiliate company is providing or applying to provide resold local exchange services.

For each resold local exchange service that will be provided in Arizona, list BNA's or affiliates' rates and/or charges that are or will be charged in other states or jurisdictions. Show for each state or jurisdiction the tariff rates and/or charges for the same or comparable services and reference each service, rate and/or charge to BNA's or each affiliate's tariff. Provide BNA's or affiliate's tariff pages that support BNA's or each affiliate's services, rates and/or charges that are or will be charged in other states or jurisdictions offering the same or similar telecommunications services in Arizona.

If there is a difference between the tariff rates and charges that BNA or an affiliate charges or will charge in Arizona and the tariff rates and charges that BNA or affiliate will charge in other states or jurisdictions for resold local exchange services: please identify the service, indicate the amount of the different and explain why you are charging different rates and charges in Arizona.

At a minimum, show a complete set of tariff information of Arizona and three other states or jurisdictions.

The material you provide should enable Staff to determine whether the proposed tariff rates and/or charges of the Applicant are identical or just and reasonable compared to the tariff rates and charges that are or will be charged in other states or jurisdictions offering the same or similar telecommunications services in Arizona.

See answer to JFB1-17, *supra*.

- JFB1-22. In your Application, you indicated that you want to provide resold interexchange services in Arizona. For each type of tariffed service, please answer the set of questions JFB1-23 through JFB1-26.
- JFB1-23. Please explain how your company calculated the actual maximum and actual minimum rates that will be contained in your tariffs for resold interexchange services.

Broadweave intends to charge competitive rates for all interexchange services as listed in the proposed IXC tariff, Arizona Tariff No. 2 (*see Attachment 5*). Similar to its resold and facilities-based local exchange rates, both the maximum and actual rates for these services have been set based upon both judgment and the rates of other companies providing similar service in the state of Arizona, such as Qwest Communications Corp., Cox Arizona Telecom, L.L.C., Airespring, Inc., XO Communications, Inc., and OnePoint Communications. The rates set forth in the proposed Arizona Tariff No. 2 were set at levels determined to provide the Company with sufficient flexibility to compete with other telecommunications carriers with in the State of Arizona.

JFB1-24.

Please indicate why you believe that your range of rates is just and reasonable using a competitive market analysis. Your analysis should contain publicly available example of tariff rates and charges charged by the incumbent and other carriers for similar services. Include supporting material and any other information that you believe demonstrates that your actual or proposed tariff rates and charges are just and reasonable.

Use a matrix format to list BNA's proposed services, rates and/or charges. Based on the Applicant's tariff, list all the resold interexchange services BNA will provide in Arizona. For each of the resold interexchange services listed, list the rate and/or charge of each service and reference each service, rate and/or charge to BNA's tariff. Provide BNA's tariff pages that support each of BNA's services, rates and/or charges.

Use a matrix format to capture BNA's list of resold local exchange services that will be provided in Arizona. Show each competitor's tariff rates and/or charges for the same or comparable services and reference each service, rate and/or charge to each competitor's tariff. Provide tariff pages of each competitor that support each competitor's services, rates and/or charges offering the same or similar telecommunications service in Arizona.

At a minimum, show a complete set of tariff information of Qwest, Cox Telecom and two other competitors in Arizona. For a list of telecommunications carriers certificated in Arizona, go to www.cc.stat.az/utility/utility. For a list of telecommunications carriers' tariff rates and charges, go to www.cc.state.az.us/utility/tariffs.

The material you provide should enable Staff to determine whether the proposed tariff rates and/or charges of the Applicant are identical or just and reasonable compared to other competitors offering the same or similar telecommunications services in Arizona.

In Response to the Commission's request, and to demonstrate the competitiveness of the rates included in the proposed Arizona Tariff No. 2, attached is a matrix listing rates for the resold interexchange services that Broadweave intends to offer customers in Arizona. This matrix includes rates for comparable services offered by Qwest Communications Corp., Cox Arizona Telecom, L.L.C., Airespring, Inc., XO Communications, Inc., and OnePoint Communications. A comparative analysis of these carriers' rates and supporting tariffs demonstrates that Broadweave's proposed rates are both competitive and reasonable. See Attachment 4.

JFB1-25. Please indicate why you believe that your range of rates is just and reasonable using a fair value or cost basis. Please include economic justification or cost support data. Please include any supporting materials.

As indicated in the answer JFB1-17, *supra*, and similar to pricing for resold and facilities-based local exchange services, Broadweave's rates are determined by comparing its proposed rates to those of other competitive long distance telecommunications providers operating in the State to ensure competitiveness.

JFB1-26.

Use a matrix format to capture BNA's list of resold interexchange services that will be provided in Arizona. Identify other states/jurisdictions in which your company or an affiliate company is providing or applying to provide resold interexchange services.

For each resold interexchange service that will be provided in Arizona, list BNA's or affiliates' rates and/or charges that are or will be charged in other states or jurisdictions. Show for each state or jurisdiction the tariff rates and/or charges for the same or comparable services and reference each service, rate and/or charge to BNA's or each affiliate's tariff. Provide BNA's or affiliate's tariff pages that support BNA's or each affiliate's services, rates and/or charges that are or will be charged in other states or jurisdictions offering the same or similar telecommunications services in Arizona.

If there is a difference between the tariff rates and charges that BNA or an affiliate charges or will charge in Arizona and the tariff rates and charges that BNA or affiliate will charge in other states or jurisdictions for resold local exchange services: please identify the service, indicate the amount of the different and explain why you are charging different rates and charges in Arizona.

At a minimum, show a complete set of tariff information of Arizona and three other states or jurisdictions.

The material you provide should enable Staff to determine whether the proposed tariff rates and/or charges of the Applicant are identical or just and reasonable compared to the tariff rates and charges that are or will be charged in other states or jurisdictions offering the same or similar telecommunications services in Arizona.

At this time, Arizona is the only state in which Broadweave plans to offer long distance services. Because of this, Broadweave cannot provide the Commission with comparable long distance tariffs from the other states in which Broadweave is currently licensed to provide similar services. Nevertheless, in the event Broadweave offers resold interexchange services in other states, its rates will directly mirror the rates filed in its proposed Arizona Tariff No. 2.

JFB1-27. Do you intend to offer switched or special access services to other carriers or providers? If so, have you or do you intend to file an access tariff for these services?

No. Applicant does not intend to offer switched or special access services.

JFB1-28. Please confirm or deny that your company intends to provide service to both retail end users and other carriers.

Applicant does not intend to provide wholesale services to other carriers.

JFB1-29. Please indicate if you are or will be providing interexchange telecommunications services to retail customers in Arizona.

Applicant intends to provide interexchange services to retail customers in Arizona.

Applicant is not currently providing any telecommunications services in the state of Arizona and will not do so until it receives authorization from the Commission.

JFB1-30. Please indicate if you are or will be providing interexchange telecommunications services to wholesale customers in Arizona.

Applicant is not providing at this time nor does it intend to provide wholesale telecommunications services.

JFB1-31. For each type of telecommunications service that you want to provide in Arizona, indicate the Tariff and Section number(s) in the tariff that address resold local exchange, facilities-based local exchange, resold interexchange, and private line services.

Broadweave has submitted tariffs for resold and facilities-based local exchange service and resold interexchange service. Arizona Tariff No. 1 addresses local exchange service and Arizona Tariff No. 2 addresses interexchange service.

As indicated in JFB1-7, *supra*, Broadweave does not plan to offer private line service and has amended its Application and tariffs to remove any references to private line service.

JFB1-32. Submit a PDF file of your responses to this data request to jbostwick@cc.state.az.us.

An original plus thirteen (13) copies of this response are enclosed herewith. An additional copy is also enclosed, to be date-stamped and returned in the postage-prepaid envelope provided.

Applicant does not collect deposits from its customers. Furthermore, Applicant's superior financial position makes a bond unnecessary to protect Arizona consumers. Broadweave has substantial financial wherewithal and access to ample capital, as demonstrated in the Financial Statements filed in this proceeding under seal and pursuant to request for confidential treatment. These financial documents demonstrate that Applicant has access to sufficient cash and more than adequate financial resources to provide the requested services to Arizona consumers without the need for a bond, particularly in light of

the fact that Applicant will not be collecting deposits from its customers. Wherefore, Broadweave respectfully requests waiver of the surety bond requirement applicable to long distance resellers. In lieu of waiver, Broadweave requests a reasonable reduction in the surety bond amount consistent with similar reductions granted by the Commission in the past.

3.3 Special Access Channels

Special access channels (i.e.: dedicated facilities), if utilized, are provided and billed to the Customer by the local exchange telephone company. The Company will, at the Customer's request, act on behalf of the Customer in the ordering and installation of the special access channel with the access provider. The Company may also request the access provider to bill them for the account in the name of the Customer. If this option is utilized, the Company will pass the charges, including a billing service fee, through to the Customer.

SECTION 3 - DESCRIPTION OF SERVICE AND RATES**3.6 Public Telephone Surcharge**

In order to recover the Company's expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all interstate, intrastate and international calls that originate from any domestic pay telephone used to access the Company's services. This surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with the Company's service, applies for the use of the instrument used to access the Company service and is unrelated to the Company's service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Public Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (i.e., using the "#" symbol).

Whenever possible, the Public Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information from a carrier that the originating station is an eligible pay telephone.

The Public Pay Telephone Surcharge does not apply to calls placed from pay telephones at which the Customer pays for service by inserting coins during the progress of the call.
