DOCKET CONTROL

IN THE MATTER OF THE
APPLICATION OF PINE WATER
COMPANY FOR APPROVAL TO (1)
ENCUMBER A PART OF ITS PLANT
AND SYSTEM PURSUANT TO
A.R.S. § 40-285(A); AND (2) ISSUE
EVIDENCE OF INDEBTEDNESS
PURSUANT TO A.R.S. § 40-302(A).

DOCKET NO. W-03512A-07-0362

NOTICE OF FILING LETTER
SUPPORTING EXPEDITED ACTION

The Pine-Strawberry Water Improvement District, through undersigned legal counsel, hereby gives notice that it is this date filing with Docket Control a letter from its Chairman supporting Pine Water Company's Motion to Expedite Application filed in the above referenced Docket matter. The development of a new well in the Pine-Strawberry area is extremely important and anything the Commission can do to consider the Application in an expedited manner is deeply appreciated.

RESPECTFULLY SUBMITTED this 13th day of June, 2007.

CURTIS, GOODWIN, SULLIVAN,
UDALL & SCHWAB, P.L.C.

Re: Request for Expedited Consideration

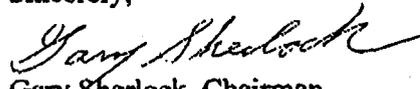

Chairman Gleason and Commissioners:

I am the Chairman of the Pine-Strawberry Water Improvement District. The primary purpose for the District's existence is the location and development of new and dependable water sources to benefit the landowners and residents of the District. On May 1, 2007 the District's Board of Directors unanimously approved the Joint Well Development Agreement with the Pine Water Company. After years of study and careful analysis, the District is ready to invest its funds in developing a well at the K2 site. The landowners and residents within the District served by the Pine Water Company are in need of additional wells to meet the existing and projected needs of the area. The community is anxious to secure one or more additional water sources as soon as possible.

We are advised by legal counsel that we should not expend public funds on the development of the well unless and until the Agreement has been approved by the Arizona Corporation Commission pursuant to Arizona Revised Statutes §§40-285(A) and 40-302. The Agreement is structured such that the District is responsible for funding the design, construction and testing of the test hole. The test results from this activity will, we anticipate, scientifically demonstrate that a well drilled at the K2 location can pump 150 gallons per minute on a sustainable basis. We are excited to commence the development of this well on the K2 Site. We respectfully request the Commission to do what it can to expedite the processing of the pending Application, so that we can commence this historic effort.

I thank you for your consideration.

Sincerely,

Gary Sherlock, Chairman
