Ms Mayes,

I urge you to not allow the huge rate hike that APS has requested.

I feel I should not have to pay extra to build the infrastructure for new homes in Phoenix, the people who benefit should pay or their developer.

I also do not feel I should pay for mismanagement at the Palo Vrde Nuclear Plant. It offers no incentive to APS to improve their operation if they can get the money from customers to pay for their mistakes.

Plases do not allow the huge rate hike APS requests.

Thank you.

William Eich
