Caller wished to express his opinions regarding the current rate application. He feels "the little guy" and "poor people" end up paying for the rapid growth in the area and is in opposition to the proposed increase. He states the companies coming into the area should pay for the increases and not the current citizens who can ill afford it. He believes it is ridiculous that the company asks for increases every six months.

**Utilities' Response:**

**Investigator's Comments and Disposition:**

Advised caller that his comments would be made a matter of public record and reviewed by the Commissioners before a decision is rendered. We went over some of the items on his current bill and discussed the cahrges for the cost of service and the power supply adjuster. I thanked him for his comments and opinions.
