Subject: APS Rate proposed rate hike

Hello Commissioner Mayes,

I just wanted to voice a concern in regard to the 20% proposed rate increase that APS is asking for. This is the 4th time in 3 years that APS has requested rate increases. Every year at least once, they ask for more money out of our pockets. I noticed that their profits went up this year but still they need more! Everything has gone up with the exception of salaries. I did not read about pay freezes at APS, I could find no story to say that the CEO turned down a bonus. If they are granted this additional rate hike it would have increased by over 35% in less than 3 years! I wish my pay increases were of that percentage. Please consider denial of the rate increase request.
