OPEN MEETING DATES: June 26 and 27, 2007

AGENDA ITEM: U-15

Page 5, between lines 16 and 17, INSERT a new Finding of Fact to Read:

"15. While small electric utilities and their customers who choose to install DG may realize some benefits from the existence of interconnections standards, we find that those benefits are outweighed by the operational and financial impacts on small electric distribution companies. Therefore, the Interconnection Document we adopt here will follow the PURPA standard by applying only to electric distribution companies with annual retail sales of more than 500,000 MWh."

Renumber to conform

Page 26, at line 19, after "Commission" INSERT:
