Dear Commissioners –

As a homeowner in the Portals in Pine, Arizona, the K2 deep well project is of great interest to me.

We love our home and like nothing better than to spend time in Northern AZ and take in everything it has to offer. The deep dark issue haunting me though is the water issues in Pine. I knew about these problems before moving in but the house was an excellent deal and I could not pass it up, if the cabin wasn't such a smart deal for our family, there would have been no way I would have considered purchasing in the area due to the water issues. Water restrictions are smart, and I think they should be used more consistently even in the valley but the extent of the water problems in Pine/Strawberry are to the extreme and need fixing, soon. Please consider expediting the approval of this project so the residents of the area can know they have a solid water source for years to come !!

Thank you for listening -
