RE: Docket Number WS-01303A-06-0491

I attended the Arizona Corporation Commission informational meeting in Sun City West on May 16, 2007. The Arizona-American contention that the costs of maintaining, operating, and testing its wastewater systems have increased makes sense to me. But, it makes sense only to the extent that other necessary commodities such as gasoline, produce, and milk have also had recent substantial increases.

What doesn't make sense is to increase the current average wastewater bill for SCW customers from \$20.56 to approximately \$33.60 per month. I believe that increase is unreasonable, and under no circumstances should be approved by the Arizona Corporation Commission.

Please carefully consider the evidence supplied in documentation from Arizona-American to determine what – if any – increase is justified to pass along to the residents in Sun City West, most of whom live on fixed incomes.

Sincerely,

Sherrill Wollam
