Re: Designation of Assured Water Supply (DWR No. 26-402008) Santa Cruz Water Company

Dear Ms. Liles:

I am pleased to inform you that the Department of Water Resources has approved the application for a Designation of Assured Water Supply for Santa Cruz Water Co. We have enclosed the formal Decision and Order. The Decision and Order includes an itemization of the Santa Cruz Water Company's responsibilities in maintaining the Designation.

The Santa Cruz Water Company's status as a designated water provider demonstrates that the Santa Cruz Water Company is taking a long-term perspective in managing water resources. The Santa Cruz Water Company's commitment to sound water management represents a major contribution to the State's water management goal of achieving safe-yield in the Pinal Active Management Area.

If you have any questions regarding these documents, please contact me at (602) 771-8604.

Sincerely,

J. Scott Miller

Manager

Office of Assured and Adequate Water Supply

5
6 **IN THE MATTER OF THE APPLICATION OF) AWS No. 2007-001**
7 **SANTA CRUZ WATER COMPANY)**
8 **FOR A DESIGNATION AS HAVING AN ASSURED) DECISION AND ORDER**
9 **WATER SUPPLY)**
10 **No. 26-402008.0000**

11 **I. INTRODUCTION**

12 On January 24, 2006, the Department of Water Resources (Department) received an
13 application from the Santa Cruz Water Company (Santa Cruz) requesting that the Department
14 modify Santa Cruz's designation of assured water supply pursuant to A.R.S. § 45-576(D) and
15 A.A.C. R12-15-701, *et seq.* On October 27, 2006, the Department determined the application to
16 be complete. On February 1, 2007 and February 8, 2007, the Department gave public notice
17 pursuant to A.R.S. § 45-578 and no objections were filed with the Department.

18 After receiving Santa Cruz's application to modify its designation of assured water
19 supply, the Department reviewed relevant information regarding the modification request,
20 including: 1) the hydrologic study for the proposed groundwater supply submitted with the
21 application and other information on file with the Department; 2) information regarding Santa
22 Cruz's consistency with the management plan and management goal for the Pinal Active
23 Management Area (AMA); and 3) information regarding Santa Cruz's financial capability to
24 construct the necessary delivery system, treatment works and storage facilities. Based on that
25 information the Department makes the following Findings of Fact, Conclusions of Law, and
26 Order of Designation and Conditions of Designation:
27
28

1
2 **II. FINDINGS OF FACT**

- 3 1. Santa Cruz is a private water company regulated by the Arizona Corporation Commission
4 (ACC) and is a wholly owned subsidiary of Global Water Resources, LLC (Global).
5 2. Santa Cruz currently serves water through its distribution system to its customers.
6 3. On October 24, 2003, Santa Cruz was designated as having an assured water supply in
7 Decision and Order AWS 2003-006, No. 26-400804.0000.
8 4. On May 4, 2006, the Department issued Decision and Order AWS No. 2006-001, No. 26-
9 401667.0000, modifying Decision and Order AWS 2003-006 and ordering that Santa
10 Cruz's designation as having an assured water supply continue.
11 5. Santa Cruz has the legal authority to provide water service to its customers located within
12 the geographic area described in its Certificate of Convenience and Necessity (CC&N).
13 See ACC Decision No. 67830, May 5, 2005; ACC Decision No. 68448, Feb. 2, 2006.
14 6. On March 31, 2005, Global entered into an agreement with Sonoran Utility Services,
15 LLC, the operator of the 387 Domestic Water Improvement District in Pinal County (387
16 District), in which Global assumed operation of the 387 District.
17 7. In April 2005, Global interconnected the distribution systems for Santa Cruz and the 387
18 District.
19 8. Since April 2005, Santa Cruz has effectively provided water service to the 387 District.
20 9. On June 15, 2005, Santa Cruz acquired the assets of the 387 District.
21 10. On June 30, 2005, Santa Cruz applied to the ACC for an extension of its CC&N to
22 provide water service to the public in the area served by the 387 District. (The area
23 sought to be added to Santa Cruz's CC&N is referred to herein as the "387 District
24 area.") Santa Cruz is continuing to pursue that application.
25
26
27
28

1
2 **Physical and Continuous Availability of Groundwater: Service Area No. 56-001355.0000**

- 3 11. Santa Cruz has the right to withdraw and deliver groundwater to its customers pursuant to
4 Service Area Right No. 56-001355.0000 within its current service area (Service Area No.
5 56-001355.0000).
- 6 12. Santa Cruz's current demand for its Service Area No. 56-001355.0000 as of calendar
7 year 2006 is 4,278.98 acre-feet per year ("Service Area No. 56-001355.0000 current
8 demand").
- 9
10 13. Santa Cruz's committed demand for its Service Area No. 56-001355.0000 as of calendar
11 year 2006 is 3,228 acre-feet per year (Service Area No. 56-001355.0000 committed
12 demand). This includes committed demand within the 387 District area.
- 13 14. Santa Cruz's projected demand for its Service Area No. 56-001355.0000 for 2013, the
14 sixth calendar year from the date of this Decision and Order, is 14,997.78 acre-feet
15 (Service Area No. 56-001355.0000 2013 projected demand). The Service Area No. 56-
16 001355.0000 2013 projected demand does not include the Service Area No. 56-
17 001355.0000 current demand or the Service Area No. 56-001355.0000 committed
18 demand, but does include the demand at build-out of plats reasonably projected to be
19 approved through calendar year 2013. The Service Area No. 56-001355.0000 2013
20 projected demand includes the projected demand within the 387 District area.
- 21
22 15. Santa Cruz's Service Area No. 56-001355.0000 annual estimated water demand, which is
23 the sum of the Service Area No. 56-001355.0000 current demand, the Service Area No.
24 56-001355.0000 committed demand and the Service Area No. 56-001355.0000 2013
25 projected demand, is 22,504.76 acre-feet per year. (Service Area No. 56-001355.0000
26 annual estimated water demand.)
27
28

- 1
2 16. Historic hydrologic information demonstrates that the depth-to-static water level within
3 Santa Cruz's service areas currently ranges from approximately 437 feet to 623 feet
4 below land surface.
- 5 17. Santa Cruz demonstrated in a previous application that after one hundred years of
6 withdrawing 25,575.21 acre-feet per year of groundwater within Service Area No. 56-
7 001355.0000, the depth-to-static water level is not expected to exceed 1,100 feet below
8 land surface.
- 9
10 18. Santa Cruz has demonstrated that wells of sufficient capacity are in place to deliver
11 25,575.21 acre-feet per year of groundwater to its Service Area No. 56-001355.0000.

12 **Physical and Continuous Availability of Groundwater: Southwest Service Area**

- 13 19. Santa Cruz has submitted an Initial Notice of Intent to Establish a New Service Area
14 Right for a separate service area (Southwest Service Area), which was approved by the
15 Department on February 9, 2007. The Initial Notice includes the following information:
16
17 a. Santa Cruz has obtained permits for Well No. 55-612247 and Well No. 55-592236.
18 b. Santa Cruz has leased Type 2 Non-Irrigation Grandfathered Right No. 58-
19 109249.0007 for 250 acre-feet per year through December 31, 2008.
- 20 20. Santa Cruz's current demand for its Southwest Service Area as of calendar year 2006 is 0
21 acre-feet per year (Southwest Service Area current demand).
- 22 21. Santa Cruz's committed demand for its Southwest Service Area as of calendar year 2006
23 is 0 acre-feet per year (Southwest Service Area committed demand).
- 24
25 22. Santa Cruz's projected demand for its Southwest Service Area for 2013, the sixth
26 calendar year from the date of this Decision and Order, is 1,474.57 acre-feet (Southwest
27 Service Area 2013 projected demand). The Southwest Service Area 2013 projected
28

1
2 demand does not include the Southwest Service Area current demand or the Southwest
3 Service Area committed demand, but does include the demand at build-out of plat
4 reasonably projected to be approved through calendar year 2013 within the Southwest
5 Service Area.

6 23. Santa Cruz's Southwest Service Area annual estimated water demand, which is the sum
7 of the Southwest Service Area current demand, Southwest Service Area committed
8 demand and the Southwest Service Area 2013 projected demand, is 1,474.57 acre-feet
9 per year. (Southwest Service Area annual estimated water demand.)
10

11 24. Historic hydrologic information demonstrates that the depth-to-static water level within
12 Santa Cruz's service areas currently ranges from approximately 437 feet to 623 feet
13 below land surface.

14 25. Santa Cruz has demonstrated that after one hundred years of withdrawing 16,806.90 acre-
15 feet per year of groundwater within the Southwest Service Area, the depth-to-static water
16 level is not expected to exceed 1,100 feet below land surface.
17

18 26. Santa Cruz has demonstrated that wells of sufficient capacity are in place to deliver
19 1,474.57 acre-feet per year of groundwater to its Southwest Service Area.
20

Consistency with Management Goal

21 27. As of the date of this Decision and Order, Santa Cruz's groundwater allowance pursuant
22 to A.A.C. R12-15-725(A)(2)(a) is 4,266.1 acre-feet per year, based on the service area
23 population as of October 1, 2007. As of the date of this Decision and Order, Santa Cruz
24 has not yet provided information regarding residential lots within plats recorded prior to
25 October 1, 2007, but not yet served water as of that date, and to which Santa Cruz has
26 commenced water service. The Department will modify Santa Cruz's groundwater
27
28

1
2 allowance during the term of the designation as Santa Cruz submits the necessary
3 information.

4 28. Pursuant to A.A.C. R12-15-725(A)(3), the Director shall add a volume of incidental
5 recharge to Santa Cruz's groundwater allowance each calendar year based on its total
6 water use from any source in the previous calendar year. Santa Cruz's incidental
7 recharge volume for calendar year 2007 is 171.16 acre-feet. The Director will continue
8 to add a volume of incidental recharge to Santa Cruz's groundwater allowance each
9 calendar year, in accordance with A.A.C. R12-15-725(A)(3).
10

11 29. As of October 1, 2007, Santa Cruz pledged a total of 8,692.52 acre-feet per year of
12 extinguishment credits to its designation, as shown in Attachment A to this Decision and
13 Order. These extinguishment credits will be calculated according to A.A.C. R12-15-
14 722(E)(3)(a).
15

16 30. During the effective period of this Decision and Order, Santa Cruz intends to pledge
17 additional extinguishment credits in support of its designation. Such extinguishment
18 credits shall be calculated according to R12-15-722(E)(2) or R12-15-722(E)(3)(b), as
19 appropriate.
20

21 31. The Director previously issued Certificates of Assured Water Supply for subdivisions
22 within the 387 District area. In order to demonstrate that proposed groundwater
23 withdrawals for these subdivisions will be consistent with the management goal for the
24 Pinal AMA, extinguishment credits were pledged to each subdivision. The
25 extinguishment credits pledged to the subdivisions total 1,224.7 acre-feet per year, as
26 shown in Attachment A to this Decision and Order. These extinguishment credits shall
27 be calculated according to R12-15-722(E)(3)(b).
28

1
2 32. Prior to October 1, 2007, Santa Cruz had a balance of 12,028.86 acre-feet of combined
3 unused extinguishment credits and unused groundwater allowance from previous
4 calendar years.

5 **Consistency with the Management Plan**

6 33. Santa Cruz is currently regulated as a large municipal provider under the Municipal
7 Conservation Program in the Third Management Plan for the Pinal AMA (Management
8 Plan). As of the date of this order, Santa Cruz has not been found to be out of
9 compliance with the Third Management Plan.
10

11 **Water Quality**

12 34. Santa Cruz is regulated by ADEQ as a public water system, pursuant to A.R.S. § 49-351,
13 *et seq.*, and is not in significant noncompliance, as of the date of this Decision and Order.
14

15 **Financial Capability**

16 35. In accordance with ACC Rules and Regulations, Santa Cruz finances extensions of its
17 distribution system through equity and by line extension agreements with owners of new
18 developments. Any owner of a new subdivision served by Santa Cruz must prove
19 financial capability to construct the necessary water infrastructure to the appropriate
20 platting entity and the Arizona Department of Real Estate pursuant to Titles 9, 11, and 32
21 of Arizona Revised Statutes.
22

23 **III. CONCLUSIONS OF LAW**

24 Having reviewed the Findings of Fact, the Department makes the following Conclusions of Law:

25 1. Santa Cruz has demonstrated that 22,504.76 acre-feet per year of groundwater will be
26 physically available, continuously available and legally available within its Service Area
27 No. 56-001355.0000 for at least 100 years and will be consistent with the management
28

1
2 goal. See A.A.C. R12-15-716; R12-15-717; R12-15-718; R12-15-722. This volume of
3 groundwater, 22,504.76 acre-feet per year, is equal to Santa Cruz's Service Area No. 56-
4 001355.0000 annual estimated water demand, which is 22,504.76 acre-feet per year. See
5 Attachment B to this Decision and Order.

6 2. Santa Cruz has demonstrated that 1,474.57 acre-feet per year of groundwater will be
7 physically available, continuously available and legally available within its Southwest
8 Service Area for at least 100 years and will be consistent with the management goal. See
9 A.A.C. R12-15-716; R12-15-717; R12-15-718; R12-15-722. This volume of
10 groundwater, 1,474.57 acre-feet per year, is equal to Santa Cruz's Southwest Service
11 Area annual estimated water demand, which is 1,474.57 acre-feet per year. See
12 Attachment B to this Decision and Order.

13
14 3. For purposes of A.A.C. R12-15-716(B)(3)(c)(ii), Santa Cruz's annual estimated water
15 demand that will be met with groundwater within its Service Area No. 56-001355.0000 is
16 22,504.76 acre-feet per year, and its annual estimated water demand that will be met with
17 groundwater within its Southwest Service Area is 1,474.57 acre-feet per year.

18
19 4. In accordance with the requirements of A.A.C. R12-15-722(E), Santa Cruz has
20 demonstrated that its projected use of groundwater is consistent with the management
21 goal of the Pinal Active Management Area.

22 5. The water supply served by Santa Cruz will be of adequate quality, pursuant to A.A.C.
23 R12-15-719(A)(1).

24
25 6. In accordance with A.A.C. R12-15-721, Santa Cruz meets the standard established for
26 determining consistency with the Management Plan for the Pinal AMA.

27 7. Santa Cruz has satisfied the financial capability criteria prescribed in A.A.C. R12-15-720.
28

1
2 8. Santa Cruz has satisfied all requirements for a designation of assured water supply.

3 **IV. ORDER OF DESIGNATION AND CONDITIONS OF DESIGNATION**

4 Having reviewed the Conclusions of Law, the Director hereby issues this Decision and Order
5 designating Santa Cruz as having an assured water supply, subject to the following conditions:

- 6 1. The Department reserves the right under A.A.C. R12-15-711(C) to periodically review
7 and modify the designation as conditions warrant.
8
9 2. Pursuant to A.A.C. R12-15-711(F), the Department may revoke this designation if the
10 findings of fact or the conclusions of law upon which the designation is based change or
11 are invalid, or if an assured water supply no longer exists.
12 3. The Director's determination that an assured water supply exists for Santa Cruz is based
13 on its review of the water supplies pledged by Santa Cruz.
14 4. Santa Cruz shall submit an application to modify this decision and order designating
15 Santa Cruz as having an assured water supply to increase the term of the designation
16 when the sum of Santa Cruz's current demand, committed demand and two-year
17 projected demand for its Service Area No. 56-001355.0000 exceeds 22,504.76 acre-feet
18 per year, when the sum of Santa Cruz's current demand, committed demand and two-year
19 projected demand for its Southwest Service Area exceeds 1,474.57, or by January 1,
20 2012, whichever is earlier.
21
22 5. Pursuant to A.A.C. R12-15-711(F)(3), Santa Cruz shall continue to comply with A.A.C.
23 Title 18, Chapter 4 after the date of this designation.
24
25 6. Santa Cruz shall notify the Department when the ACC issues any order, including a final
26 decision and/or order, regarding its CC&N.
27
28 7. This Decision and Order designating Santa Cruz as having an assured water supply shall

1
2 apply to Santa Cruz's legally authorized service area, including the 387 District area.

3 8. Santa Cruz shall comply with any applicable requirements in A.R.S. Title 45, Chapter 15.

4 9. Santa Cruz may pledge additional extinguishment credits to its designation as its service
5 areas develop. If Santa Cruz intends to add extinguishment credits to its groundwater
6 account, it must notify the Department's Office of Assured and Adequate Water Supply
7 to add these credits to its groundwater account.

8
9 10. Santa Cruz shall annually provide to the Department the following information in the
10 manner prescribed in A.A.C. R12-15-711(A):

11 a. An estimate of the demand of platted, undeveloped lots located within Santa
12 Cruz's Service Area No. 56-001355.0000.

13 b. An estimate of the demand at build-out of customers within Santa Cruz's Service
14 Area No. 56-001355.0000 with which Santa Cruz has entered into a notice of
15 intent to serve agreement in the calendar year.

16
17 c. An estimate of the demand of platted, undeveloped lots located within Santa
18 Cruz's Southwest Service Area.

19 d. An estimate of the demand at build-out of customers within Santa Cruz's
20 Southwest Service Area with which Santa Cruz has entered into a notice of intent
21 to serve agreement in the calendar year.

22 e. A report regarding Santa Cruz's compliance with water quality requirements.

23
24 f. The depth-to-static water level of all wells from which Santa Cruz withdrew water
25 during the calendar year.

1
2 g. Any other information requested by the Director to determine whether to continue
3 Santa Cruz is continuing to meet all the requirements necessary to maintain this
4 designation of assured water supply.
5

6 **IT IS HEREBY ORDERED THAT SANTA CRUZ WATER COMPANY BE**
7 **DESIGNATED AS HAVING AN ASSURED WATER SUPPLY UNTIL DECEMBER 31,**
8 **2013.**
