Dear Commissioners and Judges

Please do not respond to the Numbers of people some realtor and friends rented a bus to haul to the ACC Phoenix hearing.

As a Pine resident, I believe the \$300,000 expenditure for the K2 well exploration would be well spent even we did not realize substantial water.

The 99% of the people who don't come to the PSWID water Board meetings and who are signing petitions to remove the board or protest the exploration costs are lemmings whose next step will be off the cliff.

Your singular aim should be to ask the petitioners what is their solution to get water in the pipes sooner. I am reasonably sure it will take years to get back to this level of possibility were the current effort to be aborted.

How about You.

Spoke with Mr. Privette and advised that his opinion would be filed in Docket Control center and made a matter of public record. Mr. Privette was knowledgeable in retrieving information from our website and although he was unable to attend yesterdays' meeting, he will be viewing the printed version of the public comments made at the proceedings. He was particularly interested in the presentation by Pam Mason and responses to that presentation.

Provided him with my direct number if he should have further concerns.
