GOLDEN CORRIDOR WATER COMPANY CUSTOMERS IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Based on the efforts of Arizona Water Company, the water is safe to drink in the Golden Corridor water system, and it is no longer necessary to use an alternative source of water.

Arizona Water Company recently notified customers of Golden Corridor Water Company that a routine water sample taken from the Golden Corridor well exceeded the Maximum Contaminant Level ("MCL") for nitrate. On Tuesday, August 21, 2007, the interconnection with Arizona Water Company's Casa Grande System was completed. The Golden Corridor well and water storage tank are no longer in service. The water supplied by Arizona Water Company complies with all state and federal safe drinking water standards. Subsequent water samples taken throughout the water distribution system show the level of nitrate in the water distribution system is below the MCL.

You will notice on your next water bill that Arizona Water Company opted not to implement or charge the additional \$3.00 per 1,000 gallon emergency surcharge recently approved by the Arizona Corporation Commission.

Golden Corridor Water customers who purchased alternative supplies of drinking water at locations of their choosing must submit their receipts for reimbursement by Tuesday, September 4, 2007.

Receipts must include customer name, address, and account number, and should be sent to: Arizona Water Company - Operations Department, 3805 North Black Canyon Highway, Phoenix, AZ 85015.

FOR CUSTOMERS WHO DISTRIBUTE WATER TO OTHERS

Please share this information with other people who drink the water, especially those who may not have received this notice directly. You can do this by posting this notice in a public place or by distributing copies by hand or mail.

If you have any questions about your water service, please call Ray Murrieta, Casa Grande Division Manager at (520) 836-8785, or visit our local office at 220 East Second Street in Casa Grande during normal business hours, Monday through Friday.
