"Resolution

DOCKETED BY	
-------------	--

46. The process by which the REST Rules were developed and adopted was one of the most thoroughly deliberated rulemaking dockets in the history of the Commission. We find no justification for waiving or otherwise relaxing the Company's obligations to comply with the Rules.

47. The Company's Sample Tariff Funding Plan Option would provide only a portion of the renewable energy required by the REST Rules. Therefore, we will not adopt the Company's Sample Tariff Funding Plan Option.

48. Staff's proposed 2008 Renewable Energy Standard Implementation Plan would maintain the requirements of the REST Rules, but would not provide sufficient funding for the Company to meet those requirements. Therefore, we will not adopt Staff's proposed 2008 REST Plan.

49. The Company's Full Compliance Opportunity Plan would satisfy the REST Rules using a budget that is adequate for the Company to ensure full compliance. Therefore, we will approve the Company's Full Compliance Opportunity Plan as modified herein to prorate 2008 budget for the remaining eight months of the year. That budget amount is \$15,724,444, which is 66.67 percent of the requested \$23,586,549."
