Frito-Lay North America

APPLICATION OF ARIZONA PUBLIC SERVICE COMPANY FOR APPROVAL OF
A COMMERCIAL ELECTIC SUPPLY/PURCHASE AGREEMENT

Frito-Lay, a division of Pepsico, Inc., would like to commend both the Arizona Corporation Commission, as well as Arizona Public Service Company for their dedication to renewable energy and their willingness to work creatively to make large-scale commercial distributed generation a reality in Arizona. Our recent installation of a 200 kW solar photovoltaic (PV) system on top of our Phoenix Distribution Center roof would not have been feasible without your leadership.

We are excited to activate the system and we hope to begin producing energy as soon as possible. In order for this to happen, the Commission must approve the Commercial Electric/ Supply Purchase Agreement filed on October 5th under Docket E-01345A-07-0577. This interim agreement provides means for our PV system to connect to the APS grid until a more permanent rate plan for PV systems 100 kW and above is approved by the Commission.

We ask for your assistance in expediting this process and we are hopeful that the matter can be addressed in the upcoming open meeting on October 23rd - 24th.

Thank you for your time and consideration,

Best Regards,

Jake Wenz
