Members of the ACC,

This is in reference to the two referenced dockets in the subject above.

The K-2 well and storage site, owned by Strawberry Water Company (Brooke Utilities) is the key ingredient of these cases.

Much of the testimony that has been given and the questions asked by all parties including the ACC staff has been on the K-2 project and site.

In the testimony there have been some inaccurate and misleading statements made regarding this site.

I suggest, as a resident of Strawberry, and a land owner that borders the site on the North and the West, that you visit the site when you visit Pine prior to the Oct 26 hearing. If by chance there will not be a hearing on W-03512A-07-0362 in Pine prior to the Oct. 26 hearing, I strongly suggest that representatives from the ACC visit the site and offer comments.

Directions are as follows:

Take Hwy 87 north from Payson to Pine and then on to Strawberry.

You will see a large/tall advertising sign. That is next to Parkinson Drive.

Turn West (left) and just prior to the first house (about 1/4 of a mile) on the right there is a drive (The ingress/egress easement).

Turn north or right and it will take you to the site.

If there are to many vehicles, some can park on the drive just past the 2nd house which loops around the back to the site.

I hope you will come. If anyone being there to provide explanation poses a problem, the site can be viewed without assistance.

Regards,

Bruce
