RE:	DOCKET NO. W-02105A-07-0510

MT. TIPTON WATER COMPANY'S answer to complaint filed September 5, 2007

Please accept our apology for failing to respond in a timely manner to the Commission's complaint filed September 5, 2007. Please understand that it was not due to any intentional disregard of the Commissioners' rulings. In fact, it was due to the mistaken assumption that the correspondence docketed September 17, 2007 was only a formal statement summarizing the Open Meeting with Mt. Tipton Water Company, held on September 19, 2007.

In response to the Commission's ORDER TO SHOW CAUSE, DECISION NO 69913 :

In compliance to Decision No. 66732 and Decision No. 67162, MTWC has provided quarterly Hook-up Fee reports along with Annual Summaries through the 3rd quarter on 2007.

MTWC has submitted its 2006 utility annual report, and re-submitted after correcting the statutory agent's name.

Reporting information has been submitted to ADEQ by MTWC bringing us into compliance with that agency and subsequently to ACC's requirements.

The one area of non-compliance remaining is that of providing water quantity pumped, sold, and percentage of loss. Although we are still entering data into excel in an attempt to provide the most accurate accounting possible. The reports that are contingent upon this data are forthcoming.

Thank you for your consideration and patience.

Sincerely,

Sue Rimer, Clerk

Arizona Corporation Commission
