DATE PREPARED: November 26, 2007

COMPANY: Sulphur Springs Valley Electric Cooperative, Inc. AGENDA ITEM NO. U-1

DOCKET NO. E-01575A-07-0446 OPEN MEETING DATE: November 27-28, 2007

Page 7, Line 10, INSERT NEW FINDING OF FACT:

"The Commission also notes that the record in this case reflects that SSVEC's service territory is experience significant growth, which is in large part responsible for the instant financing Application. Hook-up fees have been successfully adopted by several Arizona cooperatives in recent years as a means of mitigating the need for future rate increases and of making growth pay for itself. Therefore, we believe that SSVEC should explore the potential for implementing a hook-up fee as a method of addressing at least a portion of the infrastructure costs it is currently incurring. SSVEC shall file a proposal to implement hook-up fees in their next rate case, as part of their report to the Commission on its capital structure or within 90 days of the Commission's ruling on the generic docket on hook-up fees, Docket No. E-00000K-07-0052, whichever comes first."
