Subject: Perkins Mountain Water

As one of many reservation holders of Pravada and many more pro growth advocates for Golden Valley/ Kingman area. I can only wonder why it is that you seem to be the only one trying to stop it's progress. Is it a personal thing against Jim Rhodes, or is there other ulterior motives. Either way you will not get my vote in the future. You are only delaying the inevitable and hurting many people in the process. Could we please move on with this issue one way or another, it has gone on far to long for what it is. Thank you. John Strong.

Subject: Soften up your heart...

Hello Kristen Mayes,

Please read the story in the link below. Maybe some Jesus will shine through to your black heart!!! *Mrs. Millie Sanderson is looking down from heaven upon you now.....*

Your personal vendetta with Mr. Rhodes is hurting alot of good people, I hope and pray that you will stop with your venomous attacks from your undeserved position of power which is being grossly abused. Your motives seem to be anything but pure! I just wonder what you will tell Jesus on Judgement Day about your actions? I wonder if he will be impressed with your position of power? The hatred in your heart is even showing through in the picture of you on the acc website, the eyes are the mirror of the soul.

Please quit fighting this Perkins Water deal with Utilities Inc. It will be a good thing for many many good people that have been waiting for a long long time for a thing such as this to come to Golden Valley. I wonder if you have even layed your eyes upon this great valley. There is more to Arizona than Phoenix by far. Please let us grow here!!!

God Bless You,
James Dove
Golden Valley landowner
