Re: Docket #W-20435A-06-0411 – Compliance Item
~~W-20435A-06-0410~~

Please be advised that we are requesting an extension of time regarding the compliance item that addresses the 7,500 gallon storage tank at PWS #12-308.

This item was to be addressed by December 31, 2007, however, other more pressing issues needed to be completed and therefore delaying this project.

To further explain, the financially strapped Company has had to replace an existing storage tank that is leaking beyond repair. We are planning to do this within the next 30 to 60 days. We cannot financially do both projects at once.

We respectfully request at least a 90 to 120 day extension to ease the burden on this small company. It is our desire to address this issue but simply cannot at this time.

Thank you in advance for your consideration in this matter.

Sincerely,

Bonnie O'Connor, VP
Southwestern Utility Management, Inc.
