RE: REQUEST FOR EXTENSION OF COMPLIANCE DEADLINE - JOHNSON UTILITIES, L.L.C. (DOCKET NO. W-02987A-05-0088 - DECISION NO. 68235)

In Decision Nos. 68235 and 68237, both dated on October 25, 2005, the Arizona Corporation Commission ("A.C.C." or "Commission") approved the application of Johnson Utilities Company ("Johnson") for extension of the existing Certificate of Convenience and Necessity ("CC&N") for water and wastewater service.

As part of Decision No. 68235, the Commission ordered that Johnson:

"...must file with Docket Control, as a compliance item in this docket, the Unified (Aquifer Protection) Water Quality Permits issued by ADEQ for the Copper Basin Regional Wastewater Treatment Facility within 365 days of the decision in this case."

As part of Decision No. 68237, the Commission ordered that Johnson:

"... shall file with Docket Control, as a compliance item in this docket, a copy of the Unified (Aquifer Protection) Water Quality Permits by ADEQ for ... the Copper Basin Regional Wastewater Treatment Facility, with(in) 24 months of the effective date of this Decision."

Based on the Decision date of October 25, 2005, the Aquifer Protection Permit ("APP") was technically due on or about October 25, 2006, for Decision No. 68235, and on or about October 25, 2007 for Decision No. 68237.

On September 19, 2006, the Company filed a request for extension from 365 days to 24 months for provision of the APP outlined in Decision No. 68235. On September 25, 2006, a Staff report was docketed by Staff recommending approval of the extension to 24 months to "allow the same amount of time in Decision Nos. 68235 and 68237 to comply with the Commission Order". Unfortunately, Staff was unable to locate a Commission Order or a subsequent Procedural Order wherein any ruling was made on the request for extension of the 12 month APP requirement in Decision No. 68235. Staff, therefore, recommends that the Company's request to increase the Decision No. 68235 due date from 365 days to 24 months be retroactively approved.

On October 4, 2007, the Company docketed a further two year request for extension of time to comply with the Copper Basin APP requirement. The Company docketed the request in both Docket Nos. W-02987A-04-0288 and W-02987A-05-0088 and requested the same extension of time (until October 25, 2009) to file the APP relating to the Copper Basin Wastewater Treatment Facility ("Copper Basin Facility").

In each application for extension, the Company stated that they filed the APP application with the Arizona Department of Environmental Quality ("ADEQ") but experienced a significant delay in its processing due to an illegal conveyance of the subject property:

"We submitted our APP application on May 4, 2006 with ADEQ and have run into an unexpected delay. During the permitting processes we learned that the plant site had been illegally conveyed by the previous land owner to a third party in 2006. We were forced to file a lawsuit to regain clear title to the property. Although it was a lengthy process we have received a judgment from the courts conveying the property back to the Utility.

Now that we have received clear title, we are re-filing our APP application with ADEQ and are in need of an extension of the compliance date. We hereby request a 24 month extension of the compliance date to October 25, 2009."

On December 11, 2007, Staff asked Mr. Daniel Hodges, Vice President of Johnson, to provide evidence supporting the statement that there was a lawsuit over the property title. Mr. Hodges provided a copy of a Judgment in Case No. CV2006-1607 of the Superior Court of Arizona – County of Pinal showing Johnson Utilities as Plaintiffs vs. SHR Sales Company, LLC, et al as Defendants. Page two of the Judgment states the following:

"It is hereby ordered, adjudged and decreed that pursuant to Rules 56 and 70, Ariz. R. Civ. P., SHR Sales, LLC and G2F2, Inc. are divested of all right, title and interest in and to the Properties described in Exhibits B and C attached hereto and that fee simple title in and to the Properties is vested in Johnson Utilities, LLC."

A review of Exhibit B and C attached to the Judgment showed property descriptions with the title "Wastewater Treatment Plant Site" and "Copper Basin Lift Station #1 and #2", respectively.

In addition to requiring a cleared title in the application, Mr. Hodges stated that ADEQ also listed a zoning classification as another issue in the processing of the APP. Mr. Hodges explained that the Copper Basin Facility was zoned with an Industrial classification rather than with a Wastewater Treatment Facility classification. This classification represents another issue that will need to be corrected as part of ADEQ's APP processing.

Based on the above, Staff recommends that the Company's September 19, 2006 request to increase the Decision No. 68235 due date from 365 days to 24 months be retroactively approved. Staff further recommends that the due date for Decision No. 68235 be extended to

December 20, 2007

Page 3

October 25, 2009 as proposed by the Company. In addition, Staff recommends that no further time extensions be granted to comply with Decision No. 68235.

RE: Johnson Utilities, L.L.C.: Compliance with Decision No. 68235
ACC Docket No. WS-02987A-05-0088
RE: Unified (Aquifer Protection) Water Quality Permit for the Copper Basin Wastewater Treatment Facility

Dear Mr. Johnson:

Pursuant to the above mentioned decision, Johnson Utilities hereby requests an extension of time to file the Unified (Aquifer Protection) Water Quality Permit ("APP) for the Copper Basin Wastewater Treatment Facility that is currently due on October 25th. We submitted our APP application on May 4th, 2006 with ADEQ and have run into an unexpected delay. During the permitting processes we learned that the plant site had been illegally conveyed by the previous land owner to a third party in 2006. We were forced to file a lawsuit to regain clear title to the property. Although it was a lengthy process we have received a judgment from the courts conveying the property back to the Utility.

Now that we have received clear title, we are re-filing our APP application with ADEQ and are in need of an extension of the compliance date. We hereby request a 24 month extension of the compliance date to October 25, 2009. This delay of time in receiving the permit will not negatively affect the developer of the Quail Run project since the wastewater flows are designed to go to the Section 11 WWTP until the Copper Basin WWTP is up and running.

If you need any additional information in regards to this compliance items, please do not hesitate to contact me. Thank you for your time and consideration in this matter.

Sincerely,

Brian P Tompsett
