DOCKETED BY

Honorable Renz D. Jennings;

As full time residents of Sun City we would like to ask you to please vote in favor of the recently submitted CAP Task Force recommendations.

It is our understanding that all participants in the Task Force came to a common agreement of how best to use the available CAP water with the lone exception of the Sun City Taxpayers Association. We are members in good standing of the Sun City Taxpayers Association and have supported most everything they have done in the past, but in the utilization of CAP water we believe they are taking a very short sighted stand.

We understand the Task Force recommendations are to, in the interim, assign the available CAP water to Maricopa Water District use and to ultimately use the water in the Ground Water Saving Project (use on golf courses). We are in full agreement with this planned use of the CAP water.

Like most of us in Sun City we are retired and living on a more or less fixed income. None of us want to see our water bills go up, but by not acquiring the rights to this available CAP water now, however, those who follow us will surely pay significantly more.

Please use your good common sense and vote in favor of the CAP Task Force recommendations.

Sincerely,

Raymond K. Fold
