Arizona Corporation Commission

DOCKETED

JAN 22 2008

DOCKETED BY	nr
-------------	----

On January 17, 2007 Arizona Water Company (the "Company") filed certain documents in compliance with ordering paragraph number 14, Conclusion of Law No. 14, and Finding of Fact No. 126 of Decision No. 68453, which was entered in this docket on February 2, 2006 (the "Decision").

The Company is now filing the following documents and information in supplementation of its January 17, 2007 compliance with the Decision:

1. An Application for a Certificate of Assured Water Supply for the Martin Valley Ranch development, attached hereto as Attachment 1, Part G.1 of which confirms that the Company's Physical Availability Determination for the Application was the basis of the physical availability of the Certificate of Assured Water Supply that was issued by the Arizona Department of Water Resources for the Martin Ranch Development dated August 11, 2006, and filed with the Commission in this docket with the Company's January 17, 2007 compliance filing.

2. Three (3) additional Certificates of Approval to Construct Water Facilities, attached hereto as Attachments 2, 3 and 4 for Company production and storage facilities which are currently used to provide water service to the Martin Valley Ranch development. Two (2) Certificates of Approval to Construct Water Facilities for on-site and off-site facilities to serve the Martin Ranch Development, dated July 19, 2006, were filed with the Commission as part of the Company's January 17, 2007 compliance filing.

In addition, the Company previously filed two (2) main extension agreements associated with facilities that provide service to the Martin Valley Ranch development as part of the Company's January 17, 2007 compliance filing.

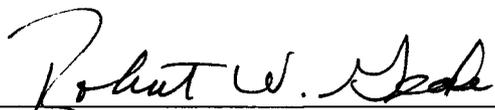

It is the Company's position that, with this filing, it has satisfied the Decision's compliance requirements in their entirety; however, if the Commission believes that any further information or documents should be filed concerning the Physical Availability Determination, or the Certificates of Approval to Construct, the Company respectfully requests an additional 365 days beyond the original compliance date, i.e., until February 2, 2009, to provide such information or documents.

If "no," a completed "Verification of Construction Assurance" form (attached) must be submitted.  
If development is a dry lot subdivision, no financial assurances are required.
2. Will wells, off-site pipelines, storage or treatment facilities be constructed to serve this subdivision?  Yes  No  
If "yes," please provide A) A description of the improvements (reference the attachment): see attached - Exhibit A  
B) Evidence of financial capability (reference the attachment):  
C) Schedule for completion of improvements (reference the attachment): see attached - Exhibit A

**PART G - PHYSICAL AVAILABILITY OF SOURCE WATER**

1. If the development consists of more than 20 lots, a comprehensive hydrologic study must be submitted with this application, unless the Department has previously reviewed the hydrologic conditions for this area and has issued a valid Letter of Water Availability, Physical Availability Determination or Analysis of Assured Water Supply. Please indicate the evidence of physical availability and reference as an attachment:  
 Water Availability Letter                       Physical Availability Determination  
 New Hydrologic Study                               Subdivision of less than 20 lots  
 Other, \_\_\_\_\_ please specify

Arizona Water Company - Casa Grande PAD

**PART H - WATER QUALITY**

1. If the subdivision will be served by a provider regulated by the Arizona Department of Environmental Quality, you will need to request a report to assess the water quality of the proposed supply. In Maricopa County the compliance reports are handled by the Maricopa County Health Department. In the remainder of the state, requests for compliance reports should be directed to ADEQ, Drinking Water Compliance Section. For new providers, please provide the initial source approval sampling results. For dry lot subdivisions, please provide water quality data from

on- site, or from nearby sources. It may be necessary for the applicant to provide further information in order for ADWR to determine the quality of the proposed supply. If the proposed subdivision is located within one mile of a Water Quality Assurance Revolving Fund or Superfund site, or if the proposed supply fails to meet safe drinking water quality standards, a contaminant migration analysis must be submitted.

Reference either the attached study or a copy of a previous determination of water quality:

See the attached - Exhibit B

**PART I - FEES**

Please calculate fees by completing the appropriate items below, and include the total fees with your application. Payment may be made by cash, check, or in some cases, by entry in an existing Department fee credit account. Checks should be made payable to the Department of Water Resources. Failure to enclose the required fees will cause the application to be returned. Fees for certificates of assured water supply are authorized by A.R.S. § 45-113.
