AZ CORP COMMISSION
DOCKET CONTROL

Dear Mr. Gleason,

I've lived in AZ for 15 years and I can not remember APS raising it's rates at the rate they've been doing it lately. Below is an article from ABC News saying their ready to do it again!! Can you tell me what the reason is for this rate increase this time? Air conditioning is not a luxury in Arizona, it's a necessity. I once heard APS is making a lot of money every year and their executives fly first class. Isn't there something wrong with that picture. I would very much like to know if you'll be approving this increase. Please feel free to contact me by phone or email.

Thank you,

Sharon Turner

APS to raise electricity rates in Valley, across Arizona?

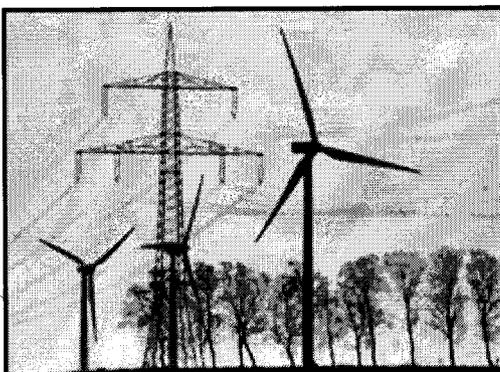

Reported by: Chris Kline

Email: ckline@abc15.com

Last Update: 9:49 am

Arizona Corporation Commission
DOCKETED
JAN 24 2008

DOCKETED BY nr

The largest power company in Arizona is asking regulators to raise customer fees by \$1.30 every month.

1/23/2008

The higher rates would help cover the cost of delivering electricity, according to officials from Arizona Public Service (APS).

The rate hike would help generate an estimated \$30 million each year for the company.

APS already has approval from federal regulators. Now they want the Arizona Corporation Commission to give them the go-ahead.

APS customers are paying nearly 15-percent more than they were two years ago.
