IN THE MATTER OF THE APPLICATION OF SANTA CRUZ WATER COMPANY FOR AN EXTENSION OF ITS EXISTING CERTIFICATE OF CONVENIENCE AND NECESSITY.

Docket No. W-03576A-06-0545

**NOTICE OF FILING
LANDOWNER STATUS REPORTS**

Global Water - Santa Cruz Water Company, L.L.C. ("Santa Cruz") and Global Water - Palo Verde Utilities Company, L.L.C. ("Palo Verde")(collectively "Global Utilities") file the attached Landowner Status Reports as required by the Commission's procedural order dated December 20, 2007. Attached are the following:

Attachment	Description
A	Map showing extension area; areas with landowner status reports are shown in a different color
B	Landowner Status Reports (includes renewed request for service)
C	Original request for service letters for those areas not covered by a Landowner Status Report

The Global Utilities have requests for service for 100% of the extension area. Overall, about 71% of landowners who originally requested service responded to a request for update. And

1 100% of those who responded to the request for an update indicated a continued need for service.
2 It is always difficult to get people to respond to requests for information, and the results here are
3 thus strong showing of continued support for the application.

4 The Global Utilities note the unusual nature of this filing. The Commission has
5 historically determined need by looking to request for service letters. The original request for
6 service letters fully complied with this precedent. The Commission should respect the landowner
7 choices and statements made in those letters. Requiring updates from landowners as a requirement
8 for granting a CC&N would be unprecedented.

9 The Landowner Status Reports demonstrate a continued need for service in the extension
10 area. Indeed, some of the letters demonstrate that approval of the extension requested in this case
11 is a pressing and critical need for these landowners. For example, the letter from Maracay Homes
12 notes that “approval of this expansion area is critical... we have a significant investment in this
13 property... and we are counting on the provision of services by Global Water – Santa Cruz Water
14 Company and Global Water – Palo Verde Utilities Company.” A small landowner, Kevin Norby,
15 notes that “I have been anxiously awaiting approval for services to the property so that I can move
16 forward with development and construction of homes on the property.... I am ready to move
17 forward with the development for this property upon your approval of sewer and water services for
18 the area.”

19 The landowners are continuing with development activities. For example many of them
20 are pursuing preliminary plats.

21 Development is a major factor in Arizona’s economy. The recent slow-down in the
22 economy – especially the development sector – has caused substantial pain in this state, including
23 the loss of jobs. It is important, then, that the government not act to add unnecessary delays to the
24 development process for those developers that are willing to move forward. Thus, delay in this
25 case is not in the public interest. It has been more than 500 days since this case was filed. The
26 landowners deserve the opportunity for a ruling on this case.

27

1 The December 20, 2007 Procedural Order also asked that Staff comment on whether this
2 docket should be stayed pending resolution of Docket No. W-00000C-06-0149. The Global
3 Utilities note that there has been no activity in that docket for some time. Moreover, the issue of
4 ICFAs is, at best, of tangential relevance to this proceeding. The Global Utilities agree with the
5 recent testimony of Staff Witness Linda Jaress, who when asked about a stay for resolution of the
6 ICFA issue in another CC&N case stated:

7 Q. Why does Staff think that it's important to approve the CC&N even though the
8 ICFA issue has yet to be resolved?

9 A. Because we have requests for service.... Global is a big presence in Pinal County,
10 and the impact of that would have been to just stop everything, any extensions in
11 Global's territory or the territory that Global wants to serve or areas where
12 developers have requested service to stop everything based on a determination of an
13 accounting determination." (December 20, 2007 Tr. at 120 in Docket No. SW-
14 20494A-06-0769 et al.)

15 The recent economic downturn adds further emphasis to this point.

16 The Global Utilities also agree with Staff's statement that CC&N cases "not be used as a
17 test case with respect to ICFAs".¹ The Global Utilities further agree with Staff's statement that
18 except for one scenario (not relevant here), ICFA issues are not relevant to a CC&N docket.² That
19 is because the ICFA issue is essentially a dispute about how to categorize funds for accounting
20 purposes, and such accounting issues are "not typically relevant outside of a rate case."³ Thus, the
21 Global Utilities request that this case proceed without delay.

¹ Staff Brief filed March 7, 2007 in Docket No. W-01445A-06-0199 et al. at page 5.

26 ² Id. at 7, noted that ICFAs relevant "solely" with respect to one issue. That issue is not present in
this case.

RE: Request for Services from Global Water – Santa Cruz Water Company
Global Water – Palo Verde Utilities Company

Dear Ms. Liles,

Maracay Homes Arizona I, L.L.C. owns approximately 296 acres at the southwest corner of White and Parker and Steen Roads in the City of Maricopa, AZ, more accurately described in Exhibit A attached hereto and we hereby request water, wastewater, and recycled water service for this property from Global Water – Santa Cruz Water Company and Global Water – Palo Verde Utilities Company.

The property is currently zoned in the City of Maricopa as Planned Area Development (PAD) Single-Family Residential with an approved preliminary plat for approximately 932 single-family residential lots. It is our intention to continue through the entitlement process for final plat approval and recordation of the individual parcels beginning before mid-year 2008. The expansion of this service area has been anticipated since the receipt of our conditional will-serve letters in the Fall of 2006. As we near completion of our improvement plans and prepare for the issuance of development permits, the approval of this expansion area is critical. Please proceed with the approval of the requested service area to accommodate the upcoming need for water and sewer service to the Daltessa Heights subdivision. As you can imagine, we have a significant investment in this property, the engineering, platting and entitlements, and we are counting on the provision of services by Global Water – Santa Cruz Water Company and Global Water – Palo Verde Utilities Company. Thank you.

Please contact me if you have any questions.

Sincerely,

Thomas H. Lemon,
Vice President Land Acquisitions

RE: Request for Services from

Dear Ms. Liles:

My name is Kevin Norby. I own a 5 acre parcel of land in Pinal County near the intersection of Peters and Nail Road and Warren Road near the town of Maricopa as described in Exhibit A attached hereto and I hereby request water, wastewater, and recycled water service for this property from Global Water – Santa Cruz Water Company and Global Water – Palo Verde Utilities Company. The parcel is legally owned by Kevin G. Norby, LLC, and I have been anxiously awaiting approval for services to the property so that I can move forward with development and construction of homes on the property.

The current zoning of the property allows for construction of 4 homes. I am ready to move forward with development for this property upon your approval of sewer and water services for the area.

As you may know, there are very few wells in the area and those that currently exist are very marginal in their ability to supply adequate drinking water. The area well drillers are telling me that it is unlikely that they can find water and they won't guarantee anything.

Re: Request for Water Supply and Wastewater Treatment Services

Dear Mr. Hill:

We are writing to you to request that Global Water Resources, LLC ("Global") provide public water and wastewater utility services for the properties we own, operate, and wish to develop in Pinal County, Arizona. Please consider this letter a request for water and wastewater services on behalf of the parties noted below.

We are impressed with Global's commitment to regional wastewater treatment solutions; Global's affirmation that the Ak-Chin Indian Community may be willing to assist in the realization of Global's commitment in the near term, through a utility easement across the Reservation, if necessary; and Global's business model, which involves the maximum use of treated effluent as reclaimed water for irrigation and other reuses acceptable under applicable statutes and rules. For these reasons, we look forward to working with Global to help avoid a proliferation of package treatment plants and a waste of valuable water resources, consistent with CAAG's Regional Water Quality Management Plan.

We, therefore, hereby petition Global to commence all legal proceedings before the Pinal County Board of Supervisors, Central Arizona Association of Governments, Arizona Corporation Commission, and other governmental authorities; make all technical plans; and take all reasonably necessary steps to provide wastewater treatment services to our properties.

We will take the steps necessary to complement your efforts, including execution of service agreements with Global. Pending the execution of agreements with Global, these steps shall, if necessary, consist of appearing to testify before the Pinal County Board of Supervisors, CAAG, Corporation Commission, and ADEQ. Please contact us to arrange a meeting as soon as possible to begin the exchange of information that may be necessary to help you prepare all applications, initiate all proceedings, and secure all certificates, permits, and other licenses necessary for Global to provide wastewater treatment services to our properties and developments.
