ACC Commissioners:

Re: Docket #'s **E-01345A-07-0663** and **T-01846B-07-0663**

We are in favor of the Underground Utility Project for Hillcrest Bay, Parker, AZ., which has been developed professionally by APS and the Hillcrest Bay Homeowner's Association. This project will provide higher service reliability from APS and Verizon, that is needed, and give our community a real visual upgrade by removing the existing front and rear poles and lines.

In the last few years, volunteer work parties have renovated our front entryway with new decorator block walls, irrigation systems, lighting and a large stone entryway sign with additional plans for retaining walls and associated irrigation and lighting. After completion of the Underground Utility Project, the association will be able to resurface the streets within the park. With the above and continued upgrades, we feel all of the homeowners living in Hillcrest Bay will have a real sense of pride in their community. The Underground Project is key to this end.

Sincerely,

Robert D. and Bonnie Strong
